

Laundry Product Fragrance Ocean Breeze Fragrance Oil For Laundry Detergent & Fabric Softener Making /Production With Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL50175
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Description

Laundry Product Fragrance Ocean Breeze Fragrance Oil For Laundry Detergent & Fabric Softener Making /Production With Free Sample

Product Code: LDZ-PL50175

Product Features

The Ocean Breeze Fragrance Oil is a premium industrial-grade aromatic solution specifically engineered to infuse laundry detergents and fabric softeners with the revitalizing essence of the sea. Its primary feature is an advanced aquatic profile, blending salty sea spray, ozonic minerals, and cool coastal air to provide a "ventilated" freshness that effectively masks musty odors and surfactant bases.

Technically, this fragrance is built for resilience and high substantivity. It features a stabilized chemical structure that remains potent in high-pH environments, ensuring the scent does not degrade or cause discoloration in liquid formulas. The oil is formulated to "anchor" deeply into textile fibers, allowing the breezy, marine aroma to persist through rigorous rinse cycles and high-heat drying stages.

Unlike standard oils, Ocean Breeze offers a dynamic sensory transition, delivering an immediate "wet bloom" during the wash and a sophisticated, clean dry-down that lingers on garments for weeks. With a high flash point and seamless surfactant compatibility, it is the ideal choice for manufacturers seeking a high-tenacity fragrance that signifies deep-cleaned hygiene.

Fragrance Profile

The Ocean Breeze Fragrance Oil is expertly layered to deliver a sophisticated, "open-air" freshness that evolves from the initial wash to the final wear. This olfactory profile is specifically engineered to provide a sense of deep-cleaned hygiene through a three-stage scent release.

Top Notes	The Top Notes offer an immediate, revitalizing burst of salty sea spray, ozonic accords, and zesty bergamot. These volatile molecules create a powerful "wet bloom," filling the laundry room with a crisp, invigorating aroma as soon as the detergent is dispensed.
Middle Notes	The Middle Notes, or the heart of the fragrance, transition into a cooling blend of water lily, blue eucalyptus, and soft green leaves. This layer provides a clean, airy body that persists during the rinse cycle, effectively masking any base chemical odors.
Base Notes	The Base Notes are anchored by driftwood, white musk, and transparent amber. These heavy, substantive molecules bond to fabric fibers, ensuring a lingering, sun-dried coastal scent that remains on garments for weeks.

Technical Parameters

The Ocean Breeze Fragrance Oil is a professional-grade aromatic compound engineered for high-volume detergent and fabric softener manufacturing. To ensure batch consistency and product safety, it is formulated within strict technical boundaries. These parameters are vital for ensuring that the "Ocean Breeze" profile integrates seamlessly into surfactant systems without causing separation, clouding, or chemical degradation in high-pH environments.

The high flash point ensures the fragrance remains stable during high-heat drying cycles, while the concentrated nature of the oil allows for a premium scent experience at a low inclusion cost.

Odor Profile	Ocean Breeze Fragrance Oil
--------------	----------------------------

Appearance	Pale yellow transparent liquid
Fragrance Concentration	65-95%
Relative Density	0.975 - 1.045 (g/cm ³ @ 20°C)
Refractive Index	1.475 - 1.505 (20°C)
Flash Point	> 100°C
Odor Intensity	High intensity, rich and long-lasting
Usage Rate	Recommended maximum usage for liquid laundry detergents (Category 10A) is typically 0.15% to 1.2% of total product weight
Solubility	Soluble in DPG/IPM; Dispersible in Water
IFRA Compliance	Complies with latest IFRA standards, no banned substances
Thermal Stability	Engineered to survive high-heat mechanical drying (60-80°C) without losing ozonic character
Surfactant Compatibility	100% cold-process compatible; will not break viscosity of liquid detergents
Storage Conditions	Store tightly closed in cool, dry place (15-25°C) away from light
Textile Substantivity	Formulated with high-fixative base notes designed to anchor to fabric fibers during rinse cycle

Functions & Applications

The Ocean Breeze Fragrance Oil serves as a high-performance sensory additive designed to bridge the gap between industrial cleaning and premium garment care. Its primary function is to provide a "ventilated" freshness that masks the inherent chemical odors of surfactant bases and neutralizes organic malodors from soiled laundry. Beyond simple aromatization, it is engineered for high substantivity, meaning the fragrance molecules are designed to "cling" to fabric fibers through the rinse cycle and survive high-heat drying.

In terms of application, this oil is exceptionally versatile, integrating seamlessly into anionic systems for heavy-duty liquid and powder detergents, as well as cationic systems for fabric softeners. It is also an ideal choice for scent booster beads, dryer sheets, and specialized ironing waters. Its balanced formula ensures that it does not compromise the viscosity, clarity, or stability of the host product, making it a reliable solution for manufacturers aiming to deliver a consistent, long-lasting coastal freshness that persists from the wash cycle to the wardrobe.

applications

Our Advantages

We have the fragrance essence oils you need! Our R&D team includes several PhDs and senior engineers, with established associated laboratories with universities and colleges. We integrate global technology, information and resources to maintain product and service advantages through continuous innovation on natural ingredients.

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

We support OEM for your own scent or other classical flavors. Contact us for inquiry now.

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance

Packing and Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping

After payment, we arrange production ASAP. Normally takes 3-5 days for trial orders and 5-10 days for bulk orders. Before shipping, we provide photos or samples for confirmation. We offer shipping by ship, air, truck, or express according to client requirements.
