

## Flavour & Fragrance True Love Fragrance Essence Oil For Daily Using Perfume Making With Free Sample

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10277
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41\*28\*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

### Product Specification

- Size: 5000ml Per Bottle
- Other Name: Jasmine Fragrance Oil
- Used For: Daily Floral Flavors For Perfume Making
- Appearance: Light Yellow
- Longevity: 8 Hours
- Application: Car Perfume Making
- Odor: Characteristic Odor
- Notes: Citrus, Floral, Woody
- Fragrance Type: Eau De Parfum
- Form: Light Yellow Liquid Oil
- Top Notes: Bergamot, Lemon, Peach
- Country Of Origin: France
- Add Ratio: 5%-15%
- Fragrance Family: Fresh,woody&earthy,warm&spicy
- Highlight: **True Love fragrance essence oil,**

## Product Description

### Product Code: LDZ-PL10277

True Love Fragrance Essence is a sophisticated, high-tenacity aromatic compound engineered specifically for the fine fragrance and personal care manufacturing sectors. Characterized by its Floral-Oriental architecture, this essence bridges the gap between classic romanticism and modern olfactory trends, making it a versatile staple for daily-use applications.

The fragrance opens with a luminous top layer of white freesia and soft aldehydes, providing an immediate sense of cleanliness and "lift." The heart transitions into a dense, multi-layered floral core dominated by Bulgarian rose and night-blooming jasmine, subtly sweetened by velvety stone fruit accords. The dry-down is anchored by a robust base of crystalline amber, sustainable sandalwood, and a signature white musk complex, ensuring sophisticated sillage that remains stable on skin or within product bases.

## Fragrance Notes

True Love Fragrance Essence is a professional-grade aromatic compound meticulously engineered for high-end perfumery and daily cosmetic production. It features a sophisticated tri-tier olfactory pyramid designed to unfold gradually, ensuring a captivating and long-lasting sensory experience.

<b>To p Not es</b>	The fragrance opens with a luminous and refreshing burst of White Freesia, Apricot, and Green Notes. This airy introduction provides an immediate sense of "lift" and brightness, utilizing volatile molecules that offer a clean, inviting prelude to the deeper floral heart.
<b>Mid dle Not es</b>	As the top notes evaporate, the core identity emerges—a rich, romantic bouquet of Bulgarian Rose, Night-Blooming Jasmine, and Lily of the Valley. These "heart notes" define the fragrance's character, providing a velvety, feminine texture that radiates elegance and emotional warmth.
<b>Ba se Not es</b>	The dry-down is anchored by a tenacious blend of Sandalwood, Golden Amber, and White Musk. These fixative-heavy notes ensure the fragrance remains stable and detectable for hours, leaving a creamy, comforting trail that feels like a "second skin."

## Technical Parameters

Parameter	Specification
Fragrance Notes	True Love Fragrance Essence Oil
Appearance	Transparent to amber liquid
Relative Density	0.980–1.020 g/cm <sup>3</sup> @ 25°C
Refractive Index	1.480–1.510
Flash Point	>85°C (185°F)
Dosage	Eau de Toilette (EDT): 15%-25% Eau de Parfum (EDP): 8-15% Body Lotion / Cream: 1% - 2% Soap / Rinse-off Products: 1.5%-3% Candles / Reed Diffusers: 5%-10%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation rate ensures smoother fragrance evolution with richer layers

## Applications & Functions

The primary function of True Love Fragrance Essence is to establish a distinct, memorable olfactory identity. It serves as a powerful emotive agent, utilizing its floral-oriental profile to evoke feelings of romance and cleanliness, which can significantly enhance consumer brand loyalty. Beyond its scent, the oil acts as a masking agent, effectively neutralizing base odors of raw chemical ingredients in soaps or lotions that might otherwise be unappealing.

Technically, the essence functions as a fixative-rich compound; its high concentration of base notes like sandalwood and amber ensures the fragrance remains stable and perceptible over time, preventing "scent fade." Furthermore, it is formulated to be chemically inert, meaning it provides consistent aroma without reacting to or compromising the structural stability (viscosity or color) of the host medium, ensuring the final product remains aesthetically pleasing throughout its shelf life.

## Industry Applications

The versatility of True Love Fragrance Essence makes it a "workhorse" ingredient across multiple manufacturing sectors:

**Fine Fragrance Production:** Primary concentrate for Eau de Parfum (15-25%) and Eau de Toilette (8-15%), where its complex pyramid of notes can truly shine. Superior solubility in alcohol ensures crystal-clear final products.

**Personal Care & Cosmetic Industry:** Widely applied in "leave-on" products such as moisturizing body lotions, hand creams, and facial serums. Skin-safe profile allows seamless integration into rinse-off products including luxury bar soaps, shower gels, and hair care formulations.

**Home Fragrance Applications:** High flash point makes it suitable for premium soy candles, reed diffusers, and room sprays, providing sophisticated ambient atmosphere for daily living spaces.

## Research & Development

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

## Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

Production typically takes 3-5 days for trial orders and 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.
