Product Description

Essential Oil Fragrances Intercontinental Hotel Fragrances For Diffusers & Reed Sticks & Scented Candles & Home Spay Productions

Product Code: LDZ-PL30868

Product Overview

The Intercontinental Hotel fragrance is a cornerstone of "Lobby Scenting," designed to project an image of global sophistication, architectural elegance, and five-star serenity. Unlike residential scents that can be overly sweet, this fragrance is a "Worldly Floral-Woody" blend. It is engineered to feel expansive and airy, mimicking the high ceilings and marble corridors of a luxury grand hotel.

The scent architecture is typically a refined Oriental-Fuqi or Citrus-Floral composition. It opens with an inviting burst of Calabrian Bergamot, Lemon, and Sweet Pear, providing a crisp, professional first impression. The heart reveals a complex bouquet of Jasmine, Gardenia, and Roman Chamomile, often accented by spicy notes like Ginger or Cardamom to add an exotic, well-traveled character. The base is anchored by "expensive" foundations of Sandalwood, Patchouli, and Cedarwood, which provide a grounding, mossy depth that lingers in the air without becoming heavy.

Fragrance Profile & Characteristics

The Intercontinental Hotel fragrance is a masterclass in "Atmospheric Branding," designed to evoke a sense of global luxury and professional serenity. Its notes are meticulously layered to create a scent that feels both expansive and intimately comforting.

Fragrance Notes	Description
Top Notes	The fragrance opens with a bright, sophisticated blend of Calabrian Bergamot, Zesty Lemon, and Green Tea. These notes provide an immediate sense of "expensive freshness," mimicking the crisp, clean air of a high-end lobby and instantly refreshing the environment.
Middle Notes	As the citrus settles, a complex floral and spicy heart emerges, featuring White Jasmine, Lily of the Valley, and a hint of Fresh Ginger. This combination adds a "world-traveler" elegance, offering a soft, watery floralcy balanced by a subtle, energizing spice.
Base Notes	The dry-down is anchored by a rich, woody foundation of Sandalwood, White Musk, and Amber. These deep, mossy notes provide the "five-star" longevity required for ambient scenting, leaving a lingering trail of warmth and architectural stability that settles beautifully into fabrics and furniture.

Technical Specifications

In production, this oil is highly versatile for Cold Air Diffusers and Reed Sticks due to its "nebulizing" efficiency—it disperses evenly without separating. For Scented Candles and Home Sprays, it offers a prestigious "Atmospheric Scent" that instantly elevates a living space into a high-end sanctuary.

Parameter	Specification
Product Name	Intercontinental Hotel Fragrances Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.940–0.985 g/cm ³ @ 25°C
Refractive Index	1.460–1.490 @ 20°C
Flash Point	> 85°C (185°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Reed Diffusers: 20% - 30% Scented Candles: 8% - 10% Home/Room Spray: 3% - 5% Cold Air Diffuser: 100% Cold Process Soap: 3% - 5%
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters

Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications

The primary function of this fragrance oil is to serve as an atmospheric branding tool that psychologically transforms a physical space into a luxury environment. Engineered for high-performance diffusion, it functions through a precision-evaporation system; the volatile citrus top notes provide an immediate sense of professional cleanliness, while the dense woody base notes act as "anchors" to ensure the scent remains suspended in the air for extended periods. In Cold Air Diffusion, it is designed to be atomized into nano-particles that travel through large spaces without leaving a heavy residue. In Candle and Soap Making, it functions as a high-tenacity aromatic that withstands chemical heat, ensuring the "lobby-fresh" scent remains true to its profile during and after production. Ultimately, it serves to neutralize ambient odors and replace them with a complex, calming olfactory background that reduces stress and enhances the perceived value of the space.

Primary Applications

The applications for this luxury fragrance oil are centered on premium home and hospitality scenting. In Commercial HVAC and Cold-Air Diffusers, it is the gold standard for creating a signature "Five-Star Lobby" experience in hotel chains, high-end retail boutiques, and corporate offices. For Artisan Reed Diffusers, it is a top-selling choice for the "Quiet Luxury" market, providing a constant, sophisticated scent trail in hallways and living areas. In Cold Process Scented Candles, it is applied to create "Staycation" collections, where its high flash point ensures a clean, powerful hot throw that fills a room with a prestigious, woody aroma. Additionally, it is a key ingredient in Luxury Home Sprays and Linen Mists, where it is used to refresh fabrics and upholstery with an "expensive" finish. Its versatility also extends to Melt & Pour Soap and Bath Products, allowing makers to offer a complete, hotel-inspired sensory ritual for the modern consumer.

applications

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging and Shipping

Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information

Production time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photos or samples for confirmation before shipping. Shipping options include ship, air, truck, and express delivery.

Product Code: LDZ-PL30305

Free samples available for home spray, diffuser, scented candle, and reed sticks applications.
