Product Description

Purity Apple Cinnamon Essence Fragrance Oil

Premium fragrance oil for scented candle production with free sample candle fragrances wholesale. Product Code: LDZ-PL40401

Product Description

Purity Apple Cinnamon Essence is a premium, high-performance fragrance oil meticulously crafted for the artisanal candle maker. This scent captures the quintessential warmth of a rustic kitchen, striking a sophisticated balance between crisp orchard fruit and glowing autumnal spices. It is designed to evoke feelings of comfort, nostalgia, and domestic sanctuary.

Product Features

The fragrance opens with a vibrant, mouth-watering top note of freshly harvested Red Delicious apples. This initial brightness is not overly sweet; it carries a subtle tartness that mimics the snap of a real fruit peel. As the candle burns, the heart reveals a rich, multidimensional blend of ground Ceylon cinnamon and aromatic nutmeg. These mid-notes provide a robust "spice kick" that avoids the chemical harshness often found in lesser oils. The experience settles into a smooth base of baked brown sugar and a whisper of warm vanilla bean, creating a lingering, cozy finish.

Top Notes	The experience begins with an immediate, bright burst of crisp McIntosh apple and zesty lemon peel. These volatile notes provide a refreshing "snap" that mimics the scent of a freshly sliced, juicy fruit.
Middle Notes	As the candle reaches its full melt pool, the heart reveals a warm, aromatic core of ground Ceylon cinnamon and star anise. This spicy center is often softened by a "sugared" accord, creating a bridge between the tart fruit and the deeper spices.
Base Notes	The fragrance is anchored by a long-lasting foundation of creamy vanilla bean and rich clove buds. These heavy molecules ensure a powerful "hot throw" that lingers in the room, providing a cozy, baked-goods finish that mimics the aroma of a warm kitchen.

Technical Specifications

Optimized specifically for wax applications, this essence boasts an exceptional hot throw, ensuring the scent fills large rooms without becoming cloying. It integrates seamlessly with soy, paraffin, and coconut wax blends. Purity Apple Cinnamon is more than a scent; it is an atmospheric anchor that transforms any space into a welcoming home.

Fragrance Profile	Apple Cinnamon Essence Fragrance Oil
Appearance	Clear to pale yellow liquid
Relative Density	0.996 to 1.015 g/cm ³ @ 25°C
Refractive Index	1.500 - 1.515 @ 20°C
Flash Point	>181°F (>83°C)
Ingredients	Natural & Synthetic Aromatic Compounds
VOC Content	< 1% - Environmentally friendly formula that meets regulatory standards such as the California Air Resources Board (CARB)
Recommended Dosage	Soy & Natural Waxes: 8% – 10% (approx. 1.3 – 1.6 oz per lb of wax). Paraffin Wax: 6% – 8% (approx. 1.0 – 1.3 oz per lb of wax)
Thermal Diffusion	Excellent. It can fill a space of 20-30 square meters in 3-5 minutes after lighting
Cold Throw	Excellent - Has a noticeable aroma even when unburned
Hot Throw	Excellent - The aroma spread is strong and steady while burning
Wax Compatibility	Excellent - Blends seamlessly with a variety of common waxes, including soy wax, beeswax, coconut wax, paraffin wax, and blends, without affecting the wax structure or combustion performance
Solubility	Easily soluble in ethanol and propylene glycol to ensure uniform dispersion in the formula
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	Store in a cool, dark place, shelf life 24 months
IFRA Compliance	It complies with the International Fragrance and Fragrance Association (IFRA) standards and has passed skin irritation testing to ensure its safety in home environments

Functions & Applications

Functional Benefits:

The primary function of The Apple Cinnamon Essence lies in its ability to act as a powerful atmospheric anchor. Chemically formulated for high stability, it serves as a robust aromatic agent that survives the high-heat environment of molten wax without "burning off" its delicate top notes. Beyond its pleasant scent, the fragrance functions as a psychological mood-lifter; the inclusion of cinnamaldehyde provides a warming sensation that can help reduce environmental stress and promote a sense of domestic security. In production, the oil acts as a performance enhancer, offering a superior "hot throw" that ensures the scent effectively permeates large spaces. Its antimicrobial properties, inherent in cinnamon derivatives, also assist in purifying the air when diffused. Furthermore, the oil is engineered to be miscible with various lipid bases, ensuring a uniform distribution of scent molecules throughout the candle body, which prevents "bleeding" or oil pooling on the surface of the finished product.

Versatile Applications:

While specifically optimized for scented candle production—including soy, paraffin, and beeswax pillars or containers—this essence has a wide range of secondary applications in the home fragrance and personal care industries. It is an ideal concentrate for artisanal wax melts and reed diffusers, where its long-lasting base notes provide a consistent olfactory presence for weeks. In the realm of DIY personal care, the oil is skin-safe at regulated percentages for cold-process soap making, lotions, and autumn-themed bath bombs. Its cozy, gourmand profile makes it a favorite for seasonal room sprays and linen mists, effectively neutralizing odors with its crisp apple acidity. Additionally, it can be applied to decorative potpourri or "dryer balls" to infuse textiles with a nostalgic, spiced aroma. From professional-grade industrial air fresheners to boutique handcrafted gift sets, this essence provides a versatile solution for creating inviting, high-end sensory experiences across multiple product lines.

Support and Services

We definitely have the fragrance essence oils you need! The Plant Flavours & Fragrance company has a R&D team consisting of several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor. The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance. Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance

Packing and Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10

days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well. We offer shipping goods by ship, by air, by truck, and by express, according to the clients requirements.

Packaging & Logistics

>> Welcome to plant fragrance <<<<

The collage illustrates the company's capabilities in packaging and logistics. The top section highlights global shipping options with a cargo plane, shipping containers, and logos for DHL, EMS, FedEx Express, TNT, and UPS. The bottom section, framed in green, shows various warehouse and production activities, including storage of white plastic crates, small white bottles, large blue plastic drums, and workers in lab coats handling large white jars in a laboratory or production area.
