

Perfume and Fragrances Mango Temptation Fragrance Oil For Daily Using Perfume Making With Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10232
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Solubility: Oil/ Water Soluble
- Shelf Life: 1-3Years
- Occasion: Evening, Formal
- Colour: Yellowish
- Bottle Size: 5kg,25kg
- Fragrance Family: Fresh,woody&earthy,warm&spicy
- Grade: Daily Grade
- Packing: Plastic Or Iron Barrel
- Target Gender: Unisex
- Purity: 100% Pure
- Cetification: ISO MSDS IFRA COA ETC
- Sillage: Moderate

Product Description

Perfume and Fragrances Mango Temptation Fragrance Oil For Daily Using Perfume Making With Free Sample

Product Code: LDZ-PL10232

Mango Temptation is a premium, high-fidelity fragrance oil designed to capture the vibrant, exotic essence of sun-ripened tropical fruit. Engineered for professional perfumery, this oil offers a sophisticated alternative to generic fruity scents, prioritizing a realistic "flesh-and-peel" aroma that is both refreshing and indulgent for daily use.

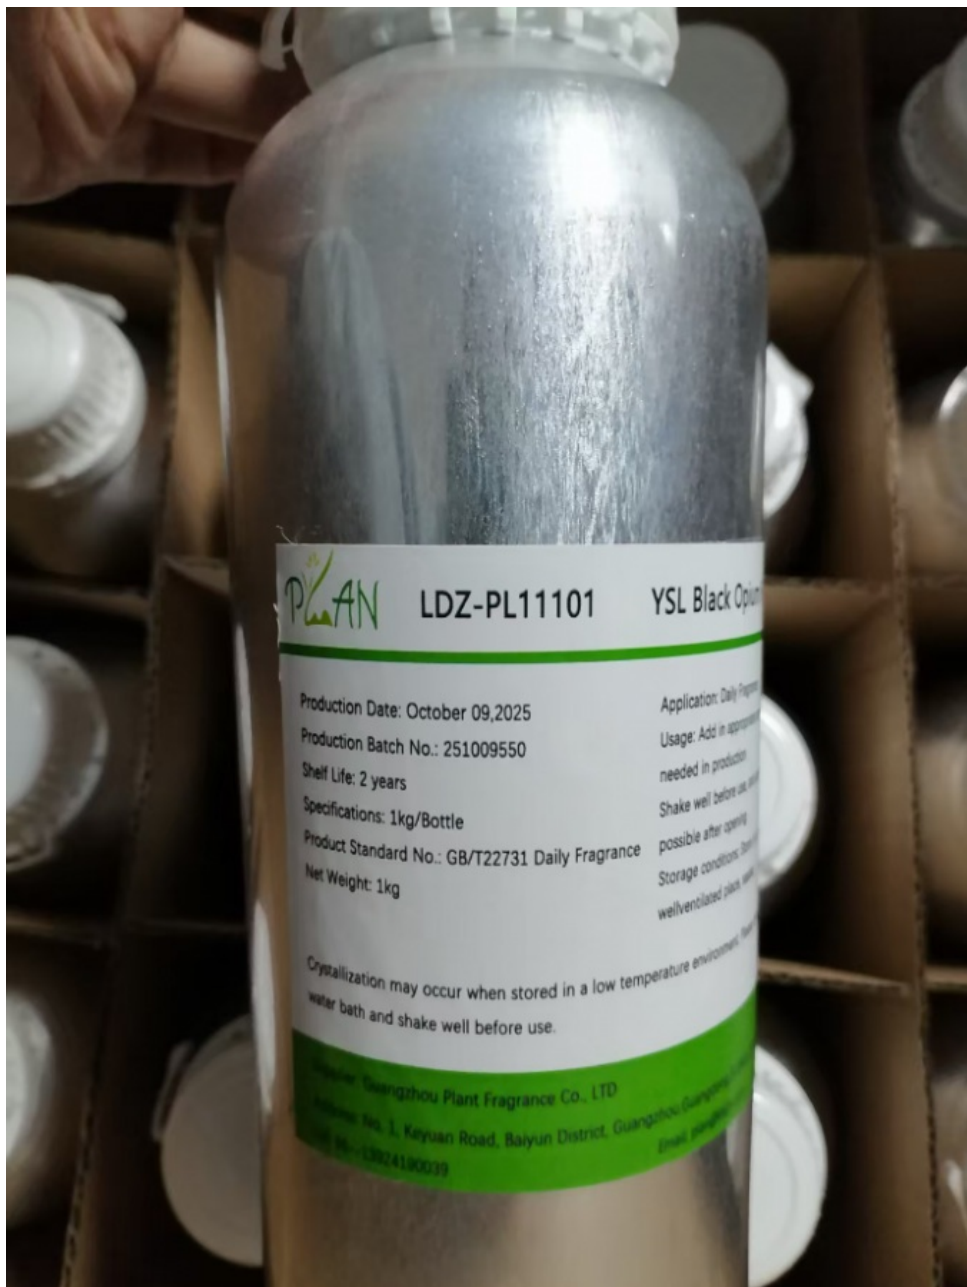

The fragrance is headlined by a dominant Alphonso mango accord, delivering a succulent, nectar-like sweetness. Unlike singular fruit notes, Mango Temptation is structurally complex; it features top notes of zesty citrus and green apple to mimic the slight tartness of a ripening mango. The heart unfolds into a delicate hibiscus and lotus flower bouquet, adding a "dewy" floral dimension that prevents the sweetness from becoming heavy. The dry-down is sophisticated, utilizing clear musk and a hint of creamy coconut to provide a smooth, velvety finish that clings elegantly to the skin.

Fragrance Profile:

Mango Temptation is a vibrant and sophisticated fragrance oil, specifically designed to capture the lush, sun-drenched spirit of the tropics. Its professional construction follows a meticulously balanced olfactory pyramid, ensuring that the scent evolves from a bright, juicy opening to a smooth, sensual finish.

Top Notes:	The fragrance makes an immediate, high-impact entrance with a succulent burst of Mango Nectar and Mandarin. These notes provide a crystalline, "first-bite" freshness that is both uplifting and energetic, establishing an instant tropical atmosphere.
Middle Notes (The Heart):	As the initial citrus sparkle mellows, the heart unveils a delicate floral bouquet of Hibiscus and Magnolia. These mid-notes add a dewy, velvety texture that balances the fruitiness, providing a sophisticated "body" that defines the fragrance's core identity.
Base Notes:	The dry-down is anchored by a warm, lingering foundation of Ivory Wood and Soft Musk. These fixatives ensure the fragrance adheres beautifully to the skin, leaving a clean, magnetic trail (sillage) that remains elegant and professional throughout the day.

Technical Specifications:

To formulate high-quality personal scents with Mango Temptation Fragrance Oil, understanding its technical parameters is essential for ensuring product stability, safety, and performance. This oil is a professional-grade aromatic compound designed for high solubility in both ethanol (perfumer's alcohol) and carrier oils.

Parameter	Specification
Fragrance Notes	Concentrated Mango Temptation Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	1.020–1.060 g/cm³ @ 25°C
Refractive Index	1.490–1.510
Flash Point	>93°C (200°F)
Dosage	Fine Fragrance: 10% - 20% For Body Oils, a dosage of 1%-3% is recommended
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation rate ensures smoother fragrance evolution with richer layers

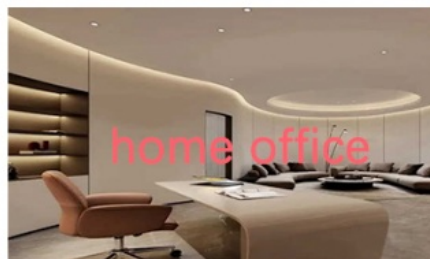

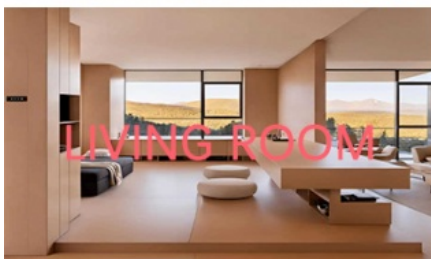

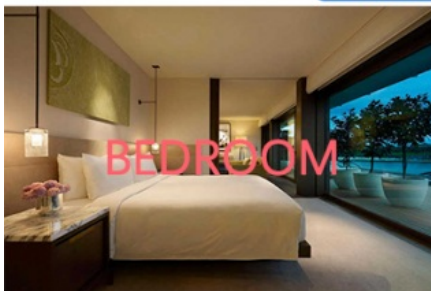

Applications & Functions:

The Mango Temptation Fragrance Oil serves as a specialized aromatic concentrate designed to provide a high-fidelity, tropical sensory experience. Its primary function is to act as a core scent builder, offering a stable and juicy mango profile that remains consistent throughout the perfume's shelf life. Technically, the oil functions as a harmonizing agent; it expertly bridges the gap between sharp, acidic citrus top notes and softer, creamy floral hearts, creating a rounded "nectar" accord. Furthermore, it serves as a longevity enhancer for daily-wear products. By utilizing a concentrated structure, it anchors the scent to the skin, ensuring the vibrant fruit notes linger significantly longer than natural extracts. In professional formulations, it also acts as an olfactory mask, successfully neutralizing the base odors of raw cosmetic ingredients like waxes or alcohols, resulting in a clean and polished final product.

Mango Temptation is highly versatile, making it a staple for a wide range of daily personal care and lifestyle applications. In fine perfumery, it is a premier choice for summer-themed Eau de Parfums or portable oil-based rollers, where its exotic profile thrives on body heat. Its formulation is specifically optimized for body care systems, including succulent shower gels, exfoliating scrubs, and "after-sun" lotions, where it imparts a refreshing, vacation-like aura. Beyond topical use, this oil is exceptionally effective in home fragrance, such as reed diffusers and room mists, providing a bright and welcoming atmosphere. It is also an excellent additive for hair care products, such as leave-in conditioners or shine mists, where it leaves a subtle, magnetic trail (sillage) with every movement. This multi-functional nature allows for a complete "scent layering" routine, keeping the user enveloped in tropical freshness from morning until night.

applications

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC

Support & Services

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

Fragrance Oil for Perfume Making

We Support OEM for Your Own Scent or Other Classical Flavors

We offer comprehensive technical support and services including:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging & Shipping

Product Packaging

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

Shipping Information

Production typically takes 3-5 days for trial orders and 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.
