Product Description

Concentrated Natural Geranium Essential oil For Shampoo & Shower gel Productions

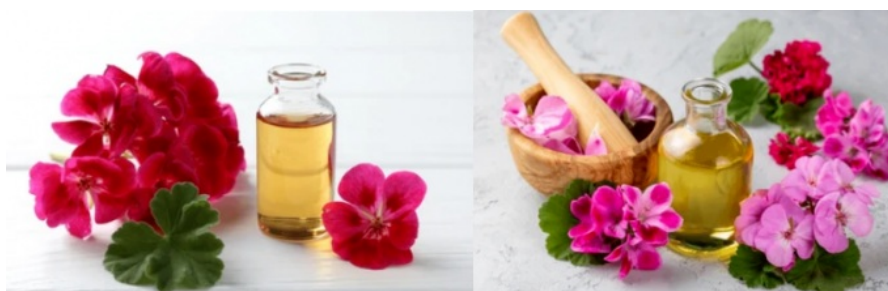

Premium industrial-grade aromatic compound for scented soap and shower gel and shampoo production

Product Code: LDZ-PL20136

Product Details:

Concentrated Natural Geranium Essential Oil (*Pelargonium graveolens*) is a premier aromatic botanical, highly valued in the production of premium shampoos and shower gels. Distinguished by its high concentration of geraniol and citronellol, this oil serves as a sophisticated middle-note fragrance that bridges the gap between floral sweetness and herbaceous freshness.

In aqueous formulations like shower gels, the fragrance unfolds with a vibrant, leafy-green top note, quickly transitioning into a rich, rosaceous heart. Unlike synthetic alternatives, natural geranium possesses a complex "minty-cool" undertone that provides an immediate sensation of cleanliness and revitalization. Its tenacity ensures a lingering, elegant scent trail on the skin and hair long after rinsing.

Fragrance Profile:

Concentrated Natural Geranium Essential Oil (*Pelargonium graveolens*) is a sophisticated, multi-layered botanical that acts as the "aromatic harmonizer" in premium shampoo and shower gel formulations. Its fragrance profile follows a classic transition from leafy freshness to a deep, floral heart.

Top Notes (The Impression)	Upon application, the oil releases immediate herbaceous and green facets. These are characterized by a sharp, minty-coolness (due to menthone) and subtle citrus nuances, providing an instant sensation of "shower-fresh" vitality and scalp stimulation.
Middle Notes (The Heart)	As the top notes settle, the signature rosaceous core emerges. This "Heart Note" is rich, sweet, and intensely floral—reminiscent of a damp rose garden. It provides the "body" of the fragrance, creating a luxurious and calming atmosphere during the wash.
Base Notes (The Foundation)	While geranium is primarily a middle note, its concentrated form possesses excellent fixative properties. The dry-down reveals a faint earthy, slightly peppery, and balsamic finish. This ensures a clean, sophisticated trail remains on the hair and skin, grounding the lighter floral elements.

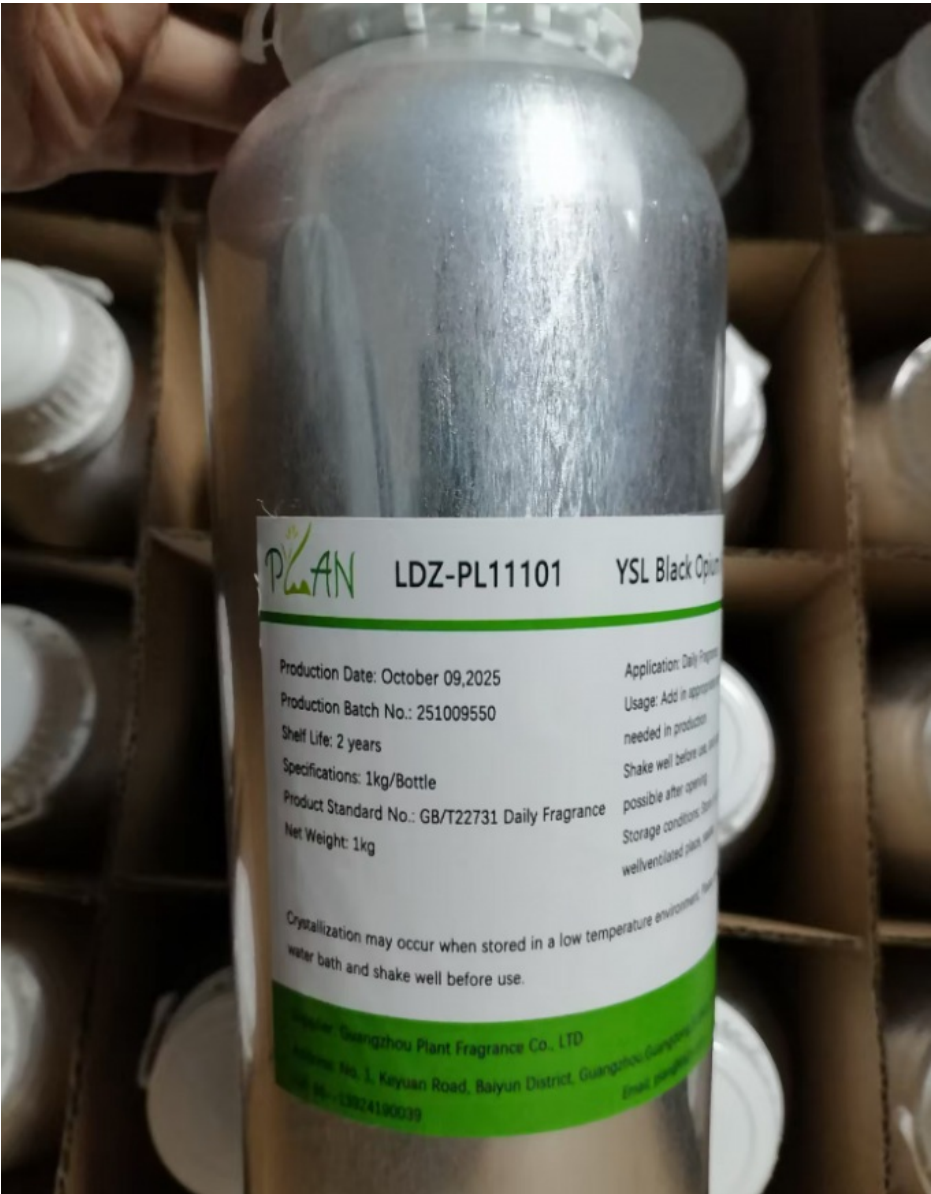

Technical Specifications

Product Name	Concentrated Natural Geranium Essential oil
Fragrance Profile	Floral aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.885 to 0.905 g/cm³ @ 25°C
Flash Point	64°C-86°C (147°F-185°F)
Refractive Index (RI)	1.461 to 1.477 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)

IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage

Bar Soaps (CP/HP): 3% to 5% of the total oil weight for a robust, medicinal aroma. Shower Gels & Body Washes: 1% to 2% to maintain clarity and avoid surfactant thinning. Hand Washes: 0.5% to 1.5% for a crisp, hygienic finish.

Functions and Applications

Functional Benefits in Personal Care	
Sebum Regulation:	Ideally suited for scalp care, it helps balance oil production, making it a versatile additive for both oily and dry hair types.
Aromatherapeutic Appeal:	Known for its balancing properties, it enhances the "spa-like" experience of a morning shower, promoting emotional stability and stress reduction.
Natural Preservation:	Its inherent antimicrobial properties contribute to the overall stability of the formula.

Due to its concentrated nature, it integrates seamlessly into surfactant systems. When paired with citrus or woody base notes, it creates a multidimensional profile that elevates a standard private-label product into the luxury tier.

Applications:

In industrial production, Concentrated Natural Geranium Essential Oil is a high-performance functional ingredient. Beyond its aromatic profile, it offers significant dermatological and formulation benefits that justify its use in

premium "salon-grade" or "spa-concept" lines.

Hair & Scalp Care Applications	In shampoos, geranium oil is primarily used as a sebum-balancing agent. Its adaptogenic properties make it effective for both oily and dry hair types by regulating the scalp's natural oil production.
Shower Gel & Body Wash Applications	For body care, it serves as a natural skin tonic with mild astringent properties that firm and tone the skin during the wash.
Usage Guidelines for Production	Daily Shampoo 0.5% – 1.0% Premium Shower Gel 1.0% – 2.0% Scalp Treatment 2.0% – 3.0%

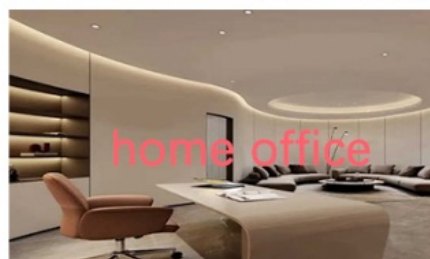

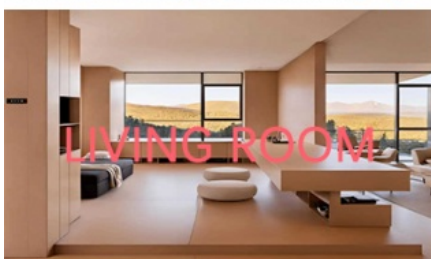

100% STRENGTH BRAND
