Product Description

Cardamom & Ginger Fragrance Oil

Product Code: LDZ-PL11238

Cardamom & Ginger (Jo Malone type) is a sophisticated "cool-spice" fragrance that balances zesty heat with aromatic freshness. This modern profile features an airy, energizing character, making it an excellent choice for refined daily signature perfumes.

Exceptionally versatile with a crisp rather than culinary profile, this fragrance transitions seamlessly from professional office environments to casual evening occasions. Its naturally unisex appeal makes it perfect for those seeking a distinctive yet understated scent.

Fragrance Profile

The Cardamom & Ginger fragrance profile masterfully blends fiery zest with clean, modern transparency. This luminous composition is structured for year-round daily wear, avoiding the dense, wintry feel of traditional spice-heavy scents.

Top Notes	Vibrant entrance with sharp, invigorating Fresh Ginger providing peppery, citrus-like zest. Often accompanied by Pink Pepper or Bergamot for sparkling, effervescent quality.
Middle Notes	Heart dominated by Green Cardamom with sophisticated herbal complexity and subtle eucalyptus undertones. Creates balanced, rhythmic center that feels both exotic and clean.
Base Notes	Grounded by creamy, smoky Guaiac Wood depths providing soft, balsamic finish. Hints of Cedarwood or Vetiver offer dry, elegant trail with quiet, confident warmth.

Technical Specifications

Parameter	Specification
Fragrance Notes	Concentrated Cardamom & Ginger Fragrance Essence Oil
Appearance	Transparent to amber liquid
Relative Density	0.9250–0.965 g/cm³ @ 25°C
Refractive Index	1.4600–1.4900
Flash Point	>93°C (201°F)
Dosage	Eau de Toilette (EDT): 12%-18% Eau de Parfum (EDP): 15-20%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation rate ensures smoother fragrance evolution with richer layers

Applications & Functions

The primary function of Cardamom & Ginger fragrance oil is to provide an invigorating aromatic structure that balances thermal sensations—the "heat" of ginger against the "cool" of cardamom. In perfume construction, it serves as an effective bridge note, seamlessly connecting fleeting citrus top notes to heavier woody or musky bases.

Its chemical composition ensures luminous projection, creating noticeable presence without the dense, suffocating weight of traditional oriental spices. This makes it functionally superior for daytime wear. The spicy molecules act as natural enhancers, boosting the perceived freshness of the entire blend.

Versatile Applications

- Luxury grooming products: beard oils, aftershaves, and revitalizing body washes
- Aromatherapy-inspired body care: massage oils and pulse-point rollers
- Home scenting: high-end soy candles and ultrasonic diffusers

Unisex and gender-neutral fragrance collections
Linen waters for crisp, spicy refresh of home textiles

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation
