Product Description

Body Wash Fragrances Green apple Flavoring Fragrance For Shampoo and Shower Gel & Scented Soap Making- IFRA

Product Code: LDZ-PL20159

Product Overview

The Green Apple (Granny Smith Type) Flavoring Fragrance is a high-vibrancy, technical-grade essence engineered specifically for the aqueous environments of personal care production. Unlike delicate fine perfumes, this fragrance is built for high-impact freshness and "shower bloom," making it a staple for revitalizing shampoo, shower gel, and soap formulations.

This fragrance is defined by its crisp, tart, and mouth-watering realism. It captures the exact "snap" of a fresh green apple skin, balancing a sharp malic acidity with a subtle, juicy sweetness. It is designed to feel "cold" and ultra-clean, providing an immediate psychological lift during use.

Fragrance Profile

The olfactory profile of Green Apple (Personal Care Grade) is engineered for "linear freshness," ensuring the scent remains crisp and recognizable from the bottle to the lather. Unlike complex perfumes, its note structure is optimized for high-moisture environments like showers and baths.

Top Notes	The fragrance opens with an intense, mouth-watering accord of Granny Smith Apple Skin and Crushed Leaves. A hint of Galbanum or Rhubarb provides that signature "tart" acidity. These highly volatile molecules are designed for a "shower bloom," filling the bathroom with an invigorating, zesty aroma the moment the product meets water.
Middle Notes	As the initial sharpness settles, the heart reveals a juicy, Sweet Red Apple and White Pear core. This prevents the scent from being too acidic, adding a "dewy" floral undertone—often a touch of Lily of the Valley—to give the apple a natural, botanical body rather than a candy-like sweetness.
Base Notes	The dry-down is light and functional, focusing on Crystal Musk and a soft Green Wood accord. These base notes are designed to "anchor" the fruitiness to the hair and skin, providing a lingering "just-washed" scent that feels airy and transparent.

Technical Specifications

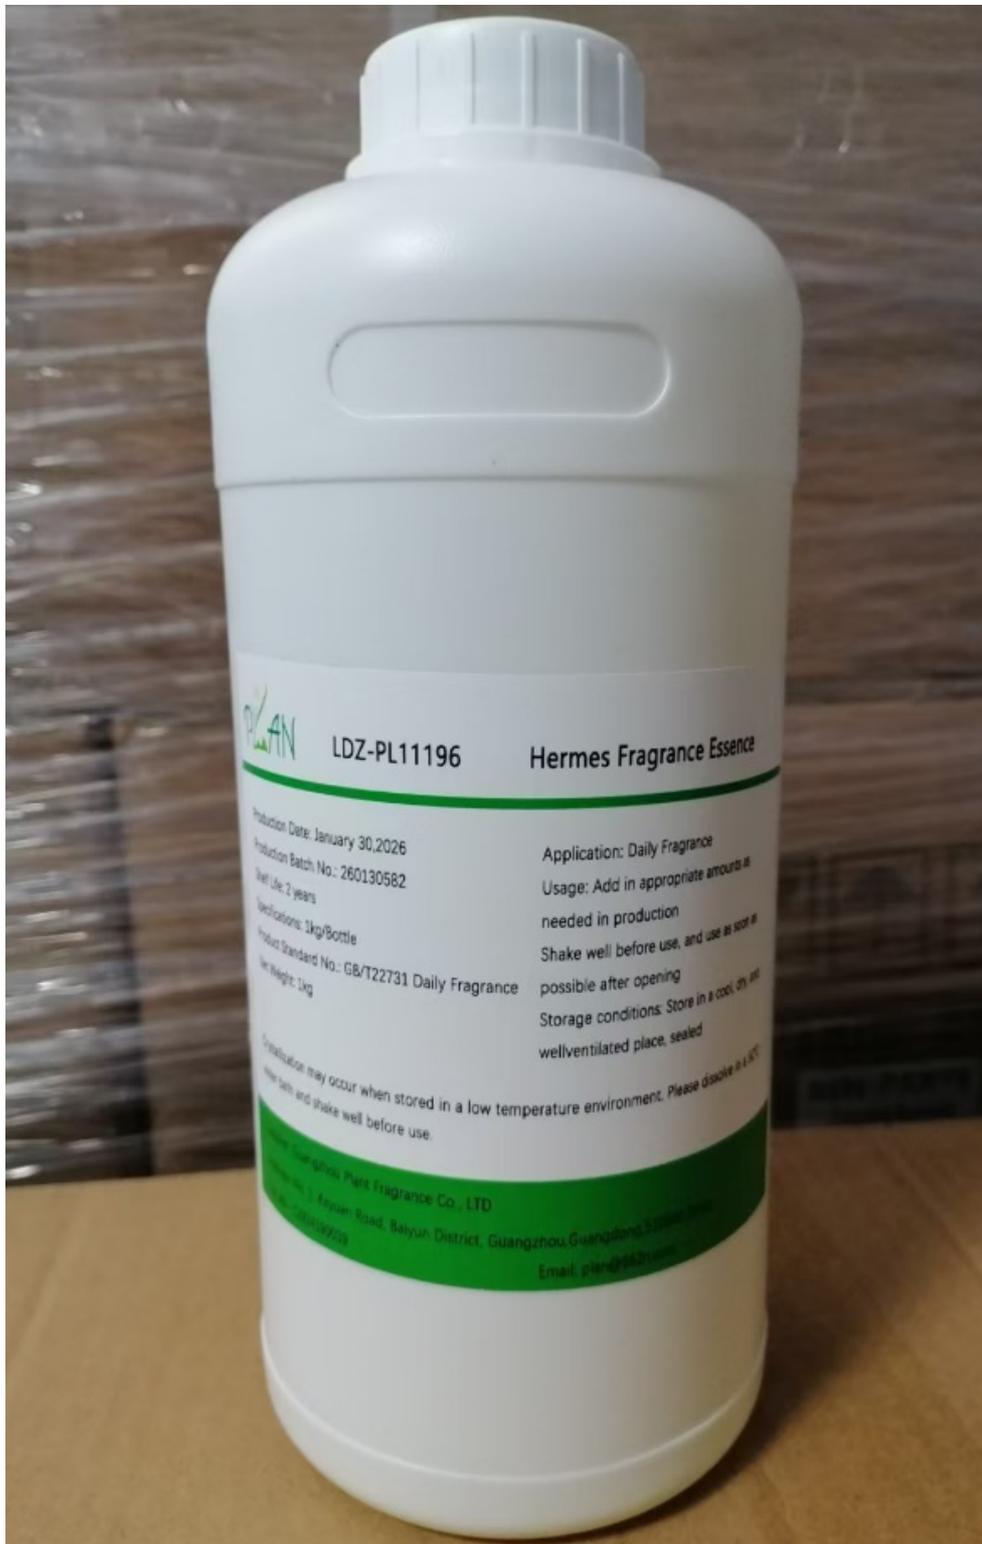

Product Name	Green apple Flavoring Fragrance
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.925 to 0.985 g/cm ³ @ 25°C
Flash Point	75°C -85°C
Refractive Index (RI)	1.440 to 1.490 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage

Application	Usage Rate
Shampoo/Shower Gel	0.5% - 1.5%

Soap Making	2.0% - 3.0%
Liquid Hand Washes	0.3% - 0.8%
Hair Conditioners	0.2% - 1%

Functions and Applications

Professional Functions

The primary function of this fragrance is to provide a "Flash Bloom" sensory experience, where the scent molecules rapidly release and intensify upon contact with warm water and steam. Unlike fine perfumes, it is functionally designed to be surfactant-stable, meaning it will not break down the viscosity or diminish the lathering capabilities of sodium laureth sulfate (SLES) or other soap bases. It also acts as an aesthetic stabilizer; it is formulated without vanillin or heavy resins, ensuring it remains "water-white" to prevent discoloration in transparent or vibrantly colored gels. Furthermore, it functions as a botanical masking agent, effectively neutralizing the chemical odors of raw surfactants or conditioning agents to leave a crisp, nature-identical apple aroma.

Applications

Hair Care	This essence is a staple for clarifying shampoos and lightweight conditioners. Its tart, acidic profile aligns perfectly with the marketing of "deep clean" or "volumizing" hair care lines for oily scalp types.
Body & Hand Hygiene	It is widely used in energizing shower gels and liquid hand soaps. Its gender-neutral, "universal" appeal makes it ideal for family-sized value packs or gym-focused athletic body washes.

Solid Soap Production	In both Melt & Pour and Cold Process soap making, this fragrance maintains its sharp "snap" throughout the curing process. Its non-accelerating properties make it easy to work with for intricate soap swirling designs.
Kids' Personal Care	Due to its "edible" and cheerful fruit profile, it is a top choice for tear-free bubble baths and 2-in-1 shampoos, often used to create a fun, sensory experience that appeals to younger consumers.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC
