

Aqva Marine Fragrance Oil with 65-95% Purity and 20 Years Manufacturing Experience for Soy Wax Candles Oil-Soluble And Water-Soluble

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL40029
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Container Material: Plastic Bottle/ Iron Barrel
- Sustainable: Yes
- Origin: China
- Other Names: Concentrated Essence Fragrance
- Burn Time: Up To 40 Hours
- Add Ratio: 1%-5%
- Advantage: 20 Years Manufacturing Experience
- Scent Intensity: Medium
- Solubility: Both Oil-Soluble And Water-Soluble
- Form: Liquid Oil
- Container Type: Jerry Can / Iron Barrel
- Purity: 65-95%
- Highlight: **65-95% Purity Candle Fragrance Oil , 20 Years Manufacturing Experience Aqva Marine Fragrance**

Product Description

Free Sample Aqva Marine Fragrance For Soy Candle Making High Concentrated

LDZ-PL40029

This fragrance oil is a high-performance interpretation of a globally recognized Aromatic Aquatic scent profile, designed to evoke the pristine freshness of the ocean and clean coastal air.

The overall aroma is a highly refreshing, clean, and dynamic scent that is universally appealing, particularly favored for spring and summer collections. It is suitable for excellent cold and hot scent throw in soy and other natural waxes, creating a sophisticated, room-filling ambiance reminiscent of a Mediterranean yacht cruise.

Product Features

To p Not es	The initial impression is a bright, invigorating burst of pure citrus, dominated by Grapefruit and Mandarin Orange, often supported by the green, slightly bitter complexity of Neroli and Petitgrain. This provides immediate lift and a crisp, energizing opening.
He art Not es	The core of the fragrance is distinctively marine. It features a prominent and realistic Seaweed (Posidonia Oceanica) note, blended with fresh Water Notes and aromatic hints of Rosemary. This accord captures the salty, mineral, and slightly herbaceous essence of the deep sea.
Ba se Not es	The dry down provides a smooth, grounding anchor, crucial for longevity in wax. This typically involves clean Virginia Cedarwood and a warm, slightly musky Amber. These notes prevent the aquatic elements from becoming fleeting or overly synthetic, lending a refined, masculine finish.

Technical Parameters

Fragrance Profile	Aqva Marine Fragrance Oil
Appearance	Clear to pale yellow liquid
Relative density	≈0.900 to 1.020 g/cm ³ @ 25°C
Refractive index	1.4600 - 1.5000 @ 20°C
Flash point	>194°F (90°C)
Ingredients	Natural & Synthetic Aromatic Compounds
Volatile organic compound (VOCs) content	< 1% - Environmentally friendly formula that meets regulatory standards such as the California Air Resources Board (CARB).
Recommended Dosage	8% to 12% by weight, depending on the specific wax type
Thermal diffusion performance	Excellent. It can fill a space of 20-30 square meters in 3-5 minutes after lighting.
Cold Throw	Excellent - Has a noticeable aroma even when unburned.
Hot Throw	Excellent - The aroma spread is strong and steady while burning.
Wax Compatibility	Excellent - Blends seamlessly with a variety of common waxes, including soy wax, beeswax, coconut wax, paraffin wax, and blends, without affecting the wax structure or combustion performance.
Solubility	Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	Store in a cool, dark place, shelf life 24 months
Standard (IFRA Compliance)	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments.

Functions & Applications

The Aqva Marine fragrance is a highly versatile and commercially successful scent profile, primarily functioning as a clean, fresh, and invigorating aromatic component across various product categories.

It serves as a crisp, non-floral, and generally unisex scent that is ideal for all-year-round freshness, especially appealing during spring and summer collections. It's often used to evoke feelings of cleanliness, vitality, and coastal tranquility, making it a perfect "bathroom" or "laundry room" scent choice.

Primary Function: Home Ambiance and Scent Throw

The core function of this oil is to deliver a superior, wide-reaching Hot Throw (HT) in solid and liquid home fragrance mediums, effectively transforming a space into a clean, aquatic environment. Its aromatic aquatic, citrus, and slightly woody structure is formulated for:

Key Applications in Soy Wax	The oil is engineered to perform exceptionally well in natural soy wax, providing a strong, clear scent throw without the risk of discoloration due to its virtually zero vanillin content. This is critical for maintaining the bright white or light blue aesthetic of marine-themed candles.
Other Applications	Excellent in Reed Diffusers for long-term ambient scenting and highly effective in Room & Linen Sprays for an immediate, refreshing burst of ozone and citrus. Its clean profile also performs well in Air Fresheners and Car Diffusers.

Secondary Function: Personal Care and Fine Fragrance

The top notes of grapefruit and mandarin provide an immediate, invigorating sensation in the shower or bath, while the seaweed and cedarwood base ensures the scent has lasting power on the skin, contributing to product efficacy perception.

Key Applications (IFRA-Compliant Rates):

Bar Soaps (CP & M&P)	Its stability and lack of vanillin make it highly desirable for Cold Process (CP) soap, as it minimizes acceleration and eliminates discoloration, preserving the white or blue colorants.
Body Washes and Shampoos	Provides a clean, fresh scent that aligns well with the concept of cleansing and purification.
Lotions and Body Mists	Used at lower concentrations to create a light, layerable scent for daily wear, appealing to consumers seeking a "fresh out of the shower" or "sea breeze" personal fragrance.
Fine Fragrance (Perfume/Cologne)	The oil's complex layering of citrus, marine, and cedar notes is often the basis for concentrated perfume oils or Eau de Toilette products, capitalizing on its sophisticated, high-end profile.

Support and Services

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor. The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance

Packing and Shipping

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air, by truck, and by express, according to the clients requirements.
