## Product Description

### Fruity & Floral Lux Fragrance Essence Oil

**Product Code: LDZ-PL21027**

Premium industrial-grade aromatic compound for scented soap, shampoo, and shower gel production. IFRA compliant and phthalate-free.

### Product Overview

The Fruity & Floral Lux Fragrance Essence is an opulent, multi-layered blend designed to elevate personal care products into the realm of high-end perfumery. This sophisticated profile features a sun-drenched Mediterranean aesthetic without sugary sweetness.

Engineered for stability, this soap-safe essence prevents acceleration or discoloration in cold-process soap and maintains perfect clarity in transparent gels and shampoos. It transforms routine hygiene into a premium sensorial ritual that appeals to consumers seeking luxury and elegance.

## Fragrance Profile

|                     |  |
|---------------------|--|
| <b>Top Notes</b>    | The experience begins with a vibrant burst of velvety peach, sparkling Sicilian bergamot, and tart red berries. These notes provide an immediate, expensive freshness that energizes the user during a morning shower. |
| <b>Middle Notes</b> | The core transitions into a creamy, romantic bouquet of Damask rose and white jasmine, softened by a hint of powdery iris. This floral depth gives shampoos a salon-quality feel that lingers beautifully in the hair. |
| <b>Base Notes</b>   | The fragrance is anchored by sheer musk, warm amber, and smooth sandalwood, ensuring a long-lasting, sensual dry-down on the skin.   |

## Functions and Applications

### Professional Functions

This essence functions as a sensory elevating agent, transforming basic hygiene into a luxury ritual. Its primary technical role is to serve as a high-performance masker, effectively neutralizing the chemical base odors of surfactants and fatty acids.

Aromatherapeutically, the blend functions as an emotional balancer. The bright fruity notes provide a revitalizing boost for morning routines, while the floral heart offers a calming effect. In liquid formulations, it is engineered for solubility stability, ensuring integration without cloudiness or separation.

In soap making, its resilient chemical structure survives the harsh alkaline environment of saponification, ensuring consistent, long-lasting scent throw that remains vibrant throughout the product's shelf life.

### Applications

The applications for this essence span multiple high-end cosmetic categories:

**Shampoo and Conditioner:** Achieves a long-wear effect where floral molecules bond to hair for lasting fragrance

**Shower Gels:** Creates a steam bloom where scent intensifies in warm water for an immersive, spa-like atmosphere

**Scented Soap Production:** Ideal for boutique collections, resisting scent-fade in cold process and maintaining clarity in melt and pour bases

**Luxury Hotel Amenities:** Perfect for gift sets and premium skincare lines appealing to consumers seeking elegance and indulgence
