Product Description

Inspired Concentrated Yoke Fragrance Oil For Shower Gel & Scented Soap Making

Product Code: LDZ-PL20266

Fragrance Profile

The "Yoke" line consists of complex, natural blends rather than a single scent. The notes are often rich, floral, and earthy, designed to be grounding or uplifting.

Top Notes (Likely)	
	Bright citrus like Bergamot or Orange (for energy/presence)

Heart Notes (Core)	Deep florals like Rose Absolute or Jasmine, and often Lavender. These provide the central body and balance.
Base Notes (Grounding)	Earthy woods such as Sandalwood, Cedarwood, Patchouli, and Oakmoss/Amber. These provide depth and longevity, which is essential for soap.

Technical Specifications

Product Name	Concentrated Yoke Fragrance Oil
Fragrance Profile	Floral-fruity aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.95 to 1.05 g/cm³ @ 25°C
Flash Point	71°C-104°C (160°F-220°F)
Refractive Index (RI)	1.450 to 1.510 (at 20°C)

Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
Recommended Usage	Shampoo & Shower Gel (Rinse-off Products): 3% to 10% of total product weight for pleasant, non-irritating scent strength
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Applications

The primary applications for a fragrance oil specified for Shower Gel & Scented Soap Making fall within the rinse-off body care category, which is classified by the International Fragrance Association (IFRA)

Bar Soap (Cold Process & Melt and Pour)	The high concentration ensures the scent survives the saponification/curing process and remains strong through the life of the bar. Usage is typically 3-6% of the base oils/soap weight.
Body Wash/Shower Gel	Easily blended into liquid soap bases to create an aromatic, lathering experience. Usage is typically lower than bar soap, around 0.5% to 2%.
Liquid Hand Soap & Face Cleansers	The rinse-off nature is ideal for this formula.
Bath Products	Salts, bath bombs, bubble bath, and bath oils.

Secondary Applications (Requires Lower Concentration)

Leave-On Body Products (Lotion/Cream)	Used at a much lower rate (typically 0.5% to 2.0%) to avoid skin sensitization.
Perfume Oil/Body Spray	Diluted with a carrier oil or cosmetic-grade alcohol.
Home Fragrance	Used in reed diffusers, sachets, or cleaning products.

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC
