

## Perfume Fragrance Oil Lavender&Coriander Fragrance Essence For Daily Using Perfume Making Production

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL11237
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41\*28\*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

#### Product Specification

- Highlight: lavender coriander fragrance oil, perfume making fragrance essence, daily use perfume oil

### Product Description

## Perfume Fragrance Oil Lavender&Coriander Fragrance Essence For Daily Using Perfume Making Production

Product Code:LDZ-PL11237

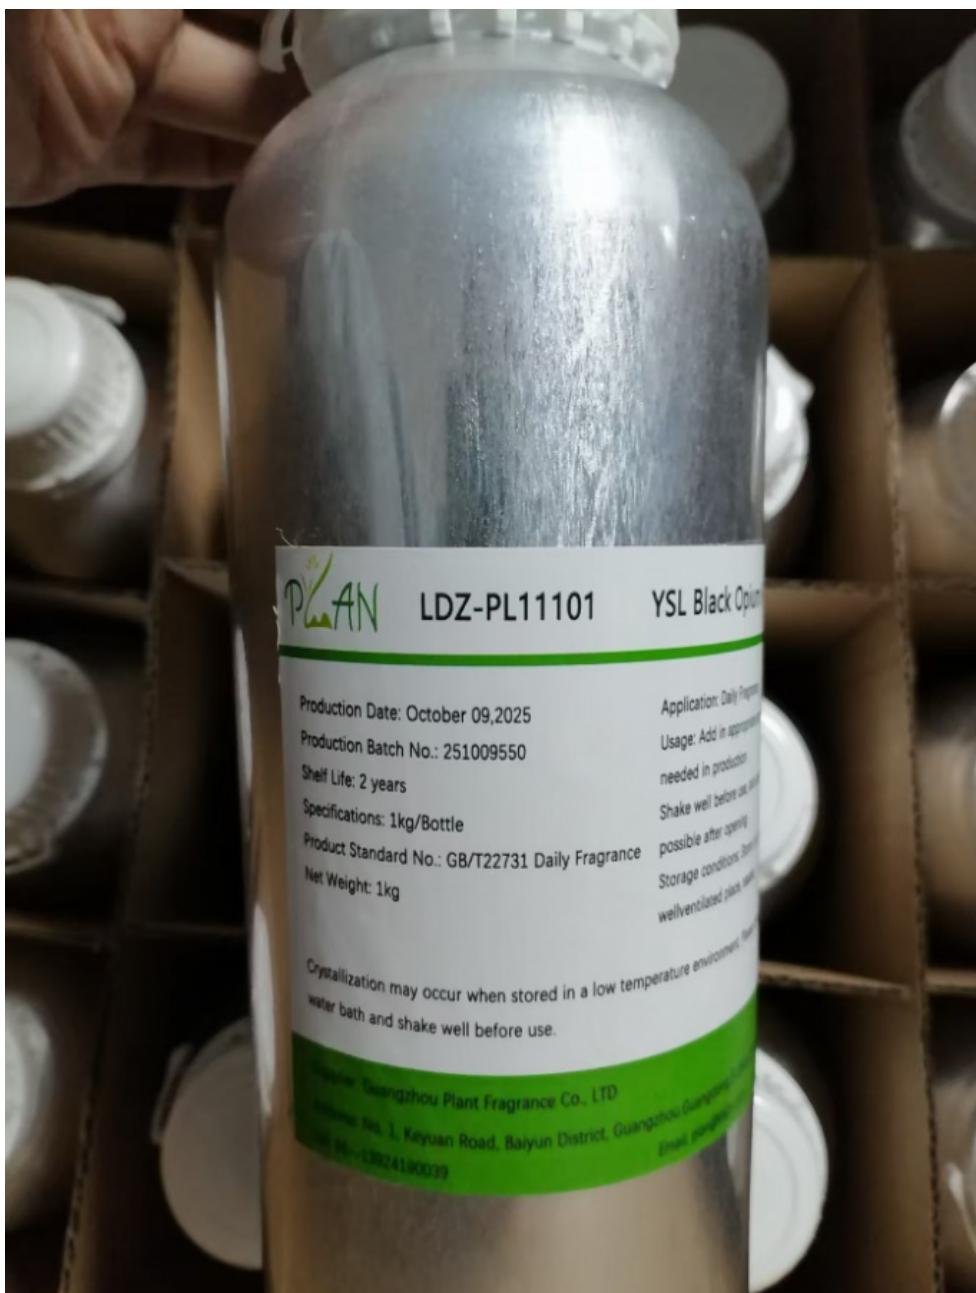

The Lavender & Coriander Fragrance Essence is a sophisticated aromatic-herbaceous composition designed for premium perfume production. This essence reimagines traditional lavender by stripping away its medicinal associations and replacing them with a modern, spicy edge. It is engineered for "daily-wear" formulations that require a balance of calming florals and invigorating aromatics, appealing to a refined, gender-neutral demographic.

This essence is defined by its equilibrant and clean nature. It evokes an atmosphere of "understated luxury," making it an ideal choice for signature perfumes, high-end grooming lines, and wellness-focused fragrance collections.

### Fragrance Profile

<b>Top Notes</b>	The fragrance opens with a sharp, peppery burst of Coriander seed and a hint of English Sage. This spicy-green introduction provides an immediate "cold-press" freshness that feels clean and intellectually stimulating.
<b>Middle Notes</b>	At its core, a blend of French Lavender and Wild Juniper creates a cooling, botanical heart. The lavender used here is floral and airy, lacking the heavy camphor of lower-grade oils, which allows the zesty spice of the coriander to resonate through the middle phase.
<b>Base Notes</b>	The dry-down is anchored by earthy Tonka Bean and Silver Birch. These woody, slightly sweet base notes provide a smooth, velvety finish that anchors the volatile top notes, ensuring a sophisticated "skin-scent" longevity.

### Technical Specifications:

In the technical domain of fine fragrance manufacturing, the Lavender & Coriander Fragrance Essence is an expertly refined, cosmetic-grade aromatic oil. It is specifically engineered for high miscibility in ethanol-based solvents, ensuring that the final perfume remains optically clear and free from clouding or "louching" at various concentration levels.

Parameter	Specification
Fragrance Name	Lavender&Coriander Fragrance Essence
Fragrance Notes	Aquatic, Fresh Citrus, Clean Musk
Appearance	Transparent to amber liquid
Relative Density	0.890–0.925 g/cm <sup>3</sup> @ 25°C
Refractive Index	1.460–1.485
Flash Point	>93°C (200°F)
Dosage	Extrait de Parfum 12% – 18% Eau de Parfum (EDP) 8% – 12% Eau de Toilette (EDT) 7% – 12% Body Mist / Splash 3% – 5% Soaps / Lotions 1% – 3%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution with richer layers

## Blending Recommendations

<b>With Florals</b>	Pairs beautifully with jasmine or hibiscus for tropical garden effect
<b>With Citrus</b>	Enhances grapefruit or lime for energizing morning mist
<b>With Base Notes</b>	Settles into creamy, sensual finish when anchored by vanilla, white musk, or sandalwood

## Technical Functions:

The Lavender & Coriander Fragrance Essence functions as a high-tenacity aromatic stabilizer designed for the complexities of fine fragrance evolution. Its primary technical role is to facilitate a harmonious transition between volatile top-layer spices and dense botanical hearts. The essence utilizes linalyl-rich esters from lavender to act as a bridge, softening the pungent, peppery edges of the coriander aldehydes. This results in a linear evaporation curve, preventing the "scent drop-off" often associated with lighter herbal compositions. Functionally, it is engineered for optimal epidermal adhesion, ensuring that the scent molecules anchor effectively to the skin's lipid layer for extended longevity. Additionally, the oil is treated to be UV-stable, reducing the risk of photo-degradation and ensuring the "silver-green" olfactory profile remains vibrant even when stored in clear glass. This makes it a reliable foundational accord for perfumers seeking to maintain aromatic crispness across diverse environmental conditions.

## Industry Applications:

This essence is specifically curated for the prestige and "clean-beauty" perfume markets. Its primary application is in the formulation of niche Eau de Parfum (EdP) and modern Eau de Cologne, targeting a demographic that values gender-neutral, "quiet luxury" scent profiles. Beyond liquid perfumery, its chemical stability makes it an excellent candidate for solid perfumes and luxury roll-on oils, where a high concentration of aromatics is required in a wax or oil base. In the premium grooming sector, it is frequently utilized in high-end aftershave balms, conditioning beard elixirs, and revitalizing hair mists, providing a sophisticated, therapeutic aroma that transcends traditional "barbershop" scents. Furthermore, its calming yet invigorating character is perfectly suited for functional wellness products, such as aromatic pulse-point pens and luxury hand sanitizers. For the commercial manufacturer, it serves as a versatile middle-note modifier that can add a modern, spicy "lift" to traditional woody or citrus-based fragrance families.

## applications

## Quality Assurance

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA  
MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

## Technical Support & Services

We support OEM for your own scent or other classical flavors with comprehensive technical assistance.

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

## Shipping Information

Production typically takes 3-5 days for trial orders and 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.
