Product Description

Eco-Friendly Musk Rose Fragrance Essence For Laundry Detergent Concentrated LDZ-PL50009

Product Description:

This high-concentrated Musk Rose fragrance essence is a specialized aroma blend formulated for optimal stability and longevity within the challenging environment of laundry detergents. It is designed to deliver a signature scent that projects a feeling of ultimate clean and luxurious freshness.

The profile balances the timeless, classic floral elegance of Rose with the crucial, stabilizing power of White Musk. The rose component is typically a fresh, dewy, or English tea rose—less heavy than a traditional antique rose—often featuring bright, airy Top Notes of Citrus (Bergamot/Lemon) and a light Green Leaf Accord. This prevents the scent from being overly sweet or cloying.

The Middle Notes feature the true floral heart of the Rose Petal, perhaps alongside a subtle Jasmine or Geranium. Crucially, the Base Notes are dominated by White Musk and sometimes Powdery Woods. This synthetic musk is essential in laundry applications as it provides the well-known "fresh laundry" smell, is highly substantive (meaning it clings well to fabrics even after rinsing), and helps mask residual malodors on the fabric. The result is a soft, feminine, and profoundly clean aroma that lasts.

Product Feature:

This highly concentrated Musk Rose essence is an expertly formulated fragrance designed for extreme stability and impactful delivery in laundry detergent and fabric care applications, where it signifies fresh, clean luxury.

Top Notes	Aldehydes, Bergamot/Citrus, Dewy Green Accord The initial impression is a burst of fresh, clean radiance. Aldehydes are critical for the "fresh air" or "ozone" note characteristic of high-quality laundry scents, while Citrus adds a fleeting, zesty brightness.
Heart Notes	Fresh Rose Petals (e.g., Tea Rose, Bulgarian Rose), White Floral Accord (e.g., Jasmine, Freesia) This is the floral heart, a balanced and clean rose note that is not heavy or jammy. The accompanying white florals provide a touch of soft, sophisticated sweetness, moving the fragrance into a classic, universally appealing floral sphere.

Base Notes	White Musk, Powdery Woods, Amber, Tonka Bean The base is the most crucial part for detergent performance. White Musk is highly substantive, meaning it binds to fabric fibers to provide excellent scent longevity (substantivity) post-wash and dry. Powdery Woods and Amber smooth the profile, reinforcing the clean, "out of the dryer" warmth and masking residual odors.

Technical Parameter:

Odor Profile	Peony Floral,A soft and rich floral peony fragrance with fresh fruity notes and warm woody base notes.
Appearance	Pale yellow transparent liquid
Fragrance Concentration	>95%
Relative density	Usually in the range of 0.940 - 0.970 (g/cm³ @ (20°C))
Refractive index	1.440 - 1.470 (20°C)
Flash point	> 75°C()
Odor Intensity	High intensity, rich and long-lasting
Usage Rate in Wax	0.1% - 0.5% (w/w)
Thermal Stability	Good
Solubility	Excellent
IFRA Compliance	Complies with the latest IFRA standards, no banned substances
Stability	Stable over the pH range of 4.0 - 8.0,Suitable for mainstream laundry detergent and softener formulations.
Longevity	≥ 48 hours
Storage Conditions	Store tightly closed in a cool, dry place (15-25°C) away from light.

FUNCTIONS & APPLICATIONS

The core function of this peony fragrance oil is to impart a long-lasting and pleasant fragrance experience to laundry products. Through its unique aroma pyramid structure, it achieves a phased release of fragrance molecules, ensuring a pleasant aroma from wash to wear.

Odor Masking	Specific molecules within the fragrance effectively neutralize and mask unpleasant odors on clothing, such as sweat, smoke, and mold, providing a fresh, olfactory experience.
Odor Imparting	Its core function is to infuse clothing with a captivating peony scent through its complex floral notes, enhancing the sensory value and user experience.
Fragrance Longevity	Thanks to its low-volatility base notes, the fragrance lingers on clothing fibers for a long time, remaining distinct even after drying.
Brand Enhancement	A unique fragrance can become a signature feature of a product, strengthening consumers' emotional connection and memory of the brand, thereby fostering brand loyalty.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

1. Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
5. Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
