Product Description

High Purity Nectarine Blossom & Honey Fragrance For Soy Candle Making

LDZ-PL40048

This popular fragrance oil is often described as a delightful, juicy, and sweet fruity-floral scent, frequently compared to the well-known Jo Malone fragrance. It is widely used by candle makers for its appealing and sophisticated aroma. This aroma is considered playful, sweet, and uplifting, making it a fantastic choice for year-round candles, especially for spring and summer lines.

Product Features

Top Note	Crisp, bright, and fruity opening, often featuring notes like Nectarine, Orange, Mandarin, Cassis (Black Currant), and Petitgrain (citrus leaf).
Middle Note	The sweet floral core, usually highlighting Nectarine Blossom, Acacia Honey, Black Locust, Jasmine, and other white florals.
Base Note	A smooth, warm, and lingering finish with notes like juicy Peach, Plum, Vetiver (a grassy/earthy note), and subtle Musk or White Sandalwood.

Functions & Applications

This high-purity fragrance oil is specifically formulated to be versatile, offering both a beautiful scent profile and excellent performance across various home and body applications, especially in oil-based carriers like wax. It serves as a sophisticated, juicy fruity-floral blend, balancing the bright sweetness of nectarine and peach with the delicate, warm floral notes of honey and blossoms. It is often described as energetic and refreshing. The core function of this fragrance oil is to impart a specific, uplifting, and complex aroma to a finished product.

Emotional Impact	The scent is designed to evoke feelings of joy, optimism, and warmth, reminiscent of a sunny orchard or a sweet summer day. This makes it popular for creating a welcoming and comfortable ambiance in any space.
Aesthetic Function	It helps to define a product's brand and sensory experience. In premium products, it provides a recognizable and long-lasting scent that encourages repeat purchases.

applications

Focus on Soy Candle Making:

Good Hot Throw	It's engineered for superior solubility in soy wax, allowing the scent molecules to be released strongly and evenly when the candle is burning (hot throw)
Wax Stability	Its high flash point and 0.00% vanillin content ensure the oil doesn't compromise the wax, preventing the risk of discoloration or negative changes to the candle's structure over time.
