

100% Pure IFRA Compliant Coconut Essential Oil with Lactonic-Gourmand Profile for Shampoo and Scented Soap

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL20004
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Storage: Cool Dry Place
- Purity: 100% Pure
- Form: Light Yellow Or Colourless Liquid Oil
- Safety: Complies With IFRA And Relevant Cosmetic Regulations
- Color: Varies (usually Clear To Pale Yellow)
- Hair Type: All Hair Types
- Shipping: 3 -5 Working Days
- Usage Level: Recommended 0.5% To 3% By Weight
- Advantage: 20 Years Manufacturing Experience
- Purpose: Cleansing
- Customized Service: Welcome
- Certificaton: MSDS COA IFRA Etc
- Allergen Information: May Contain Allergens As Per IFRA Standards
- Country Of Origin: Made In China

Product Description

Concentrated Natural Coconut Essential Oil

Premium industrial-grade aromatic compound for scented soap and shower gel production

Product Code: LDZ-PL20004

Natural Coconut is a professional-grade, high-purity fragrance concentrate designed for premium body perfume production. Unlike synthetic "candy" scents, this profile is a Lactonic-Gourmand, engineered to replicate the authentic olfactive experience of fresh coconut milk and sun-warmed husks. It is optimized for high-performance blending, offering a creamy, tropical depth that serves as a versatile base or a standout linear fragrance.

Fragrance Profile

Scent Composition

Top Notes	An immediate opening of coconut water and shaved pulp, providing a crisp, aqueous freshness that avoids excessive sweetness.
Heart Notes	The core reveals a rich, creamy coconut milk accord and tiare flower, lending a velvety, floral-lactone texture that mimics the sensation of skin under the sun.
Base Notes	A long-lasting dry-down of toasted tonka bean, white musk, and a hint of driftwood, ensuring a warm, tenacious sillage that anchors the lighter fatty acids.

Olfactory Structure

Note Level	Olfactory Role	Key Scent Components
Top Notes	The Initial Burst: Provides a refreshing, clean sensation during the first application or lather.	Sparkling Sicilian Lemon, Dewy Morning Pear, and Wild Freesia.
Middle Notes	The Heart: The core personality of the scent that develops as the water warms the skin/hair.	Night-Blooming Jasmine, Pink Orchid, Magnolia Petals, and a touch of Sea Salt.
Base Notes	The Lasting Impression: Deep, fixative molecules that anchor the scent to the skin and scalp for hours.	White Musk, Cashmere Wood, Sweet Tonka Bean, and Sheer Amber.

Technical Specifications

Product Name	Concentrated Charming Fragrance Essence Oil
Fragrance Profile	Floral-Fruity aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	1.040 to 1.090 g/cm³ @ 25°C
Flash Point	93°C (200°F)
Refractive Index (RI)	1.510 to 1.540 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems
Recommended Usage	Dosage (Soap): 2% to 5% of total weight (CP/HP/MP) Dosage (Wash): 0.5% to 1.5% Shampoo (Shower Gel)

Functions and Applications

The Natural Coconut fragrance concentrate is a versatile aromatic tool engineered for the specific chemical demands of "wash-off" and "personal care" formulations. It is designed to bridge the gap between pure fragrance aesthetics and functional performance in surfactant-based environments.

Professional Functions

Olfactory Longevity	Engineered with Lactonic fixatives that ensure the scent remains on the skin and hair even after rinsing (substantivity).
Surfactant Compatibility	Unlike standard perfumes, it is formulated to prevent "thinning" or "thickening" of viscosity in shower gels and shampoos, ensuring the final product remains stable in its packaging.
Performance under Heat	Functions exceptionally well in hot-process soap making; its high molecular weight prevents "scent burn-off," allowing the fresh, milky coconut profile to survive the saponification process without turning acid or chemical.

Diverse Applications

Shampoo and Hair Care	Widely used in moisturizing shampoos and hair masks. At a dosage of 0.8% to 1.2%, it provides a "spa-like" experience, where the scent is released through steam in the shower, creating a powerful "blooming" effect.
Scented Soap Production	In Cold-Process (CP) soap, it is valued for its non-accelerating properties, allowing makers time for intricate designs. In Melt and Pour (M&P) bases, it integrates seamlessly without causing cloudiness.
Shower Gels and Body Washes	Serves as a primary scent in tropical-themed body washes. When paired with a solubilizer, it maintains the crystal-clear transparency demanded by luxury brands while providing a rich, creamy lather scent that masks the base odor of raw surfactants.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC
