## Product Description

# High-Performance Lavande Hotel Fragrance Oil for Diffusers and Candles - IFRA Compliant and Long-Lasting

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Code: LDZ-PL30414

## Product Overview

The Lavande Hotel fragrance oil is a quintessential hospitality-grade scent, meticulously crafted to evoke the serene and pristine atmosphere of a luxury five-star retreat. Far removed from the rustic or medicinal quality of traditional dried herbs, this fragrance presents a "white-linen" interpretation of French lavender that emphasizes airy, ozonic freshness and sophisticated cleanliness. It functions as a modern aromatic bridge, combining the restorative properties of botanicals with a polished, professional finish that feels both expansive and comforting.

In production, this oil is celebrated for its luminous clarity and structural balance. It opens with a sparkling citrus top of bergamot and lemon, which breathes life into a heart of velvet lavender and neroli. This luminous core is grounded by a base of creamy tonka bean and white musk, ensuring a smooth, powdery dry-down that lingers beautifully in any space. For candle and diffuser manufacturers, the Lavande Hotel profile offers exceptional versatility; its "clean-label" aesthetic makes it a premier choice for high-end spa collections and residential scenting, where the goal is to transform a standard environment into a sanctuary of understated elegance and calm.

## Fragrance Profile & Characteristics

The Lavande Hotel fragrance profile is a sophisticated, "hospitality-grade" aromatic that reimagines traditional lavender as a modern, luxury experience. It is designed to be airy, luminous, and impeccably clean, moving away from rustic herbal notes toward a refined "white-linen" aesthetic.

Fragrance Notes	Description
Top Notes	The fragrance greets the senses with a sparkling, ozonic burst of Bergamot, Fresh Lemon, and Eucalyptus. These notes provide an immediate sense of "just-cleaned" brilliance and airy height, clearing the mental palate.
Middle Notes	The heart is a velvet-smooth blend of French Lavender, Neroli, and Petitgrain. This botanical core is floral yet crisp, stripping away the camphoric edge of wild lavender to reveal a soapy, sophisticated floralcy that feels expensive and serene.

Fragrance Notes	Description
Base Notes	The dry-down is anchored by a creamy, comforting foundation of White Musk, Tonka Bean, and Light Cedar. This soft, powdery finish provides an enduring sense of warmth and luxury, ensuring the fragrance lingers with a gentle, comforting trail.

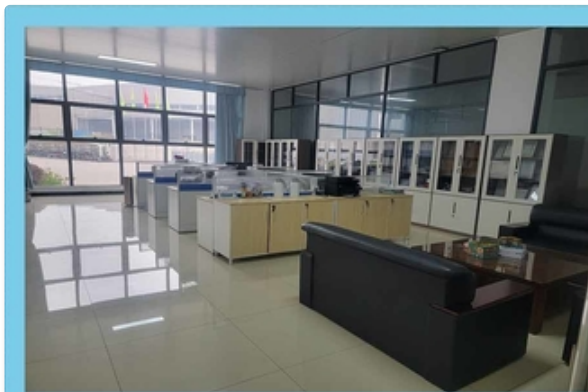

## Technical Specifications

Parameter	Specification
Product Name	Lavande Hotel Fragrance Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.910–0.945 g/cm <sup>3</sup> @ 25°C
Refractive Index	1.455–1.475 @ 20°C
Flash Point	75°C-91°C (143.6°F-158°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Reed Diffusers: 15% - 25% Scented Candles: 6% - 10% Hotel/Room Spray: 0.5% - 2% Ultrasonic Diffusers: 2-4 drops per 100ml of water
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

## Functions & Applications

The primary function of the Lavande Hotel fragrance is to act as an atmospheric stress-reducer and environmental "refresher." In hospitality and residential settings, it is engineered to lower cortisol levels by leveraging the aromatherapy benefits of French lavender, while the ozonic top notes function to mentally "clear" a space. Unlike heavy gourmand scents, its function is translucent and airy, designed to create a sense of expansive luxury and immaculate cleanliness without overwhelming the occupants.

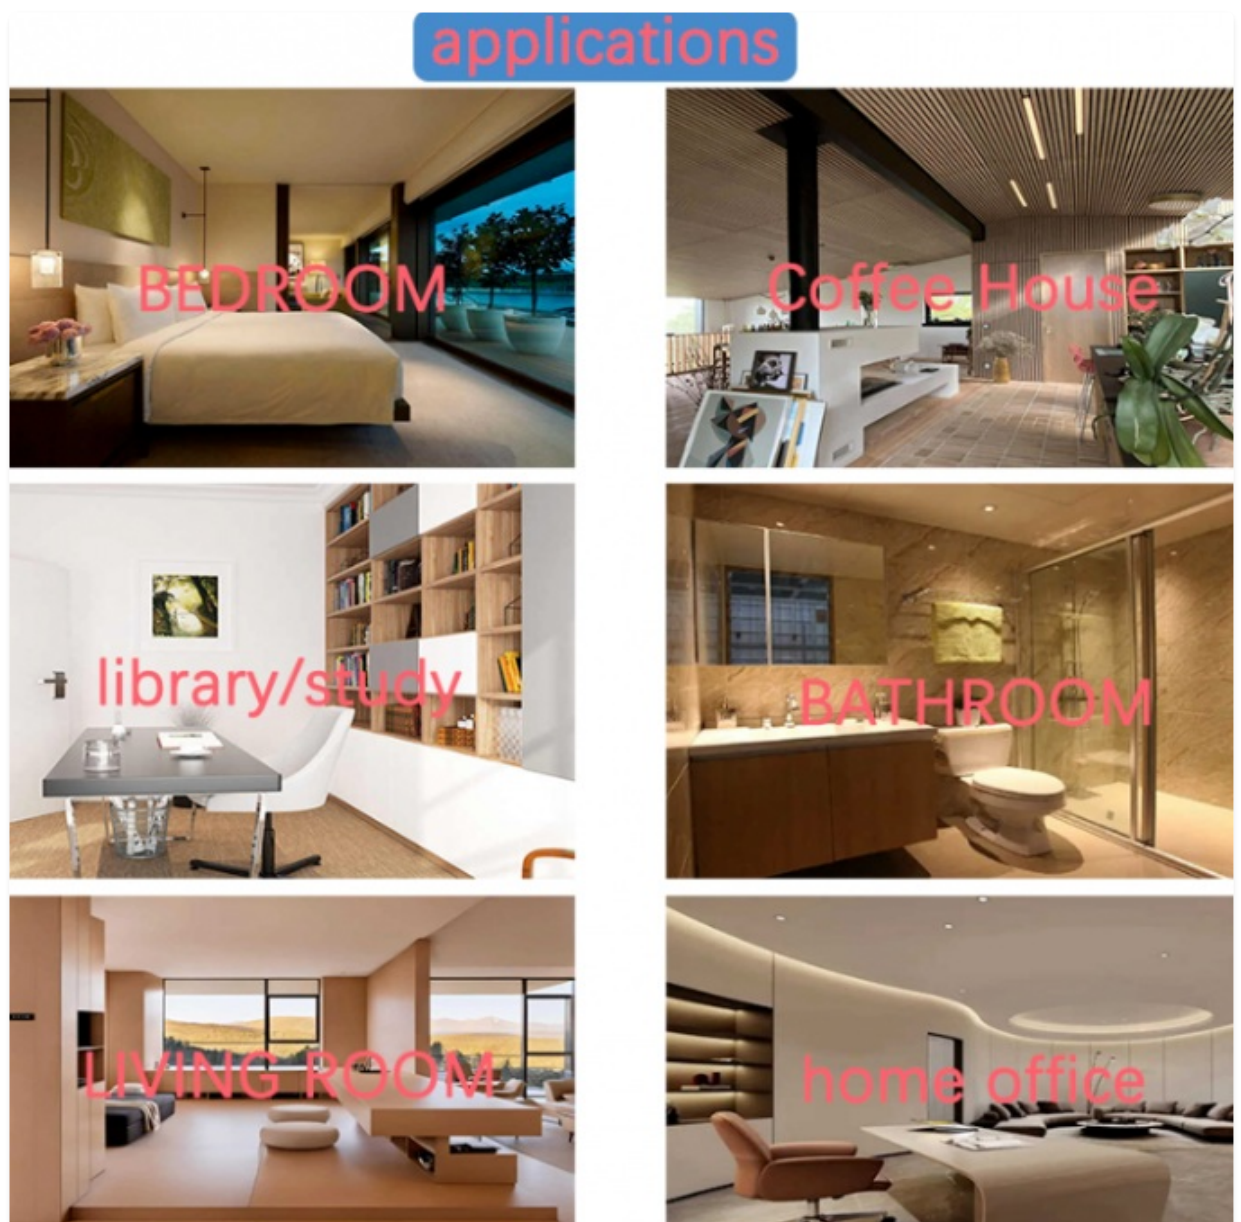

From a technical standpoint, it functions as a high-stability aromatic core. In candle production, the oil is specifically balanced to maintain a consistent "linear" scent profile, meaning the aroma remains true from the first light to the final burn. Its vanillin-free composition serves the critical function of color preservation, ensuring that luxury white waxes or clear diffuser liquids remain pristine and free from the yellowing oxidation that often plagues botanical scents, thereby protecting the product's premium visual identity.

## Primary Applications

The applications for Lavande Hotel are rooted in the "Premium Wellness" and "Luxury Hospitality" sectors. Its most prominent application is in professional-grade scenting systems and reed diffusers, where its low viscosity allows for excellent capillary action and consistent evaporation. In hot process and container candle manufacturing, it is a flagship choice for "Spa" or "Hotel Lobby" collections, providing a sophisticated hot throw that fills large, open-concept rooms with a signature "five-star" aroma.

Beyond home fragrance, this oil's clean and soapy profile makes it exceptionally well-suited for luxury laundry care products, such as high-end linen sprays, wool dryer ball scents, and delicate garment washes. Its "white-linen" characteristics also translate perfectly into personal care applications, including translucent glycerin soaps, hydrating body mists, and "clean-girl" aesthetic perfumes.

Because the profile is inherently unisex and professional, it is frequently used in commercial branding, where businesses—from dental clinics to high-end boutiques—seek to create an environment of trust, cleanliness, and calm.

## Our Advantages

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

### Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

### Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging and Shipping

### Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

### Shipping Information

Production time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photos or samples for confirmation before shipping. Shipping options include ship, air, truck, and express delivery.
