FUNCTIONS & APPLICATIONS:

The primary function of the Holiday Inn's signature fragrance (often "Bright Sunshine") is to serve as a powerful tool for sensory branding and atmosphere curation. Its key purpose is to build an emotional connection with the user, whether in a commercial or home setting.

Olfactory Logo & Brand Recall	The scent is designed to be the hotel's "Olfactory Logo." It creates instant brand recognition and recall, linking the scent to feelings of comfort, quality, and hospitality experienced during a stay. Taking the scent home extends this positive association.
Mood Elevation and Ambiance	The blend of crisp citrus (Lemon, Grapefruit) and clean florals (Jasmine, Water Lily) is functionally chosen to be uplifting, energizing, and refreshing. It immediately transforms a dull or stale space into one that feels clean, well-kept, and welcoming, mimicking the inviting atmosphere of a luxury lobby.
Emotional Well-being	By evoking the freshness of clean linen and the positive memory of a relaxing vacation, the scent functions to reduce stress and promote a sense of well-being and tranquility, making it ideal for creating a peaceful sanctuary in one's own home or office.

Applications:

Home & Commercial Diffusers	This is the primary and most efficient application. The oil is specifically formulated for use in cold-air (nebulizing), ultrasonic, and water-based diffusers. This method ensures the most consistent, true-to-life, and long-lasting scent throw, distributing the layered notes evenly across large or small spaces like entryways and living rooms.
Scented Candle Making	The essence oil can be seamlessly mixed into various candle waxes (soy, paraffin, coconut) to create a custom scented candle. Its high flash point ensures a safe burn and excellent hot throw, releasing the signature hotel scent when lit, adding a luxurious touch to any room.
Reed Diffusers & Scent Sticks	For passive, flameless scenting, the oil is combined with a carrier solvent and placed in a vessel with reed sticks. The sticks draw the oil up, gently dispersing the scent over time, making it perfect for sustained, low-intensity fragrance in bathrooms, powder rooms, or small offices.
DIY Home Products	Beyond the core applications, the oil can be used to create home sprays, linen sprays, sachets, or to refresh potpourri, allowing the user to layer the signature aroma throughout the entire household for a truly immersive and consistent scent experience.
