## Product Description

### Lavender & Patchouli Fragrance Oil

Premium industrial-grade aromatic compound for scented soap, shampoo, and shower gel production

**Product Code:** LDZ-PL20142

The Lavender & Patchouli fragrance oil is a sophisticated blend that combines floral elegance with earthy depth. This perennial favorite in artisan bath and body products delivers a spa-like aromatic experience that appeals to a wide demographic. As the scent develops, the refined patchouli adds woody, balsamic richness without being overpowering.

### Fragrance Profile

This masterful blend of tranquility and grounding makes it a premier choice for high-end shampoos, shower gels, and soaps. The scent profile features spa-like sophistication with exceptional staying power in bath products.

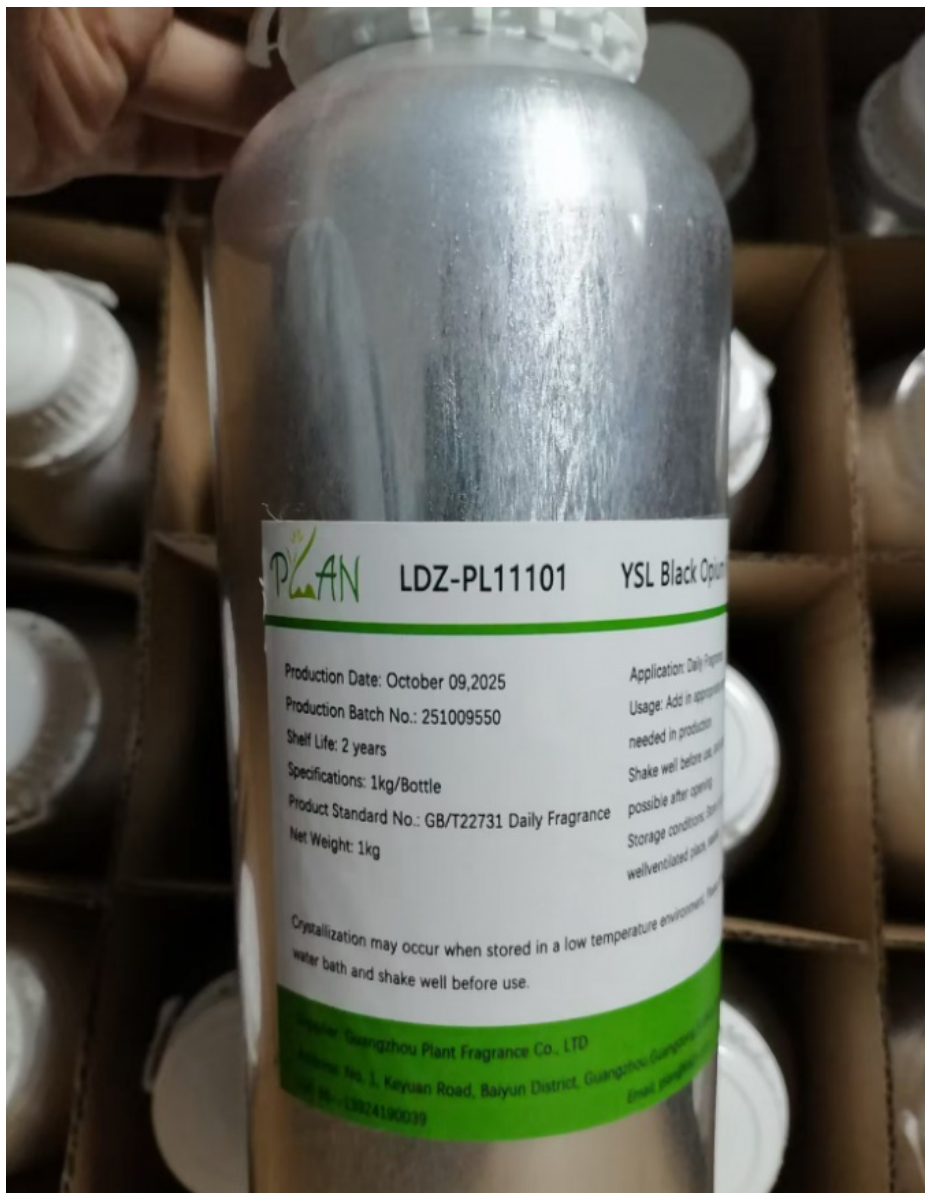

<b>Top Notes</b>	Crisp, herbaceous burst of fresh lavender with light camphorous undertones. These volatile notes are carried by steam to provide immediate mental clarity and stress relief.
<b>Middle Notes</b>	Floral-herbal core where lavender turns slightly sweeter, accompanied by subtle hints of clary sage or soft spice, adding body and fullness to the scent.

Base Notes	Rich, earthy resonance of dark patchouli. This heavy, balsamic note acts as a natural fixative, anchoring lighter florals and leaving a lingering woody, musky trail on skin.

## Functions and Applications

---

### Professional Functions

This fragrance blend provides aromatherapeutic stabilization. Lavender offers calming, floral top notes that reduce stress and promote relaxation, while Patchouli acts as a natural fixative that slows evaporation of lighter scents, ensuring longer-lasting fragrance on skin and in products.

Beyond scent, these oils provide skin-enhancing properties. Lavender features anti-inflammatory and antimicrobial functions to soothe minor skin irritations. Patchouli functions as an astringent to tone skin and promote youthful appearance. In hair care, the blend balances scalp oils and combats dandruff.

### Applications

In scented soap making, this blend is ideal for both Cold Process and Melt & Pour methods. Patchouli's heavy base note survives saponification well, preventing scent fade. Perfect for spa-style bars designed for evening use or meditation.

In shampoos and shower gels, the oil provides a spa-like sensory experience under warm water, where steam releases lavender's aromatic molecules. Effective in clarifying hair products due to patchouli's ability to manage oily scalps. Versatile for leave-on applications including body lotions, beard oils, and massage balms. Also popular for home scenting in candles and reed diffusers, creating tranquil environments with mild natural insect repellent properties.
