

Natural Soap Fragrances Wild Rose Fragrance Oil For Shampoo and Shower Gel & Scented Soap Making- IFRA

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL20179
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Grade: ISO Grade
- Country Of Origin: United States
- Type: Fragrance Oil
- Usage: Add To Shampoo Formulations
- Appearance: Liquid Fragrance Concentrate
- Fragrance Type: Fruity
- Safety: For External Use Only
- Formulation: Foaming
- Compatibility: Suitable For All Hair Types
- Color: Clear To Pale Yellow
- Shipping: 3-5 Working Days
- Purpose: Cleansing
- Productname: Shampoo Fragrances
- Storage: Cool Dry Place Protected
- Highlight: Wild Rose fragrance oil for soap making .

Product Description

Wild Rose Fragrance Oil for Soap and Shampoo

Premium industrial-grade aromatic compound for scented soap, shampoo, and shower gel production

Product Code: LDZ-PL20179

Product Overview

The Purity Wild Rose Fragrance Oil is an exquisite, professional-grade aromatic essence designed to capture the romantic and timeless allure of a blooming rose garden. Unlike synthetic, powdery florals, this "Wild Rose" variant emphasizes a fresh, dewy, and slightly green botanical profile. It is specifically engineered for high-performance use in personal care formulations, including shampoos, shower gels, and artisanal soaps, where maintaining fragrance integrity is paramount.

The oil delivers a sophisticated "living rose" scent, blending lush petal top notes with a crisp, leafy heart. It provides a natural, spa-like experience that is both calming and luxurious. Specially formulated to withstand the harsh environment of cold-process soap making, it resists "ricing" or seizing, ensuring a smooth pour and a reliable scent throw that lasts throughout the curing process.

Fragrance Profile

The Purity Wild Rose Fragrance Oil offers a sophisticated, multi-dimensional olfactory experience that moves beyond a simple floral scent. It is designed to capture the essence of a rose in its natural habitat—complete with the freshness of morning dew and the warmth of the earth. This profile is meticulously structured into a three-tier pyramid to ensure the fragrance evolves beautifully as it interacts with warm water during a shower or bath.

Top Notes	The initial impression is bright and "green." It features Dewy Petals, Wild Ivy, and a hint of Pink Pepper. These notes provide an immediate burst of freshness that cuts through the steam of a shower.
Middle Notes	The heart of the fragrance is a lush, botanical core. It centers on Damask Rose, Geranium, and White Magnolia, creating a full-bodied floral center that feels natural and romantic.
Base Notes	The foundation provides depth and longevity. Notes of Soft Musk, Amber, and Light Woods anchor the lighter florals, ensuring a velvety, clean scent remains on the skin and hair after rinsing.

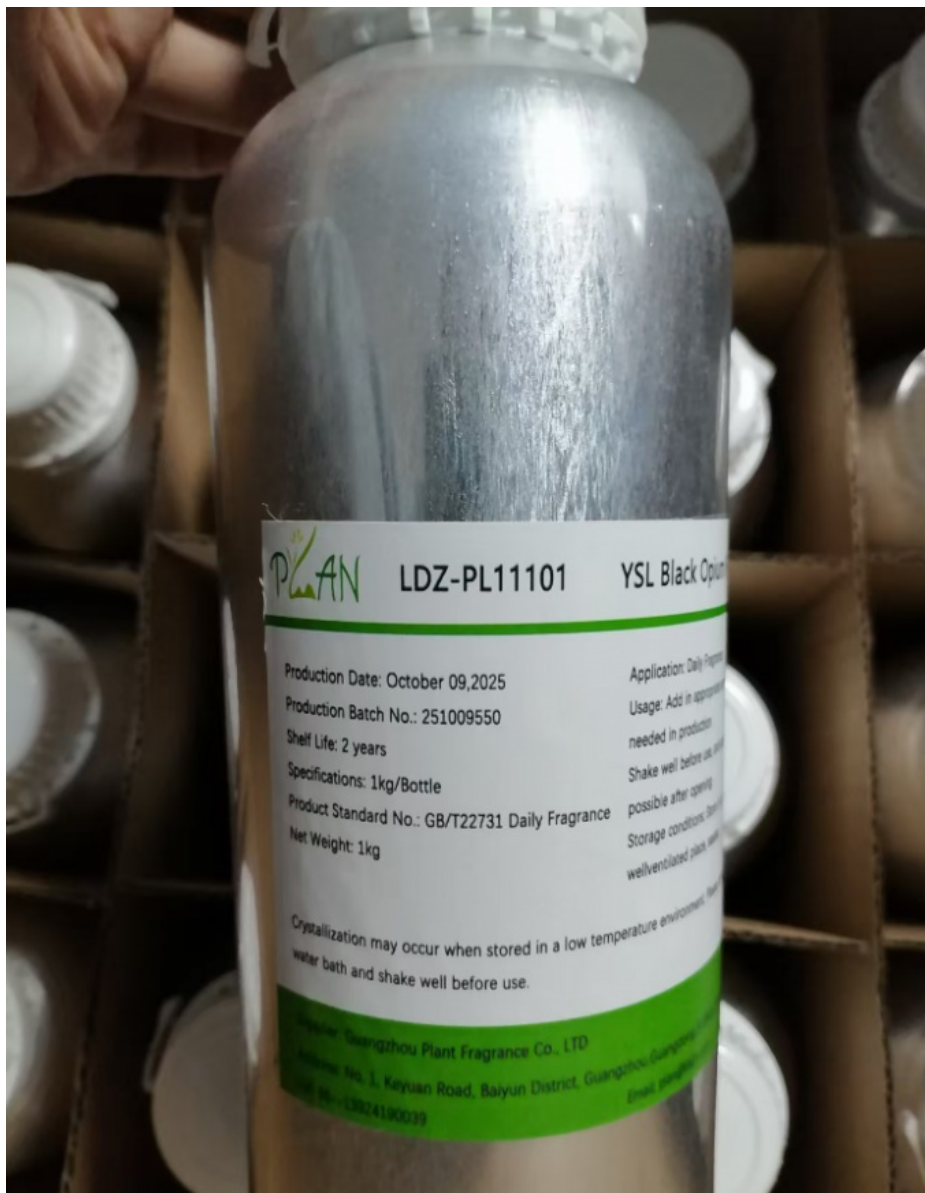

Technical Specifications

The Purity Wild Rose Fragrance Oil is a professional-grade, concentrated essence designed for high-performance in personal care and soap manufacturing. Its technical formulation ensures that the delicate floral notes remain stable and potent, even when subjected to high temperatures or chemical reactions.

Product Name	Concentrated Lemon and Grapefruit Fragrance Essence Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.990 to 1.050 g/cm³ @ 25°C
Flash Point	>93°C (200°F)
Refractive Index (RI)	1.460 to 1.520 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems
Recommended Usage	<div>Shampoo/Shower Gel: 1% - 2%</div> <div>Soap Making: 3% - 6%</div>

Functions and Applications

Professional Functions

The Purity Wild Rose Fragrance Oil serves as a high-performance aromatic additive designed to transform basic hygiene products into premium, spa-like experiences. Its primary function is to provide a botanically accurate floral scent that mimics the complexity of a real rose garden, utilizing a three-tier fragrance pyramid to ensure the aroma evolves during use. Beyond scenting, it acts as a powerful masking agent, successfully neutralizing the chemical base odors often found in raw soap noodles or surfactant-heavy shampoo bases. The oil is specifically engineered for heat stability and chemical resilience, ensuring that the delicate "wild rose" notes do not degrade during the saponification process or high-temperature mixing. Furthermore, it functions as a long-lasting fragrance carrier, formulated with cosmetic-grade fixatives that allow the scent to cling to skin and hair fibers long after rinsing, providing a subtle, clean floral trail.

Applications

In the realm of Scented Soap Making, this oil is a favorite for both Cold Process and Melt & Pour techniques; it is specifically formulated to prevent "seizing" or "ricing," allowing crafters enough time to create intricate swirls or designs. For Shampoo and Hair Care, it integrates perfectly into liquid formulas without breaking down the viscosity or clouding clear bases, leaving hair smelling fresh and botanical. In Shower Gels and Body Washes, the oil thrives in a steam-filled environment, releasing its top notes of wild ivy and dewy petals to create an immersive aromatherapeutic experience. Additionally, its skin-safe profile makes it ideal for Bath Bombs and Body Lotions, where it provides a consistent, non-irritating scent load. Its versatility also extends to home fragrance crafts, such as reed diffusers or room sprays, where the sophisticated "Wild Rose" profile offers a more natural alternative to standard synthetic floral scents.

Our Advantages

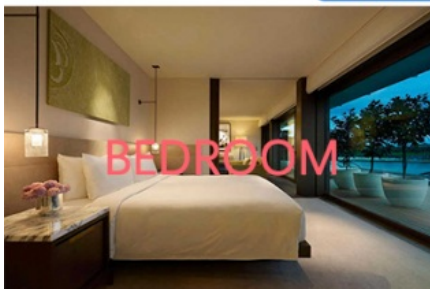

100% STRENGTH BRAND

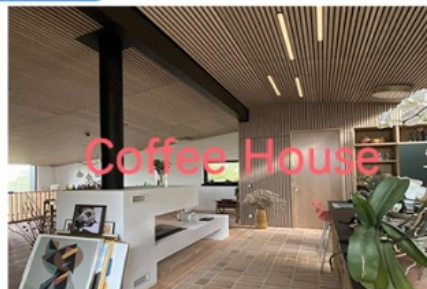

Our products are strictly approved by a list of certifications,such as ISO22000,COA
MSDS、SGS、ISO9001、ISO22000、HACCP、IFRA、SPEC
