

English Pear & Freesia Essence Oil for Diffusers & Candles - Long-Lasting IFRA Certified Fragrance Oil

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL30110
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Storage: Store In A Cool, Dry Place Away From Direct Sunlight
- Suitable For: Home, Office, Spa
- Add Ratio: 2%-15%
- Sample: Support Free Samples
- Longevity: 4 To 8 Weeks
- Component: Contain Peony Bloom Extract
- Scent Duration: Up To 45 Days
- Product Type: Diffuser/Reed Sticks/Scents Candle
- Appearance: Liquid
- Other Names: Blue Windbell Essence
- Shelf: 1-3 Years
- Scent Longevity: Long-Lasting
- Reed Material: Rattan
- Highlight: **English Pear & Freesia Scent Essence Oil,**

Product Description

English Pear Freesia Essence Oil

Product Code: LDZ-PL30110

Free samples available for home spray, diffuser, scented candle, and reed sticks applications.

Product Description

The English Pear & Freesia Essence Oil is a quintessential expression of "Modern British Florals," specifically engineered for high-end home fragrance applications including luxury candles, reed diffusers, and ultrasonic atomizers. This fragrance captures the evocative transition from late summer to autumn, balancing the succulent, mouth-watering sweetness of fruit with a delicate, structured floral heart.

Product Features

The English Pear & Freesia Essence Oil is a masterpiece of olfactory balance, designed to evoke the crisp, sun-drenched atmosphere of an English orchard. This professional-grade essence is specifically refined for home fragrance systems, ensuring a layered and evolving scent experience in both wax and solvent-based diffusers.

Fragrance Notes	Description
Top Notes	The fragrance makes a stunning entrance with the succulent, juicy ripeness of King William Pear and Melon. This opening is exceptionally crisp and mellow, capturing the precise moment a pear reaches peak sweetness without becoming overly sugary.
Middle Notes (Heart)	As the fruit notes settle, the heart reveals a delicate bouquet of White Freesia and Rose. The freesia provides a distinctive, peppery floral character that lends the composition its signature "cool" elegance and airy luminosity, preventing the fruitiness from feeling heavy.
Base Notes	The foundation is built upon a sophisticated blend of Patchouli, Amber, Musk, and Rhubarb. The patchouli and amber provide a woody, earthy warmth that anchors the lighter florals, while the rhubarb adds a faint, sophisticated tartness that ensures a clean, lingering finish.

Technical Parameters

Technical Performance

Parameter	Description
Diffusion	Formulated for optimal volatility, ensuring a consistent "cold throw" in reed diffusers and a powerful "hot throw" in wax applications.
Candle Compatibility	Designed to blend perfectly with soy, paraffin, and beeswax, preventing "wet spots" or oil separation.
Atmospheric Impact	Creates an ambiance of discreet luxury and garden freshness, making it a favorite for upscale retail and hospitality environments.

Product Specifications

Parameter	Specification
Product Name	English Pear Freesia Essence Oil
Fragrance Profile	Flower & Woody Fragrance
Appearance	Colorless to light yellow transparent liquid
Relative Density	Approx. 0.985–1.010 g/cm³ @ 25°C
Refractive Index	1.460–1.485 @ 20°C
Flash Point	above >88°C >190°F
Ingredients	Natural & Synthetic Aromatic Compounds

Recommend ed Dosage	<p>Scented Candles: 8% - 12%. This fragrance is "hot throw" optimized for soy, paraffin, and coconut wax blends. Its high flash point ensures safe pouring and curing without oil leaching.</p> <p>Reed Sticks & Diffusers: 15% - 25%. Formulated for high volatility; when paired with a professional diffuser base (like DPM or MMB), it provides a consistent "cold throw" that permeates large spaces.</p> <p>Room & Linen Sprays: 5% - 10%. Fully miscible in alcohol-based solutions, delivering a crisp, misted botanical experience without staining fabrics.</p>
Volatilization Rate	With the unique microcapsule sustained-release technology, the fragrance diffusion rate is stable, which can maintain a continuous fragrance effect for 20-30 days and effectively cover a space of 15-25 square meters.
Solubility	Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in a cool, dark place in a sealed container.
Standard (IFRA Compliance)	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments.

Functions & Applications

Functional Properties

The English Pear & Freesia Essence Oil serves a dual function of atmospheric elevation and psychological wellness through its meticulously engineered "Modern Chypre" structure. Functionally, the oil is developed using high-fixative molecular technology, designed to maintain the volatile top notes of succulent fruit while ensuring the delicate floral heart remains vibrant over time. Unlike standard fragrances, this essence is non-discoloring, meaning it contains zero vanillin, which allows it to remain perfectly clear in reed diffusers and white in soy wax candles.

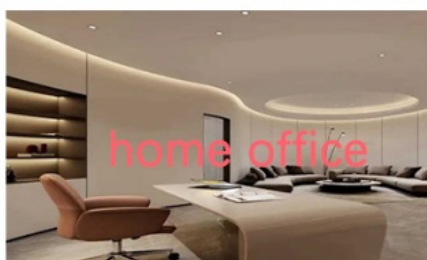

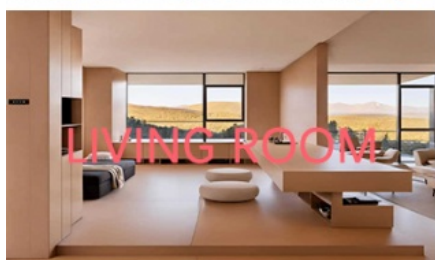

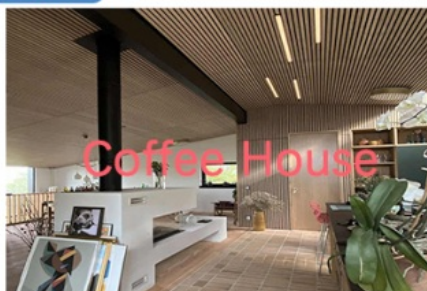

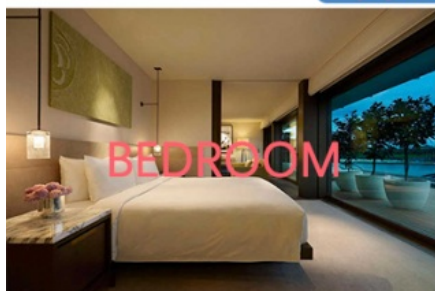

Beyond its physical properties, the fragrance functions as a sophisticated mood-modulator. The crisp, tart notes of King William Pear work to sharpen the senses and refresh the indoor environment, while the peppery freesia and grounding patchouli base promote a state of relaxed elegance. This makes it an essential tool for "scent branding," where the goal is to create an association with prestige, cleanliness, and timeless British luxury. Its stable chemical composition ensures it does not clog reed fibers or produce "mushrooming" on candle wicks, providing a clean, efficient burn.

Applications

This essence oil is a high-performance industrial solution optimized for interior fragrance systems. In Scented Candle Production, it is specifically calibrated for optimal "hot throw" performance. It integrates seamlessly with vegetable waxes (soy, rapeseed, coconut) and mineral waxes alike, ensuring a smooth, even pool of molten wax that releases a consistent scent without chemical degradation. Its flash point is carefully managed to allow for high-temperature pouring without losing the delicate, airy top notes that define its character.

In Reed Diffusers and Room Sprays, the application focuses on capillary action and evaporation rates. The oil is formulated to be fully miscible with professional diffuser bases, preventing the separation of oil and solvent. This ensures the fragrance travels evenly up the reed sticks for a continuous 24-hour diffusion. Furthermore, it is an ideal choice for ultrasonic atomizers and high-end linen mists, as it leaves no oily residue on delicate textiles. For boutique manufacturers, this oil represents a versatile "gold standard" fragrance that translates across an entire home-lifestyle product line, from the kitchen to the master suite.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting of several PH.Ds and senior engineers, and has established associated laboratories with many universities and colleges. Meanwhile, the company integrates global technology, information, and resources to maintain advantage of our products and services through continuous innovation on natural ingredients. The company has always been committed to assisting customers to improve product aroma and quality structure while reducing production costs, tailored to meet the aroma needs of different daily necessities. We are one of the best enterprises for cost and services in the industry.

Fragrance Oil Customization

Fragrance Oil for perfume making. We Support OEM Your Own Scent Or Other Classical Flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customers by improving the quality of their products and shortening their delivery time. In case of urgent customer demands, we adopt contingency measures to help solve problems in time.

Meanwhile, we offer Training and Education on fragrance formulation and usage for customers interested in our fragrances.

Comprehensive Support Services

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance

Packing and Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm

Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information

After payment, we'll arrange the production of your order ASAP. Normally, it will take 3-5 days for trial orders with small quantity, and around 5-10 days for bulk orders. Before shipping out, we'll take photos of the goods for confirmation with clients, or supply bulk samples for confirmation as well.

We offer shipping goods by ship, by air, by truck, and by express, according to client requirements.
