

Fragrances For Soap Making Adolf-type Fragrance Oil For Shampoo and Shower Gel & Scented Soap Making- IFRA

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL21007
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Product Type: Shampoo,shower Gel
- Function: Shampoo Making
- Other Names: Fragrance Essence
- Formula: Liquid
- OEM Service: Welcome
- Type: Fragrance Oil
- Grade: ISO Grade
- Packing: Iron Or Plastic
- Safety: Complies With IFRA Standards
- Certifications: Cruelty-free, Paraben-free
- Target Audience: Adults
- Packaging Type: Bottle
- Purity: 100% Pure
- Ingredient: Contain Herbal Extract
- Allergen Information: May Contain Allergens Depending On

Product Description

Fragrances For Soap Making - Adolf-type Fragrance Oil

Product Code: LDZ-PL21007

Premium industrial-grade aromatic compound for scented soap, shampoo, and shower gel production. IFRA compliant and phthalate-free.

Product Overview

This Adolfo-type fragrance oil is inspired by the classic Adolfo brand and is a staple in the personal care industry due to its inherently clean and polished character. The fragrance features a sophisticated Floral-Green and Aldehydic profile, making it exceptional for rinse-off products like shampoos and shower gels.

It opens with a crisp, sparkling burst of Green Notes and Aldehydes—the chemical components responsible for that classic "soapy" or "fresh linen" aroma. This airy top layer transitions into a rich, elegant heart of White Florals (typically Jasmine, Tuberose, and Gardenia) balanced by the powdery softness of Violet or Orchid.

The base provides a warm, lingering finish on the skin after showering, featuring smooth Sandalwood, Oakmoss, and Amber. For soap making, this scent is prized because it retains its integrity during the saponification process and imparts a luxurious, "salon-grade" freshness that appeals to a wide demographic.

Fragrance Profile

This concentrated Adolfo-type fragrance oil features a classic Floral Aldehyde architecture, professionally engineered for stability within saponified and surfactant-based mediums.

T o p N ot es	The olfactory curve begins with a diffusive burst of Aliphatic Aldehydes and sharp Green Leaf accords. This "sparkling" introduction provides the immediate perception of freshness and hygiene—a critical attribute for the initial "bloom" during shampooing or hand washing. Hints of Bergamot or Lemon often accompany this layer to cut through the density of soap bases.
--	---

Midline Notes	The heart is the fragrance's structural core, composed of tenacious white florals essential for volume. Rich notes of Tuberose, Gardenia, and Ylang-Ylang provide opacity, effectively masking the raw scent of soap noodles or detergents. Subtle touches of powdery Violet and Orris add a sophisticated, cosmetic elegance typical of high-end salon products.
Base Notes	The dry-down relies on hydrophobic fixatives designed to linger on the hair cuticle and skin. Oakmoss, Sandalwood, and Coumarin create a warm, balsamic foundation, while clean Musks ensure a polished finish that reinforces the sensation of a luxury grooming experience.

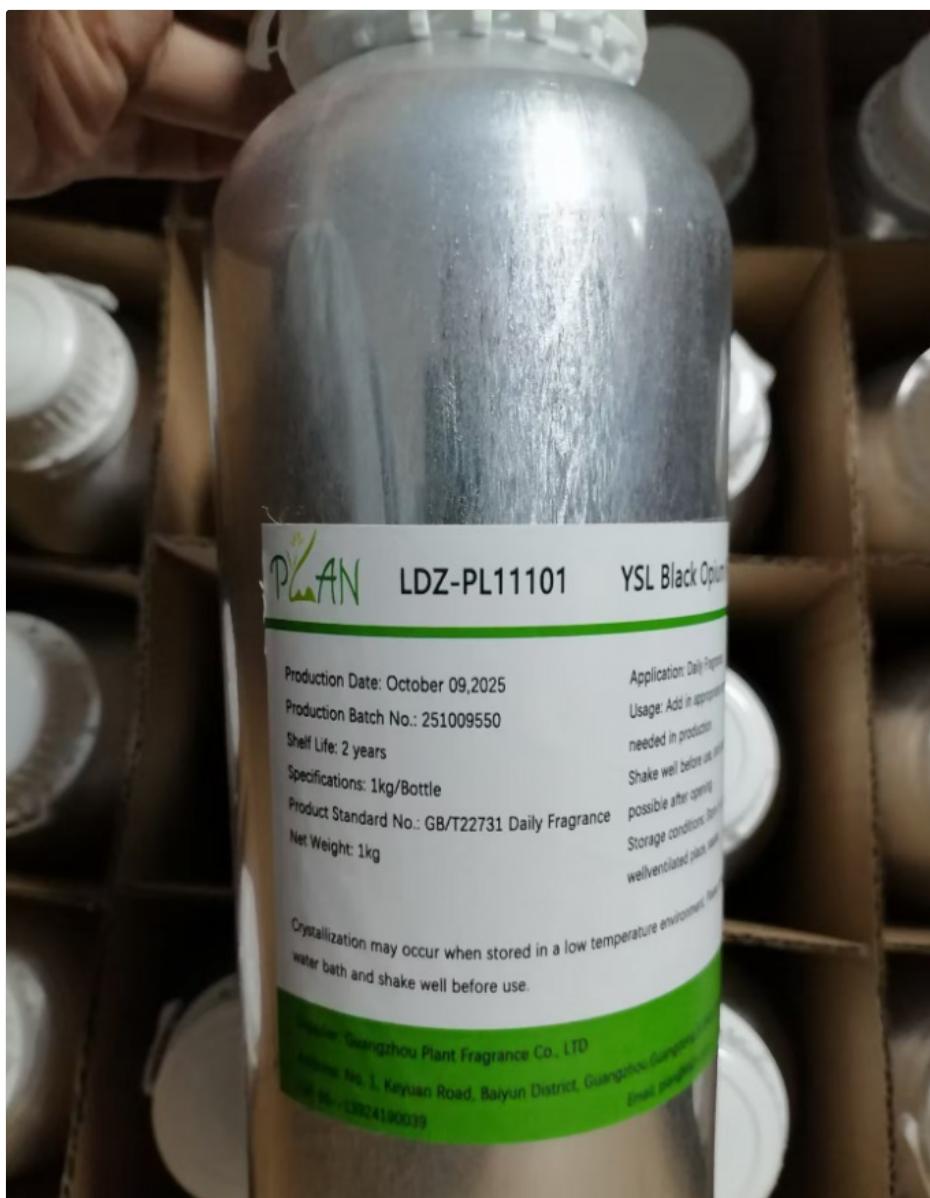

Technical Specifications

Product Name	Adolf-type Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.940 to 1.010 g/cm ³ @ 25°C
Flash Point	93°C (200°F)
Refractive Index (RI)	1.460 to 1.485 (at 20°C)
Phthalate-Free	Yes

Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage

Application	Usage Rate
Shampoo/Shower Gel	0.5% - 3.0%
Cold Process Soap	3.0% - 5.0%
Melt & Pour Soap	2.0% - 3.0%
Liquid Hand Washes	1% - 2%
Hair Conditioners	0.2% - 0.8%

Functions and Applications

Professional Functions

The primary technical function of this fragrance oil in personal care is Malodor Neutralization and Sensory Masking. Raw surfactant bases (like SLES or Betaines) and saponified oils (tallow or vegetable fats) often possess distinct, fatty, or chemical base odors. The Adolfo-type oil, rich in volatile aldehydes and sharp green notes, functions as a high-impact "top-note lifter" that effectively covers these base smells, replacing them with a perception of sterile cleanliness.

Beyond masking, the oil functions as a Substantivity Agent. It is formulated with hydrophobic base notes (Oakmoss, Musk, Sandalwood) that are designed to resist being fully washed away by water. These molecules bind to the keratin in hair and the lipids on skin, ensuring the scent "sticks" and provides lingering freshness hours after the shower. Psychologically, this specific scent profile functions as a Hygiene Indicator; the crisp, soapy aroma signals to the user that the cleaning process was effective, enhancing the perceived value of the shampoo or soap.

Applications

The applications for this essence span multiple high-end cosmetic categories:

Bar Soap Manufacturing	This is the oil's most popular application. It is widely used in Cold Process (CP) and Melt & Pour (MP) soaps (typically at 3-5%) to create "luxury hotel" style bars. The formula is designed to withstand the high pH and heat of saponification without "burning off" or morphing into an unpleasant scent.
-------------------------------	--

Hair Care (Shampoos & Conditioners)	Used at 0.5-2%, it is ideal for "Clarifying" or "Volumizing" shampoo lines. Its fresh profile cuts through the heavy feeling of conditioning agents, leaving hair smelling airy and light rather than weighed down by heavy gourmand scents.
Body Washes & Shower Gels	It provides the "bloom" effect—the sudden burst of fragrance released when hot water hits the lather—creating an immersive shower experience.
Liquid Hand Soaps	Its clean, unisex profile makes it a top choice for high-traffic areas (offices, restaurants) where a neutral, professional "clean" scent is preferred over fruity or sweet options.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC
