Product Description

High Purity Night-blooming Osmanthus Fragrance Essence Oil

Professional-grade aromatic compound engineered for luxury shampoo and shower gel formulations. Product Code: LDZ-PL20077

This essence captures the peak intensity of Jasminum sambac (the "Queen of the Night"), providing a sophisticated olfactory experience that transitions from an ethereal floral burst to a deep, seductive finish.

Fragrance Profile

Top Notes	The fragrance opens with a crisp, ozonic freshness and delicate green leaf accents, mimicking the cool evening air of a moonlit garden.
Middle Notes	The heart is dominated by a rich, creamy jasmine absolute. Unlike standard jasmine, the "night-blooming" profile is more opulent and slightly honeyed, featuring velvety white floral layers that provide a "full-bodied" lathering experience.
Base Notes	The dry-down is anchored by sensual white musk and soft sandalwood. These fixatives are specifically chosen for their high substantivity, ensuring the fragrance clings to the hair shaft and skin post-rinse without being overpowering.

Technical Specifications

This High Purity Night-blooming Jasmine Fragrance Essence Oil is a specialized aromatic compound developed for high-clarity shampoo and shower gel formulations. Its technical profile is optimized to ensure chemical stability and scent longevity in surfactant-rich systems.

Recommended Usage

- Shampoo & Shower Gels: 1% to 2% of total volume for a luxurious, room-filling "bloom."
- Conditioners & Hair Masks: 0.5% to 1.5% to ensure delicate scent retention without weighing down the hair fiber.
- Liquid Hand Soaps: 0.8% to 2% for a premium, hygienic floral finish.

Applications

This High Purity Night-blooming Jasmine Fragrance Essence Oil is a premium aromatic solution tailored for high-end personal care manufacturing. Its chemical stability and intensive floral profile make it a cornerstone ingredient for brands seeking to create a luxurious, "night-spa" sensory experience.

In Shampoo Production, this essence is prized for its high substantivity. It is engineered to adhere to the hair cuticle, providing a long-lasting, sophisticated aroma that persists after blow-drying. For Shower Gel & Liquid Body Washes, the oil is optimized for "bloom"--the immediate release of fragrance when it contacts warm water--transforming a standard bath into an immersive ritual. Its high purity ensures it does not cloud clear gel bases or destabilize cream-based hair masks.

Specialized Wellness Uses

Apothecary Lines:	Targeted as a mood-enhancing "well-being" scent in premium body oils and massage lotions.
Luxury Hair Treatments:	Used in leave-on serums and shine sprays to impart a signature "salon-scent" finish.
Intensive Moisture Products:	Its rich, creamy profile pairs perfectly with shea butter or silk protein formulations to signal deep nourishment and elegance.
