## Product Description

### Emerald Watermelon Fragrance Oil

Emerald Watermelon Fragrance Oil is a highly concentrated fragrance developed for daily-use perfume making and personal care product applications. It features a refreshing and juicy scent profile inspired by freshly cut watermelon, delivering a crisp, sweet, and slightly aquatic aroma that feels clean and energizing.

Our Product Introduction

## Fragrance Profile

Emerald Watermelon is a sophisticated, multi-layered fragrance oil designed for high-end perfume production and daily-wear scents. Unlike standard "candy" watermelon scents, the "Emerald" profile typically leans into a "green," realistic, and aquatic olfactory experience.

Fragrance Notes	Description
Top Notes (Opening)	The scent opens with a crisp, ozonic burst of fresh-cut watermelon, honeydew melon, and green apple. These are often accented by bright citrus touches like mandarin or white grapefruit to provide an immediate sense of "emerald" freshness.
Middle Notes (Heart)	The heart transitions into a watery floral blend, featuring lily of the valley, hibiscus, or green tea leaves. This adds a botanical "rind" quality that prevents the sweetness from becoming cloying.
Base Notes (Foundation)	The fragrance is grounded by a smooth, clean finish of white musk, sheer amber, and a hint of sugarcane or creamy vanilla.

### Technical Specifications

Parameter	Specification
Fragrance Notes	Concentrated Emerald Watermelon Fragrance
Appearance	Transparent to amber liquid
Relative Density	0.935–0.985 g/cm <sup>3</sup> @ 25°C
Refractive Index	1.455–1.485
Flash Point	>85°C

Dosage	Fine Fragrance (EDP/EDT): 10% - 25% Body Wash / Shower Gel: 0.3% - 0.8% Lotions & Creams: 0.2% - 0.7% Shampoo / Hand Wash: 0.2% - 0.6% Home Fragrance (optional): 5% - 10%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

## Applications & Functions

The primary function of Emerald Watermelon fragrance oil is to provide a consistent, high-impact olfactory identity to personal care and lifestyle products. As a concentrated aromatic compound, it acts as a stabilizing agent for scent, engineered to maintain its "green-fresh" profile even when exposed to various chemical bases.

### Industrial Applications

In professional production, this fragrance oil is highly versatile, serving as the core "juice" for Eau de Parfum (EDP) and Eau de Toilette (EDT) lines. Beyond fine perfumery, its crisp profile is ideally suited for premium skincare applications, such as revitalizing body lotions, shower gels, and exfoliating scrubs, where a "water-fresh" aroma is desired.

### Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

### Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

### Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm
