Product Description

Free Samples Home Spray Bamboo-scented white tea Fragrance Essence Oil For Scented Candle& Reed Sticks & Diffusers
High Concentrated
LDZ-PL31549

Product Description:

The "Bamboo-Scented White Tea" profile is a highly popular, clean, and luxurious aroma often associated with high-end hotels and spa environments. It is characterized by its invigorating green freshness and delicate, soothing undertones. This fragrance is formulated to be bright and airy, making it excellent for continuous, non-fatiguing diffusion. This balanced profile makes it highly effective, as the light, watery notes ensure quick diffusion while the woody base ensures lasting power.

Product Feature:

Top Notes (The Initial Freshness)	Crisp Bergamot / White Lemon: Provides an immediate, refreshing burst of clean, sharp citrus that prevents the scent from being too heavy or vegetal. This volatile note is the first impression upon cold throw (unlit candle or uncapped diffuser).
	Green Bamboo Leaves / Watery Notes: The core green, vegetal freshness. Bamboo is an abstract, airy note that evokes cleanliness, dewiness, and an invigorating quality, setting a calm, spa-like mood.
	Ginger Zest: A subtle, warm, and spicy element that adds a sophisticated lift and a bright sparkle to the initial phase, complementing the citrus.
Middle Notes (The Heart of Calm)	Sensual White Tea: The signature heart of the fragrance. White Tea is a delicate, slightly sweet, and aromatic note that is soothing and elegant. It provides the clean, powdery softness that anchors the light top notes.
	Delicate Jasmine / Peony: Light white florals that add a subtle, refined sweetness and depth without becoming overpowering. This floral element ensures the scent is gentle and universally appealing.
	Clary Sage / Honey: Subtle herbaceous qualities (Clary Sage) and a touch of sweetness (Honey) to enhance the complexity of the white tea, adding warmth and roundness to the mid-section.
Base Notes (The Lasting Harmony)	Dry Woods / White Cedar: Provides a very subtle, clean, dry, and woody foundation that gives the scent longevity and structure. This is crucial for excellent hot throw in candles and sustained wicking in diffusers.
	White Musk: A clean, soft, non-animalistic musk that acts as the final fixative. It enhances the overall smoothness and ensures the aroma lingers gently in the air, creating a perception of luxury and cleanliness.
	Sheer Amber: A hint of golden warmth to prevent the scent from being too sharp or cold, adding depth to the final dry-down.

Technical Parameters:

Concentration	Fragrance Oil Content $\geq 75\%$
Fragrance Profile	Flower & woody Fragrance
Appearance	Colorless to light yellow transparent liquid

Relative density	Approx. 0.900–1.050 g/cm ³ @ 25°C
Refractive index	1.450–1.550 @ 20°C
Flash point	above >77°C -88°C >170°F-190°F
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	ranging from 15% to 30% by weight.
Volatilization rate	With the unique microcapsule sustained-release technology, the fragrance diffusion rate is stable, which can maintain a continuous fragrance effect for 20-30 days and effectively cover a space of 15-25 square meters.
Solubility	Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in a cool, dark place in a sealed container.
Standard(IFRA Compliance)	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments.

FUNCTIONS & APPLICATIONS:

The core function of the Bamboo White Tea fragrance is to create a serene, spa-like, and invigorating atmosphere that promotes a sense of tranquility and cleanliness. The blend of delicate white tea (known for its soothing, mellow properties) and green bamboo (imparting an airy, crisp quality) is specifically engineered to achieve a sophisticated, non-fatiguing scent that can be experienced continuously.

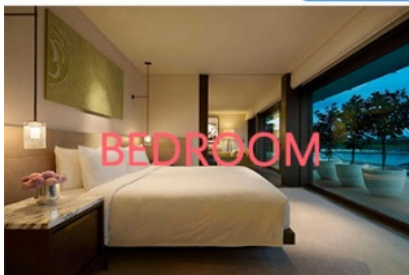

Key Functions	
Olfactory Cleansing	The crisp, watery, and light-floral profile acts to neutralize and replace everyday odors with a scent that is perceived as clean and luxurious, often associated with premium hotels and spas.
Mood Enhancement	The fragrance composition is designed to have a calming effect. The soft White Tea and gentle florals (jasmine) are known to alleviate stress and anxiety, promoting a meditative state, making it ideal for bedrooms, bathrooms, and home offices.
Year-Round Appeal	Unlike seasonal scents, its balanced blend of freshness and subtle warmth makes it suitable for use in any season, broadening its market appeal and extending its sales window throughout the year.

Key Application: Premium Home & Commercial Scenting

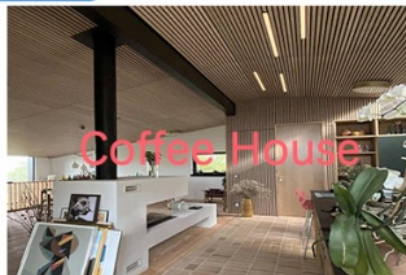

The high-end, clean perception of the Bamboo White Tea scent makes it highly effective in applications where continuous, sophisticated fragrance delivery is desired, positioning it as a premium or Wellness line offering.

Key Applications:	
Reed Diffusers	Its excellent projection (scent throw) and consistency (low evaporation variance) make it perfect for entryways, living rooms, and professional environments (e.g., reception areas, clinics, boutiques) where a continuous, subtle, yet noticeable scent is required without the use of a flame.
Scented Candles & Wax Melts	When incorporated into candles, the fragrance delivers an excellent hot throw due to its stable nature, filling the space with a clean aroma that avoids the heavy, cloying feeling of some gourmand scents. The low vanillin content ensures the candle wax maintains a clean, white/light color.
Cold-Air/Ultrasonic Diffusers (Scent Marketing)	This scent is a staple in commercial scent marketing (e.g., hotels, resorts, luxury retail). The clean, non-obtrusive nature of the scent avoids olfactory fatigue, leaving a lasting, positive impression of elegance and cleanliness on customers.
Linen & Room Sprays	Used in quick-application sprays where its refreshing top notes provide an immediate burst of a 'freshly cleaned' aroma for bedding, towels, or upholstery.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;
- 5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
