

Intercontinental Fragrance Oil For Diffusers & Reed sticks - Home Spray Fragrance perfume wholesale

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL30117
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

Product Description

Intercontinental Fragrance Oil For Diffusers & Reed sticks - Home Spray Fragrance perfume wholesale

Product Code: LDZ-PL30117

Free samples available for home spray, diffuser, scented candle, and reed sticks applications.

Product Description

Concentrated Intercontinental Fragrance Oil is a premium, hotel-inspired scent designed to replicate the sophisticated and opulent atmosphere of world-class luxury lobbies. Crafted for use in both reed diffusers and electronic scent machines, this high-viscosity oil offers a long-lasting, consistent aroma that transforms any residential or commercial space into a 5-star sanctuary.

Because it is highly concentrated, only a small amount is required. For reed diffusers, it provides continuous, heat-free evaporation through rattan or fiber sticks. In electronic or ultrasonic diffusers, just a few drops create a fine, aromatic mist. This versatile oil is often phthalate-free and paraben-free, making it a safe choice for pet-friendly and eco-conscious homes seeking a signature, timeless scent.

Product Features:

The fragrance profile is a masterful blend of fresh, floral, and earthy elements. It typically opens with refreshing top notes of bergamot and honeydew melon, providing a crisp and inviting introduction. The heart unfolds into an elegant floral bouquet of white tea, jasmine, and lily of the valley, adding a layer of clean refinement. Finally, the scent settles into a warm, grounded base of musk, patchouli, and subtle sea breeze, ensuring a deep and lingering finish.

Fragrance Notes	Description
Top Notes	The experience begins with a bright, invigorating burst of Calabrian bergamot and honeydew melon. Some variations also feature Meyer lemon or green leaves, providing a crisp, airy introduction that immediately refreshes the environment.
Middle Notes (Heart)	As the initial brightness softens, the heart reveals an elegant floral bouquet of jasmine, white tea, and lily of the valley. These notes add a clean, romantic depth that defines the "hotel lobby" signature.
Base Notes	The fragrance settles into a warm, grounded foundation of musk, patchouli, and sandalwood. A subtle hint of sea breeze or amber often lingers, ensuring the scent remains sophisticated and comforting for hours.

Technical Parameters:

Product Specifications

Parameter	Specification
Product Name	Intercontinental Fragrance Oil
Fragrance Profile	Flower & Woody Fragrance
Appearance	Colorless to light yellow transparent liquid
Relative Density	Approx. 0.930–0.960 g/cm ³ @ 25°C
Refractive Index	1.450–1.490 @ 20°C
Flash Point	above >93°C >199.4°F
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Recommended Dosage (Reeds) 20% – 25% Oil to 75% – 80% Diffuser Base Recommended Dosage (Machines) 100% Pure (Electronic/Nano) or 5-10 drops per 100ml water
Volatilization Rate	With the unique microcapsule sustained-release technology, the fragrance diffusion rate is stable, which can maintain a continuous fragrance effect for 20-30 days and effectively cover a space of 15-25 square meters.
Solubility	Oil-soluble; requires base for water diffusers
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in a cool, dark place in a sealed container.
Standard (IFRA Compliance)	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments.

Functions & Applications:

Functional Properties

The primary function of Intercontinental Fragrance Oil is environmental scenting and atmospheric transformation. Unlike standard air fresheners that merely mask odors, this concentrated oil is engineered to neutralize airborne impurities and replace them with a sophisticated, multi-layered olfactory profile. Its high-viscosity formulation ensures a controlled release, providing a consistent "scent trail" that remains perceptible for extended periods without becoming overwhelming.

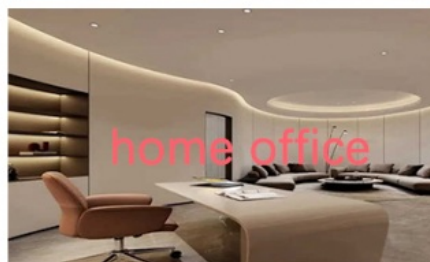

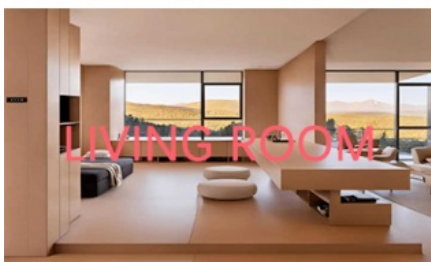

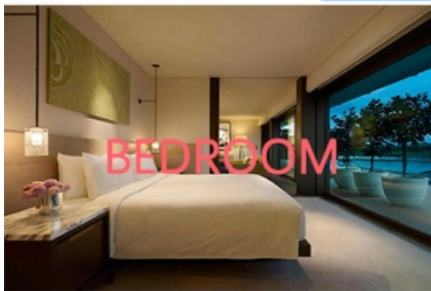

Furthermore, the fragrance serves a psychological function; it is specifically designed to evoke feelings of serenity, luxury, and professional hospitality. By utilizing a complex blend of essential oils and aromatic compounds, it stimulates the limbic system to reduce stress and enhance the perceived quality of a space. Its chemical stability is a key functional feature, as it is designed to resist oxidation when exposed to air in reed diffusers or high-pressure shear in nebulizers. This ensures the scent remains true to its original profile from the first drop to the very last.

Applications:

The application of this fragrance oil is highly versatile, spanning both passive and active diffusion methods. For residential settings, it is most commonly used in reed diffusers. In this application, the oil is blended with a carrier base, allowing the capillary action of rattan or fiber sticks to draw the scent upward for continuous, heat-free evaporation. This makes it ideal for high-traffic areas like entryways, bathrooms, or dressing rooms where a constant, subtle aroma is desired.

In commercial or larger residential spaces, the oil is applied via cold-air nebulizing diffusers or ultrasonic machines. Because the oil is professional-grade, it can be used at 100% concentration in "waterless" nano-diffusers to scent areas up to 2,000 square feet. Additionally, it can be applied to potpourri, ceramic stones, or air filters to customize the intensity of the fragrance. Its phthalate-free composition ensures it is safe for diverse environments, including pet-friendly homes and high-end boutique offices.

Support and Services

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting of several PH.Ds and senior engineers, and has established associated laboratories with many universities and colleges. Meanwhile, the company integrates global technology, information, and resources to maintain advantage of our products and services through continuous innovation on natural ingredients. The company has always been committed to assisting customers to improve product aroma and quality structure while reducing production costs, tailored to meet the aroma needs of different daily necessities. We are one of the best enterprises for cost and services in the industry.

Fragrance Oil Customization

Fragrance Oil for perfume making. We Support OEM Your Own Scent Or Other Classical Flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customers by improving the quality of their products and shortening their delivery time. In case of urgent customer demands, we adopt contingency measures to help solve problems in time.

Meanwhile, we offer Training and Education on fragrance formulation and usage for customers interested in our fragrances.

Comprehensive Support Services

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance

Packing and Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information

After payment, we'll arrange the production of your order ASAP. Normally, it will take 3-5 days for trial orders with small quantity, and around 5-10 days for bulk orders. Before shipping out, we'll take photos of the goods for confirmation with clients, or supply bulk samples for confirmation as well.

We offer shipping goods by ship, by air, by truck, and by express, according to client requirements.
