

Oil Based Fragrances INVICTUS M TYPE Fragrance Essence Oil For Daily Using Perfume Making With Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL11330
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Form: Spray,Oil,Wax
- Scent: Floral,Spicy,green Apple,Woody,Sweet
- Type: Parfum,Eau De Parfum,body Spray,fragrance Mist,body Mist
- Gender: Female,Male
- Usage: Deodorant,moisturing,refreshing,Body Care,Useful
- Color: Red,blue,Purple,clear,green;
- Sample Lead Time: 3-5 Days
- Service: OEM ODM Accept
- Product Name: Body Mist,Fragrance Mist,Best Natural Lavender Fragrance Skin Refreshing Body Mist,Perfume,Essential Oil Mosquito Repellent
- Sample: Available,Free(Freight Paid By Buyer),For Free
- Oem/odm: Min Order 1000kgs,Welcomed,Available,yes

Product Description

Oil Based Fragrances INVICTUS M TYPE Fragrance Essence Oil For Daily Using Perfume Making With Free Sample

Product Code: LDZ-PL11330

Invictus M Type fragrance essence is a high-performance aromatic compound engineered to replicate the "trophy" of modern masculine perfumery. It is characterized by its dynamic contrast between biting freshness and deep, sensual magnetism, making it an exceptionally versatile base for daily-wear perfumes, body sprays, and premium grooming products.

In essence, Invictus M Type is the olfactory embodiment of strength and fluidity, offering a professional-grade foundation for any masculine fragrance line.

Our Product Introduction

Fragrance Profile:

The scent architecture follows a Woody Aquatic DNA, designed to evoke the sensation of victory and raw energy.

Top Notes	The opening is dominated by a "marine accord" paired with zesty grapefruit and mandarin orange. This creates an immediate, sharp freshness—reminiscent of a sea breeze hitting citrus groves—that provides the "hook" for daily-use applications.
Middle Notes	As the initial zest settles, the fragrance transitions into an aromatic heart of bay leaf (laurel) and jasmine. The bay leaf adds a sophisticated, herbal "greenery" that prevents the sweetness from becoming cloying, maintaining a clean, athletic edge.
Base Notes	The dry-down is where the "M Type" shows its muscle. A rich blend of guaiac wood, oakmoss, patchouli, and grey amber (ambroxan) provides a sturdy, masculine trail. This earthy finish ensures excellent longevity and sillage, crucial for commercial perfume production.

Technical Parameters:

Parameter	Specification
Fragrance Notes	Concentrated INVICTUS M TYPE Fragrance Essence Oil
Appearance	Transparent to amber liquid
Relative Density	0.930–0.965 g/cm³ @ 25°C
Refractive Index	1.480–1.510
Flash Point	>93°C (200°F)

Dosage	Eau de Toilette (EDT): 15%-20% Eau de Parfum (EDP): 8-12% Oil-Based Roll-ons: 20% - 25% Aftershave/Cologne::3%-5% Body Care (Lotion/Soap): 1%-2%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation rate ensures smoother fragrance evolution with richer layers

Applications & Functions:

Versatile Applications

The primary function of Invictus M Type essence is to act as a high-impact olfactory anchor within a product formulation. Beyond simply providing a scent, it functions as a "linear-evolution" aromatic, engineered to maintain a consistent scent profile from the initial top-note "burst" to the deep woody dry-down. Technically, it utilizes high-performance fixatives—such as synthetic amber and oakmoss—which function to slow the evaporation rate of more volatile citrus and marine molecules. This functional stability ensures "all-day" performance, a critical requirement for modern masculine perfumery. Additionally, the essence is formulated to be chemically inert when mixed with standard perfumer's alcohol (Ethanol) or carrier oils, preventing unwanted chemical reactions, cloudiness, or precipitation. This ensures the final product remains visually clear and shelf-stable for a minimum of 24 to 36 months under standard storage conditions.

The application of this essence spans multiple tiers of the personal care and lifestyle industries, primarily centered on Fine Fragrance Production. It is most commonly utilized as the base for Eau de Parfum and Eau de Toilette lines, where its "Woody Aquatic" profile appeals to the mass-prestige market. However, its application extends into the Grooming and Cosmeceutical sector; it is frequently integrated into high-end beard oils, aftershave balms, and pomades because its robust base notes can successfully mask the scent of raw chemical ingredients. Furthermore, it is an ideal candidate for Ambient Scenting and lifestyle products, such as luxury car diffusers or pressurized room sprays, due to its excellent "throw" (diffusion). Because the oil is highly concentrated, it offers manufacturers the flexibility to scale from premium, high-concentration retail perfumes to cost-effective, daily-use body mists without losing the recognizable "Invictus" character.

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

Production typically takes 3-5 days for trial orders and 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.

Where there are fragrance, there are plant flavor.
