

Free Samples Home Spray Vixen Fragrance Oil For Reed Sticks & Diffusers High Concentrated

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL31542
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Storage Condition: Cool And Dry Place
- Solubility: Oil/ Water Soluble
- Scent Coverage: Up To 100 Square Feet
- Oem Service: Welcome
- Odor: Characteristic Odor
- Bottle Capacity: 1000ml
- Concentration: Highly Concentrated
- Scent Duration: Up To 8 Weeks
- Reed Sticks Included: Yes
- Add Ratio: 10%-25%
- Application: Diffuser
- Appearance: Liquid Fragrance Oil
- Fragrance Family: Floral
- Suitable Room Size: Medium To Large
- Bottle Size: 1000ml,2500ml,5000ml

Product Description

Free Samples Home Spray Vixen Fragrance Oil For Reed Sticks & Diffusers High Concentrated
LDZ-PL31542

Product Description:

"Vixen" generally evokes a scent that is seductive, sensual, and complex, often combining floral, spicy, and deep base notes. Its common interpretations include: The Notes like botanical musk, black peppercorn, woods (e.g., sandalwood), and amber. This creates a warm, earthy, and deep aroma. Featuring scents like vanilla, ylang-ylang, ginger, patchouli, and orange blossom. These are often described as warm, spicy, and sometimes powdery. A lighter, more playful option, which may include notes such as apple blossom, juicy pineapple, red berries, watermelon, tiare flower, and musk.

Product Feature:

The fragrance oil must be blended with a diffuser base/carrier oil that allows the scent to travel up the reed sticks and evaporate into the air. A high-quality base, such as DPG (Dipropylene Glycol), TEC (Triethyl Citrate), or a specialized eco-friendly base, is essential for optimal scent throw and longevity.

The "Vixen" fragrance, leading to a few distinct, yet generally sensual, profiles. The two most common structures for home fragrance are an Amber-Woody Musk and a Fruity-Floral Vanilla.

Here is a detailed breakdown of the notes, focusing on the sophisticated Amber-Woody Musk profile, as it offers the best longevity for reed diffusers:

Top Notes	Black Peppercorn: Provides an immediate, sharp, and invigorating warm spicy opening. This fleeting note adds a sophisticated edge and contrast to the sweetness. Sunlight / Citrus Zest (e.g., Blood Orange): A bright, light, and airy lift to prevent the scent from becoming too heavy instantly. This helps the fragrance "bloom" out of the reed sticks.
Middle Notes	Labdanum (Rockrose): This is a critical resinous note, offering a deep, amber-like, and slightly leathery-smoky warmth that gives the fragrance its depth and complexity. White Patchouli / Jasmine: A blend of florals and herbaceous earthiness. The Jasmine adds a narcotic, sweet floral touch, while the Patchouli acts as a grounding bridge between the light top and heavy base notes, offering a long-lasting heart. Amber: The main body of the fragrance, providing a resinous, warm, and inviting sweetness that is key for strong scent throw in a diffuser.

Base Notes

Toasted Vanilla / Creamy Tonka Bean: The creamy, gourmand aspect that gives the scent its alluring richness. These are heavy molecules that fix the fragrance, ensuring it lasts for months in a diffuser. Ambered Woods / Sandalwood: Essential for anchoring the scent. Sandalwood is creamy, milky, and luxurious, complementing the vanilla and ensuring the scent remains smooth and sophisticated. Botanical Musk: A clean, velvety, and skin-like warmth that provides the ultimate sensual dry-down and exceptional longevity.

Technical Parameters:

Concentration	Fragrance Oil Content $\geq 95\%$
Fragrance Profile	Fruit Fragrance
Appearance	Colorless to light yellow transparent liquid
Relative density	Approx. 0.900–1.050 g/cm ³ @ 25°C
Refractive index	1.450–1.550 @ 20°C
Flash point	above >70°C / >158°F
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	ranging from 15% to 30% by weight.
Volatilization rate	With the unique microcapsule sustained-release technology, the fragrance diffusion rate is stable, which can maintain a continuous fragrance effect for 20-30 days and effectively cover a space of 15-25 square meters.
Solubility	Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in a cool, dark place in a sealed container.
Standard(IFRA Compliance)	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments.

FUNCTIONS & APPLICATIONS:

The function and application of the "Vixen" scent are driven by its complex, sensual, and long-lasting olfactive profile (Spicy, Amber, Musk), which performs exceptionally well in continuous-diffusion products.

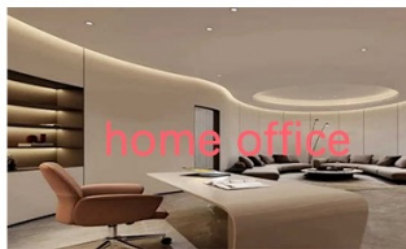

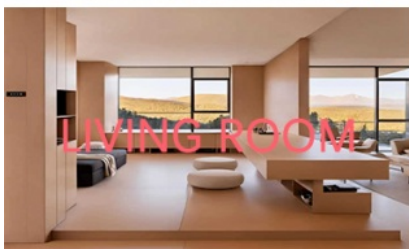

Key Functions	
Atmospheric Layering	It serves to establish a sophisticated, warm, and sensual mood in a home or commercial setting (e.g., boutique, lobby). Its complexity prevents it from being a simple, flat aroma.
Scent Throw & Longevity	The heavy molecular structure of its base notes (vanilla, sandalwood, patchouli) acts as a natural fixative, significantly extending the life and consistent strength of the reed diffuser blend compared to lighter, more volatile citrus or green scents.
Targeted Appeal	It targets the market segment seeking cozy, alluring, and elegant fragrances, making it highly effective for fall and winter lines, or for products marketed toward romantic and evening settings.

Key Application: Home & Body Product Line:

Key Applications:	
Reed Diffusers & Cold Air Diffusers	This is the ideal application. The constant, low-temperature diffusion of the Vixen blend allows the full top, middle, and base notes to unfurl slowly, maximizing its luxurious and layered appeal without being distorted by heat.

Aromatherapy/Room Sprays	Used in highly diluted room sprays for an immediate, powerful scent boost in entryways or linen. Ensure the formula is IFRA-compliant for aerosols
Candles & Wax Melts	The oil's robust nature allows it to withstand the high temperatures of melted wax, ensuring the scent profile remains true both in cold throw (unlit) and hot throw (lit).
Body Care (Limited)	It can be used in products like Body Oils, Body Lotions, and Rollerball Perfumes, provided the IFRA limit is strictly adhered to for skin contact

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

1. Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
5. Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
