## Product Description

### Fragrances For Body Wash Jenny's Fragrance Oil For Shampoo and Shower Gel & Scented Soap Making- IFRA

Product Code: LDZ-PL20169

"Jenny's Fragrance Oil" (often associated with the Jenny Glow line or boutique artisan suppliers) is a sophisticated, designer-inspired scent profile that has become a favorite for high-end shampoo, shower gel, and scented soap productions. Unlike mass-market clinical scents, this fragrance is characterized by its ethereal, nature-inspired elegance, often drawing inspiration from Jo Malone-style simplicity. It is designed to transform a standard bathing routine into a luxurious, "quiet luxury" experience.

The fragrance is typically a harmonious floral-woody or fruity-floral blend, such as the popular "Peony" or "Wood & Sage" variants. It captures a crisp, morning-garden atmosphere with a specific focus on "watercolor" transparency—meaning the scent feels light and breathable rather than heavy or cloying. In production, it is highly valued for its modern, unisex appeal, making it versatile for both men's grooming lines and feminine boutique collections. For the manufacturer, it offers a "clean-label" aesthetic, pairing beautifully with organic extracts and botanical additives. Whether used in a clear shower gel or a marbled artisanal soap, this fragrance provides a high-tenacity aroma that remains true to its profile even after the heat of the manufacturing process, leaving a delicate, sophisticated trail on the skin.

## Fragrance Profile

The PLANT Brand Jenny's Fragrance Oil (inspired by the Jenny Glow aesthetic) is a sophisticated, "watercolor" floral-fruity scent designed to mimic the elegance of high-end boutique perfumery. It is crafted with a transparent structure, making it a favorite for premium, minimalist bath and body collections.

<b>Top Notes</b>	The fragrance begins with a luminous burst of Red Apple and Citrus Zest, often accented by a whisper of Ozone. This provides a crisp, "dewy morning" freshness that is immediately uplifting and bright, perfect for a refreshing shampoo experience.
<b>Middle Notes</b>	As the fruitiness softens, a lush, velvety heart of Peony, Jasmine, and Rose takes center stage. This floral bouquet is delicate and clean, avoiding heavy "grandma" florals in favor of a modern, airy petaly texture.
<b>Base Notes</b>	The scent settles into a warm, skin-like foundation of Soft Suede, White Musk, and Dry Amber. This slightly leathery and musky dry-down provides an expensive-feeling "fixative" that ensures the fragrance clings to the skin and hair with subtle tenacity.

### Technical Specifications

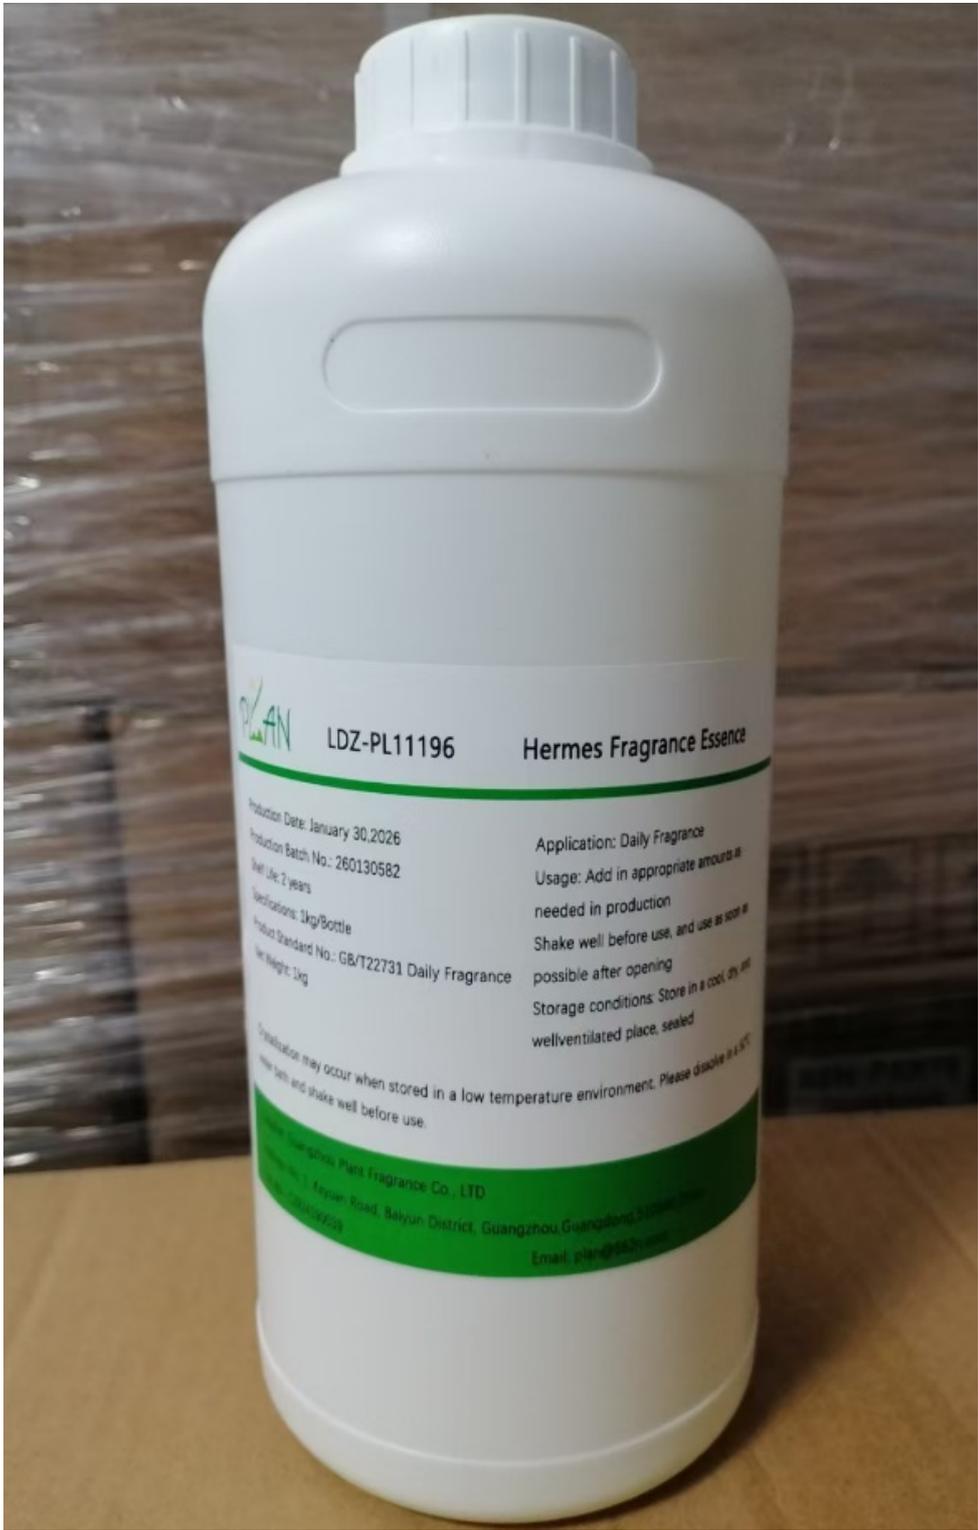

<b>Product Name</b>	Jenny's Fragrance Oil
<b>Fragrance Profile</b>	Floral-Fruity-Woody aroma
<b>Appearance</b>	Clear, colorless to pale yellow liquid
<b>Relative Density</b>	0.985 to 1.025 g/cm <sup>3</sup> @ 25°C
<b>Flash Point</b>	>95°C
<b>Refractive Index (RI)</b>	1.465 to 1.495 (at 20°C)
<b>Phthalate-Free</b>	Yes
<b>Shelf Life</b>	36 Months (Store away from light)
<b>IFRA Compliance</b>	Adheres to IFRA standards
<b>Solubility</b>	Soluble in surfactant-based systems

### Recommended Usage Rates

Application	Usage Rate
Premium Shower Gel	2.0% – 4.0%
Clarifying Shampoo	1.0% – 1.5%

Cold Process (CP) Soap	4.0% – 5.5%
Melt & Pour (M&P) Soap	1.5% – 2.5%

## Functions and Applications

### Professional Functions

The primary function of this fragrance oil is to serve as a high-tenacity aromatic agent that provides a "fine fragrance" feel to daily-use products. Unlike basic fruit scents, its complex layering of top, middle, and base notes is engineered to perform a phased release; the crisp apple notes refresh during the initial lather, while the suede and amber base notes function as a "skin scent" that lingers long after rinsing. Technically, it functions as a non-discoloring aromatic, meaning it contains little to no vanillin, allowing soap makers to maintain pure white or brightly colored aesthetics without the risk of browning. Furthermore, in hair care, it acts as a masking agent for the scent of proteins or herbal extracts, replacing them with a clean, salon-quality aroma that enhances the consumer's perception of product luxury and effective conditioning.

### Applications

This fragrance is exceptionally versatile, with its most prominent application being in Artisan and Boutique Soap Making. In cold-process soap, it is prized for its ability to hold a strong scent through the curing process, though its floral components require "cool-soaping" techniques to manage trace acceleration. In Luxury Shampoo and Shower Gels, it is used to create "designer-inspired" collections that appeal to fans of high-end British perfumery, often requiring a solubilizer to maintain the crystal-clear clarity of the gel base. Beyond the shower, its elegant profile makes it a top choice for Conditioning Hair Mists and Detanglers, where it provides a lightweight, non-greasy scent "pick-me-up." Its sophisticated, gender-neutral floralcy also extends into Home Fragrance applications, such as upscale reed diffusers and luxury soy candles, where it creates an inviting, "modern garden" atmosphere that feels both airy and expensive.

### Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.
