

## Fragrance Perfume Wholesale Black (Tom Ford) Fragrance Essence Oil For Daily Using Perfume Making With Free Sample

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10425
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41\*28\*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

### Product Specification

- Country Of Origin: China
- Gender: Women
- Top Notes: Bergamot, Lemon, Peach
- Benefits: Calming, Relaxing, Soothing
- Used For: Daily Floral Flavors For Perfume Making
- Target Audience: Adults
- Pure: 100% Pure Oil
- Sillage: Moderate To Strong
- Application: Perfume Making
- Bottle Size: 1000ml
- Fragrance Type: Eau De Parfum
- Form: Spray,Oil,Wax
- Design: Elegant
- Longevity: 8-10 Hours
- Add Ratio: 5%-15%

## Product Description

### Black (Tom Ford Type) Fragrance Essence Oil

Sophisticated contemporary blend that redefines masculinity by balancing traditional floral notes with a crisp, clean finish. High-concentration essence oil ideal as "mother liquor" for DIY perfume making and professional production.

**Product Code:** LDZ-PL10425

The Black (Tom Ford Type) Fragrance Essence Oil is a bold, prestigious "heavyweight" in the world of perfumery. Designed for high-end production and daily perfume crafting, it captures the essence of modern luxury: dark, mysterious, and unapologetically opulent. It functions as a dense, high-impact concentrate that brings a sense of "niche" sophistication to any product line.

This fragrance is defined by its dark, gourmand-oriental character. It is a complex layering of earthy florals and rich, "shadowy" base notes. It creates an atmosphere of nocturnal elegance, moving away from simple freshness toward a deep, velvet-like warmth.

## Fragrance Profile

True to the Tom Ford inspiration, the scent profile focuses on rare and provocative ingredients. It balances the bitterness of dark chocolate and truffles with the sweetness of vanilla and orchids, grounded by a heavy dose of patchouli and incense.

<b>Top Notes (The Provocative Opening)</b>	The fragrance makes an immediate statement with a complex blend of Black Truffle and Ylang-Ylang, freshened by a touch of Bergamot and Blackcurrant. This creates a dark, fruity, and slightly earthy "wet soil" sensation that is instantly recognizable and high-impact.
<b>Middle Notes (The Floral Heart)</b>	The core is dominated by the elusive Black Orchid and Lotus Wood. These are not "bright" florals; they are deep, spicy, and "fleshy." They provide a floral richness that feels nocturnal and sophisticated, bridging the gap between the initial spice and the heavy base.
<b>Base Notes (The Eternal Shadow)</b>	The dry-down is exceptionally powerful, featuring Patchouli, Incense, and Vetiver for an earthy anchor. This is smoothed out by Dark Chocolate, Vanilla, and Sandalwood, providing a creamy, balsamic warmth that lingers for over 12 hours on the skin.

## Technical Specifications

The Black (Tom Ford Type) fragrance essence oil is a high-performance, industrial-grade aromatic compound engineered for luxury perfume production. It is characterized by its high concentration and rich balsamic density, which provides exceptional stability and a heavy "throw" in both alcohol-based and wax-based applications.

Parameter	Specification
Fragrance Notes	Concentrated Black (Tom Ford) Fragrance Essence Oil
Appearance	Transparent to amber liquid
Relative Density	0.950–1.040 g/cm <sup>3</sup> @ 25°C

Refractive Index	1.470–1.520
Flash Point	~93°C (200°F)
Dosage	Fine Fragrance (EDP/Parfum): 15% - 30% (High longevity) Eau de Toilette (EDT): 8% - 12% Luxury Candles / Wax Melts: 6% - 10% Reed Diffusers: 15% - 25% Soap / Body Wash (Rinse-off): 1% - 3.5%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation rate ensures smoother fragrance evolution with richer layers

## Applications & Functions

The primary function of this essence is to act as a high-tenacity aromatic concentrate that provides depth and "niche" complexity to daily products. Unlike standard scents, it functions as a heavy-base fixative; its rich balsamic and resinous components (like incense and patchouli) slow down the evaporation of lighter notes, ensuring the fragrance remains perceptible for over 12 hours. It also serves as a sensory differentiator, transforming ordinary chemical bases--such as unscented lotions or wax--into premium "prestige" goods. Furthermore, its chemical stability allows it to maintain its dark, sultry profile even when subjected to the heat of candle making or the high pH levels of cold-process soap manufacturing, effectively masking raw material odors with a consistent, velvety aroma.

### Industrial Applications

<b>Fine &amp; Daily Perfumery</b>	It is the ideal "mother liquor" for creating Extrait de Parfum and intense colognes. Its high oil concentration allows for professional-grade sillage in roll-on perfumes and alcohol-based sprays.
<b>Luxury Home Fragrancing</b>	Because it delivers a powerful "hot throw," it is a favorite for high-end soy candles, wax melts, and reed diffusers. It excels in creating an opulent, atmospheric scent for boutique hotels or formal dining spaces.
<b>Personal Care &amp; Grooming</b>	Its sophisticated profile is widely applied in premium beard oils, solid perfumes, and aftershave balms. It provides a "wealthy" skin-scent that appeals to both masculine and unisex markets.

**Bath & Body  
Production**

It is optimized for use in liquid soaps, body washes, and hydrating creams. Its formulation ensures that the scent bonds to the skin even after rinsing, providing a lingering "noir" fragrance experience.

**applications**

**Our Advantages**

# 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

## Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

Production typically takes 3-5 days for trial orders and 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.
