## Free Samples Philippine Oud Fragrance Essence Oil Raw Material For Diffuser & Scented Candle & Reed Sticks

Product Code: LDZ-PL31556

The term "Philippine Oud" refers to a fragrance oil that captures the unique, regional aromatic qualities of Agarwood (Oud) originating from the Philippines. It is prized for being a rich, complex, and intensely woody scent, distinct from the popular sweet Cambodian or animalic Indian Ouds.

### Fragrance Profile

The scent is dark and potent, often described as having a smoky, forest floor, or leathery quality. High-quality Philippine Oud often presents a deep resinous sweetness coupled with a slight medicinal or tangy undertone, balancing the intensity of the wood. Oud is primarily used as a powerful base note, ensuring the fragrance has an excellent, sophisticated cold and hot throw in home products.

### Scent Composition

Top notes	Fruity, Citrus, Musky Nuances
Middle notes	Balsamic Resin, Suede, Cocoa/Chocolate
Base notes	Rich Oud, Earthy Woods, Incense

**Applications:**

Scented Candles & Wax Melts	The oil's potency and typically high flash point make it ideal for candle making (usage rates up to 10%-12%), ensuring a commanding scent that fills the room upon burning (hot throw).
Reed Diffusers	Its heavy, rich composition lends itself well to continuous, passive scent release in a solvent-based diffuser system, creating a long-lasting, opulent atmosphere.
Soap and Body Products	When blended into soaps and lotions, it imparts a sophisticated, high-end aroma, often requiring lower concentration levels than in candles.
