Product Description

Soy Candle Fragrances Ylang-ylang Rose Essence Oil For Scented Candle Production With Free Sample

Product Code: LDZ-PL40325

Product Overview

PLANT Fragrance Oil - The Ylang-ylang Rose Fragrance Essence Oil is a sophisticated, high-performance botanical blend specifically engineered for luxury soy candle production. Unlike traditional floral scents that can become cloying, this essence balances the exotic, creamy sweetness of Ylang-ylang with the timeless, dewy elegance of Damask Rose, creating a "spa-like" or "high-end boutique" olfactory profile.

This essence is particularly optimized for Soy Wax integration. Soy wax can often "mask" delicate scents, but this oil is formulated with high-potency aromatic molecules that cut through the natural milky odor of soy. It offers an exceptional hot throw, filling large spaces with a calming, romantic ambiance without the "chemical" aftertaste often found in synthetic florals. It is a premier choice for brands targeting wellness, romance, or bridal-themed collections.

Fragrance Profile

Top Notes	The scent opens with a light, airy citrus zest and green leaf accord, mimicking the freshness of a morning garden.
Middle Notes (Heart)	The core is a masterclass in floral layering. Ylang-ylang provides a custard-like, balsamic richness that acts as a natural fixative for the delicate, powdery notes of fresh-cut roses and white jasmine.
Base Notes	A clean, grounding finish of sheer musk and light amber ensures the floral notes don't dissipate too quickly, providing a smooth, velvety dry-down.

Technical Specifications

Product Specifications

Fragrance Profile	Ylang-ylang Rose Essence Oil
Appearance	Clear to pale yellow liquid
Relative Density	0.930 to 1.040 g/cm ³ @ 25°C
Refractive Index	1.485 - 1.515 @ 20°C
Flash Point	>85°C-95°C (185°F-203°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Phthalate-Free	Meets modern "clean scent" standards for luxury retail

Recommended Dosage

Application	Dosage
Soy / Veggie Wax	8% - 12%
Paraffin Wax	6% - 8%
Reed Diffusers	15% - 20%
Body Care (Soap/Lotion)	1% - 3%

Performance Characteristics

Thermal Diffusion	Excellent - Fills 20-30 square meters in 3-5 minutes after lighting
Thermal Stability	Engineered to resist degradation at standard candle-pouring temperatures (65°C - 80°C)
Cold Throw	Excellent - Noticeable aroma when unburned
Hot Throw	Excellent - Strong and steady aroma spread while burning

Wax Compatibility	Excellent - Blends seamlessly with soy wax, beeswax, coconut wax, paraffin wax, and blends
Solubility	100% oil-soluble; prevents sweating or oil pooling on candle surface
Shelf Life	24 months when stored in cool, dark place
IFRA Compliance	Complies with IFRA standards and passed skin irritation testing

Functions & Applications

Primary Functions

The primary function of Ylang-ylang Rose Fragrance Essence Oil is to serve as a high-performance aromatic core for premium soy wax products, where delicate floral notes must compete with the natural, milky scent of vegetable wax. Technically, this oil functions as a harmonizing agent, utilizing the heavy, balsamic molecules of Ylang-ylang to "anchor" the more volatile and ethereal rose top notes. This structural layering prevents the floral scent from dissipating too quickly during the heating process, ensuring a balanced olfactory progression from the first light to the end of the burn. Beyond mere scenting, it functions as a therapeutic tool in "wellness-oriented" product lines, leveraging the known psychological associations of floral aromatics to promote relaxation and stress reduction. In manufacturing, its high flash point ensures it remains stable and non-reactive, while its low vanillin content ensures it maintains the pristine, creamy white aesthetic that soy candle consumers typically demand.

Primary Applications

This essence oil is primarily applied in the luxury home fragrance sector, where it is a staple for "Botanical," "Spa," and "Bridal" soy candle collections. Its sophisticated profile makes it ideal for high-end container candles, wax melts, and luxury tea lights designed for intimate settings. Beyond solid wax, it is frequently applied in liquid air care, such as high-clarity reed diffusers and fine room mists, where its oil-soluble nature allows for a clean, consistent draw through rattan or fiber reeds. In the cosmetic and personal care industry, this fragrance is widely utilized in the production of "cold-process" soaps, bath salts, and moisturizing body oils, as it meets rigorous IFRA safety standards for skin contact. It is also an excellent choice for hospitality branding, used in scent machines for boutique hotel lobbies or high-end salons to create an atmosphere of elegance and tranquility that lingers long after the initial application.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support & Services

Our R&D team includes PhDs and senior engineers with university partnerships, integrating global technology for continuous innovation. We assist customers in improving product aroma, quality structure, and reducing production costs with tailored solutions.

Comprehensive Support Includes:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- OEM support for custom scents
- Training and education on fragrance formulation

Packaging & Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information

Production begins immediately after payment. Lead times: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation or bulk samples before shipping via ship, air, truck, or express according to client requirements.
