

## High Concentrated Free Sample French Cologne Fragrance Oil For Body Perfume Production

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL11611
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41\*28\*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

### Product Specification

- Fragrance Type: Eau De Parfum
- Other Names: Camellia Concentrated Fragrance
- Oem Service: Welcome
- Solubility: Oil/ Water Soluble
- Appearance: Light Yellow Or Colourless Liquid Oil
- Service: OEM ODM Accept
- Industrial Use: Perfume
- Sample: Free
- Used For: Daily Floral Flavors For Perfume Making
- Fragrance Notes: Floral, Woody, Musky
- Availability: In Stock
- Top Notes: Bergamot, Lemon, Pear
- Volume: 10kgs
- Age Group: Adults
- Highlight: French cologne fragrance oil,

## Product Description

### High Concentrated French Cologne Fragrance Oil

Product Code: LDZ-PL11611

This professional-grade Concentrated Fragrance Perfume Oil features a sophisticated fusion of "Tobacco & Rose," engineered specifically for high-end body perfume production. This essence oil masterfully balances the rugged, earthy depths of cured tobacco with the ethereal elegance of Turkish rose, creating a signature scent profile that bridges traditional masculine strength with modern feminine fluidity.

The fragrance opens with a subtle floral peak, where Rose Essence provides a dew-kissed, voluminous heart. This brightness is anchored by Tobacco Absolute, which introduces nuances of smoked wood, dried hay, and leathery sweetness. As a concentrated essence, it possesses an exceptional refractive index, ensuring multidimensional sillage that evolves beautifully on the skin.

### Fragrance Profile

This oil is perfect for creators seeking a professional-grade base that balances zesty brightness with a smooth, refined finish.

### Fragrance Note Profile

<b>Top Notes (The Opening)</b>	The fragrance begins with an invigorating burst of Sicilian lemon, bitter orange, and bergamot. These citrus elements provide an immediate "clean" sensation, often complemented by a touch of aromatic lavender for a crisp, airy introduction.
<b>Middle Notes (The Heart)</b>	As the citrus settles, the heart reveals a refined botanical blend. Key notes include neroli (orange blossom) and petitgrain, which add a delicate green floral depth. Hints of rosemary or clary sage often emerge here, providing the herbal complexity characteristic of classic French perfumery.
<b>Base Notes (The Foundation )</b>	The dry-down is anchored by soft, enduring fixatives. White musk and light amber provide a velvety smoothness, while subtle traces of cedarwood ensure the fragrance maintains its elegant structure and longevity on the skin.

Technical Specifications

Parameter	Specification
Fragrance Notes	Concentrated French Cologne Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.865–0.920 g/cm³ @ 25°C
Refractive Index	1.450–1.480
Flash Point	55--78°C (131°F--172°F)
Dosage	Eau de Cologne: 3% - 5% Eau de Toilette: 5% - 10% Eau de Parfum: 15% - 20%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	≥72 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation rate ensures smoother fragrance evolution with richer layers

## Applications & Functions

Pure French Cologne fragrance oil serves as a versatile and high-performance foundation in the art of professional perfumery. Its functions extend beyond simple scenting, playing a structural role in body perfume production.

### Core Functions & Benefits

#### Aromatic Foundation

It provides the "Classic French" olfactory signature—a sophisticated blend of citrus, herbal, and light floral accords. This oil acts as a primary building block, allowing creators to develop scents that evoke cleanliness and timeless elegance.

#### Fixative Support

While top-heavy with citrus, professional-grade French oils are formulated to help anchor lighter molecules. This ensures that the refreshing "burst" transitions smoothly into a lasting, intimate skin scent rather than evaporating instantly.

#### Versatile Formulation

The oil is engineered for high solubility, making it compatible with both ethanol-based sprays and oil-based roll-ons. This allows manufacturers to produce a consistent product line across different formats (EDT, EDP, and Body Mist).

#### Mood Elevation

Functionally, the high concentration of lemon and bergamot compounds acts as an olfactory stimulant, designed to provide an energizing and uplifting psychological effect for the wearer.

## applications

### Our Advantages

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

## Support & Services

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

### Fragrance Oil for Perfume Making

We Support OEM for Your Own Scent or Other Classical Flavors

We offer comprehensive technical support and services including:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging & Shipping

### Product Packaging

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

### Shipping Information

Production typically takes 3-5 days for trial orders and 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.
