

Fragrances For Soap Escada Moon Sparkle Fragrance Oil For Shampoo and Shower Gel & Scented Soap Making- IFRA

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL20087
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Hair Type: All Hair Types
- Moisturizing: Yes
- Natural Ingredients: Yes
- Shipping: 3 Working Days
- Packing: Plastic Or Iron Barrel
- Add Ratio: 1%-5%
- Product Type: Shampoo,shower Gel
- Fragrance Type: Floral
- Form: Liquid Fragrance Concentrate
- Compatibility: Compatible With Most Shampoo Bases
- Customized Service: Welcome
- Certifications: Cruelty-free, Paraben-free
- Purpose: Cleansing
- Availability: In Stock
- Samples: Freely Provide

Product Description

Escada Moon Sparkle Fragrance Oil

Premium industrial-grade aromatic compound for scented soap, shampoo, and shower gel production

Product Code: LDZ-PL20087

Product Overview

Pure Escada Moon Sparkle fragrance oil is a professional-grade aromatic concentrate specifically engineered for "rinse-off" applications like shampoos, shower gels, and artisanal soaps. Inspired by the iconic 2007 limited edition, this oil captures a vibrant, fruity-floral essence that evokes the nostalgia of summer nights.

Fragrance Profile

Top Notes	A luscious burst of Strawberry, Blackcurrant, and Red Apple, providing an immediate uplifting effect during use.
Middle Notes (Heart)	A delicate bouquet of Sweet Pea, Jasmine, and Rose, which adds a sophisticated "clean" floral layer to the lather.
Base Notes	A stabilizing foundation of Raspberry, Musk, and Sandalwood, ensuring a lingering "after-bath" scent on the skin and hair.

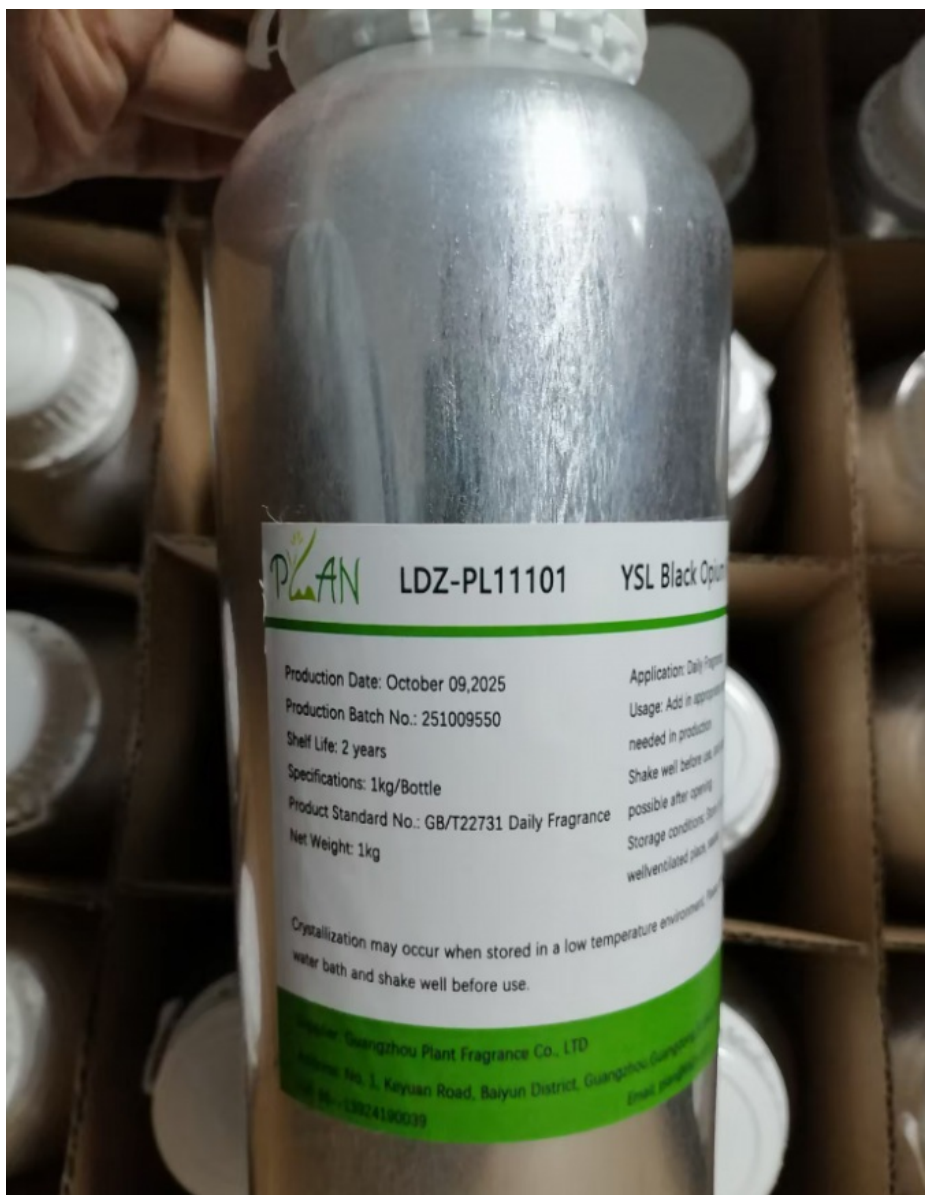

Technical Specifications

Pure Escada Moon Sparkle fragrance oil is a high-performance concentrate engineered for the rigorous demands of soap and hair care manufacturing. Its technical profile is optimized to ensure scent stability in high-surfactant environments without compromising the vibrant fruity-floral character of the fragrance.

In production, this essence oil is highly stable and IFRA-compliant for cosmetic use. It features a high concentration of aromatic compounds, ensuring that the scent does not "flash off" during the soap saponification process. It is formulated to be non-discoloring in transparent gels and prevents cloudiness in liquid surfactants. For shampoos and shower gels, a dosage of 0.5%-2% is standard, while cold-process soaps can utilize up to 3% for maximum impact.

Product Name	Concentrated Escada Moon Sparkle Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.989 to 0.999 g/cm³ @ 25°C
Flash Point	>93°C (200°F)
Refractive Index (RI)	1.468 to 1.478 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems
Recommended Usage	Shampoo/Shower Gel: 0.5% - 2.0% Soap Making: 3.0% - 5.0%

Functions and Applications

Professional Functions

A. In a manufacturing context, the primary function of this oil is to provide a high-impact olfactory identity while maintaining chemical stability.

Formulated to be vanillin-free and phthalate-free, it ensures that shampoos and clear shower gels remain transparent without the risk of oxidation-induced browning.

B. The oil is engineered with a high-fixative molecular structure, meaning it functions as a "long-wear" scent. In surfactant systems (like hair and body washes), it is designed to survive the rinsing process, leaving a noticeable residual fragrance on the skin and hair cuticle. Furthermore, it acts as a cosmetic-grade mask, effectively neutralizing the base chemical odors of raw soap noodles or surfactant blends. Its high flash point allows it to be processed in cold-process soap making without "flashing off," ensuring the final cured bar retains its intended fruity-floral top notes of strawberry and citrus.

Applications

In shampoos and shower gels, the oil exhibits excellent solubility in surfactant bases, preventing clouding. In soap making, it behaves predictably with a medium-to-fast trace and provides a strong "scent-throw" that persists even after the curing process.

Hair & Body Cleansing	In shampoos and shower gels, the oil is typically applied at a 0.5% - 2.0% dosage. Its smooth, dense fluid consistency allows it to blend seamlessly into liquid bases without destabilizing the viscosity or foam quality of the product.
Artisanal Soap Production	For Cold-Process (CP) and Melt & Pour soaps, the recommended dosage is 3% - 5%. It is highly prized for being "well-behaved" in CP soap, meaning it does not cause acceleration, ricing, or seizing during the saponification process.
Leave-on Cosmetics	Beyond rinse-off products, it is utilized in body lotions and shea butters at a 1% - 3% concentration. Because it is a grade-A, uncut oil, it provides a safe, non-irritating alternative to alcohol-based perfumes for consumers with sensitive skin.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications,such as ISO22000,COA
MSDS、SGS、ISO9001、ISO22000、HACCP、IFRA、SPEC

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns

Product customization services
Assistance with regulatory compliance
OEM support for custom scents

Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.
