

Essence Oil Perfume Aramis 900 Old Fragrance Essence Oil For Daily Using Perfume Making With Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL11331
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Color: Light Yellow
- Scent: Floral,Spicy,green Apple,Woody,Sweet
- Usage: Lily Of The Valley Fragrance Oil
- Samples: Support Free Samples
- Packaging Type: Plastic Or Iron Barrel
- Fragrance Notes: Floral, Woody, Musky
- Age Group: Adults
- Oem Service: Welcome
- Solubility: Oil/ Water Soluble
- Purity: 100% Pure
- Industrial Use: Perfume
- Highlight: **Aramis 900 essence oil perfume, daily use fragrance oil, perfume making essence oil**

Product Description

Aramis 900 Old Fragrance Essence Oil

Product Code: LDZ-PL11331

Aramis 900 is a distinguished Woody Chypre essence, revered in professional perfumery for its sophisticated "apothecary" profile. Unlike contemporary mass-market scents, this oil offers a complex, medicinal elegance that serves as a cornerstone for heritage-style masculine fragrances. It is characterized by its uncompromising botanical structure and exceptional structural integrity.

Fragrance Profile

The Aramis 900 essence oil is a masterclass in the Woody Chypre tradition, celebrated for its "apothecary-style" complexity. For professional production, this oil provides a structured, three-tier olfactory evolution that balances clinical freshness with deep, animalic warmth.

Top Notes	The opening is a sharp, invigorating burst of coriander, bergamot, and Brazilian rosewood, supported by crisp green notes and lemon. This "herbal-medicinal" introduction is the hallmark of the Aramis 900 profile, providing a sophisticated, clean entry for daily-wear products.
Middle Notes	The heart transitions into a rare masculine floral bouquet. It is dominated by a dry, spicy rose and geranium, layered with carnation, orris root, jasmine, and lily-of-the-valley. This stage adds significant aromatic depth and a "gentlemanly" elegance.
Base Notes	The foundation is built on a tenacious, earthy blend of oakmoss, civet, and patchouli. Complemented by vetiver, sandalwood, and amber, these base notes provide the heavy molecular weight required for long-lasting sillage and a rugged, classic finish.

Technical Parameters

Parameter	Specification
Fragrance Notes	Concentrated Aramis 900 Old Fragrance Essence Oil
Appearance	Transparent to amber liquid
Relative Density	1.0240–1.0340 g/cm³ @ 25°C
Refractive Index	1.495–1.525
Flash Point	>93°C (200°F)
Dosage	Recommended at 15% for Eau de Parfum and 8%-10% for Eau de Toilette to ensure the signature clinical-herbal trail.
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation rate ensures smoother fragrance evolution with richer layers

Applications & Functions

The primary function of the Aramis 900 essence is to act as a structural fixative and a complex aromatic anchor. Due to its high concentration of heavy molecular weight base notes—specifically oakmoss, patchouli, and animalic civet—it functions to effectively lower the vapor pressure of the more volatile citrus and green top notes. This ensures a slow, controlled evaporation, which is technically termed "high tenacity." Furthermore, this essence functions as a harmonizing agent between disparate scent families; it successfully bridges medicinal-herbal facets with dry-floral elements (rose and geranium). This dual-action chemical stability makes it an excellent choice for formulations requiring a "linear evolution," where the scent remains recognizable throughout the wear cycle. It also serves a masking function, where its robust earthy profile can neutralize the sharp chemical scent of high-percentage alcohol bases or soap noodles, ensuring a premium olfactory finish.

Versatile Applications

The applications for Aramis 900 essence are primarily found in Fine Fragrance and Premium Grooming sectors. In fine perfumery, it is the fundamental base for "Apothecary-style" Eau de Colognes and Eau de Toilettes, catering to a niche market that values vintage, clinical elegance over modern gourmands. Beyond liquid perfumes, its high chemical stability makes it highly suitable for Cosmetic and Personal Care applications. It is frequently applied in the production of luxury aftershave balms, transparent glycerin soaps, and conditioning beard oils, where its green-floral profile provides a sophisticated, "barbershop" sensory experience. Additionally, because the essence is highly resistant to heat-induced degradation, it is a preferred choice for Ambient Scenting in professional environments, such as executive offices or boutique hotels, via cold-air diffusers or premium reed diffusers. Its versatility allows manufacturers to utilize a single essence across an entire masculine grooming line while maintaining scent uniformity and brand identity.

Research & Development

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

Production typically takes 3-5 days for trial orders and 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.

Where there are fragrance, there are plant flavor.
