Product Description

Concentrated Fragrance Oils Chrome (Azzaro) Element Fragrance Oil For Daily Using Perfume Making /Productions With Free Sample

Product Code:LDZ-PL10165

The Chrome (Azzaro) Type concentrated fragrance oil is a masterful recreation of the classic Citrus-Aromatic scent, defined by its signature "metallic" freshness and breezy, Mediterranean character. The profile opens with a vibrant, energizing burst of lemon, neroli, and bergamot, softened by the unusual sweetness of pineapple. As it develops, the heart reveals a sophisticated aromatic blend of rosemary and jasmine, creating a clean, "silver" sensation that feels both cool and aquatic. This crispness is grounded by a smooth, reliable base of transparent musk, cedar, and sandalwood, which provides a long-lasting, "just-out-of-the-shower" finish.

In perfume production, this oil is exceptionally versatile due to its high concentration and universal appeal. It maintains its structural integrity across various formulations, making it an ideal choice for everything from premium Eaux de Toilette to daily grooming essentials like lotions and deodorants. Its non-intrusive yet distinct presence makes it a staple for daily-use products, offering a sense of timeless optimism and professional grooming that resonates across all age groups. Whether used as a standalone scent or a clean foundation for blending, it remains a benchmark for effortless, masculine freshness.

Fragrance Profile:

The fragrance profile of Chrome (Azzaro) Type is a meticulously structured Citrus-Aromatic composition designed to evoke the cool clarity of Mediterranean air. It transitions from a sharp, zesty opening to a soft, woody finish, maintaining a consistent "metallic" freshness throughout its evolution.

Fragrance Notes	Description
Top Notes (Opening)	The scent launches with a high-energy citrus explosion of Lemon, Neroli, and Bergamot. This is uniquely balanced by the herbal sharpness of Rosemary and a touch of Pineapple, which adds a crisp, tangy sweetness.
Middle Notes (Heart)	As the citrus settles, the heart reveals an airy, floral-aromatic core of Jasmine, Cyclamen, and Coriander. These notes provide the "transparent" quality the fragrance is famous for, mimicking the scent of clean water and sea breezes.
Base Notes (Foundation)	The dry-down is grounded and masculine, featuring a smooth blend of Sandalwood, Cedar, and Brazilian Rosewood. A heavy infusion of Transparent Musk and Tonka Bean ensures a lingering, soapy-clean trail.

Technical Specifications

Parameter	Specification
Fragrance Notes	Chrome (Azzaro) Element Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.930–0.965 g/cm ³ @ 25°C
Refractive Index	1.450–1.490
Flash Point	>85°C(185°F)
Dosage	Eau de Parfum (EDP) :15% - 20% Eau de Toilette (EDT): 8% - 12% Body Lotions / Creams:1% - 3% Body Lotions / Creams: 1% - 3% Aftershave / Splash:2% - 5% Soap (Cold Process/Melt & Pour):3% - 5% Candles / Reed Diffusers:5% - 10%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions

The primary function of Chrome (Azzaro) Type fragrance oil is to provide a consistent, long-lasting olfactory identity characterized by "cleanliness" and "vitality." Functionally, it serves as a powerful masking agent, effectively neutralizing the chemical base odors often found in cosmetic formulations or alcohol-based solvents. Due to its high concentration of citrus and aromatic aldehydes, it acts as a mood enhancer, utilizing the principles of aromachology to evoke feelings of freshness, professional confidence, and mental clarity. In fine perfumery, its structural function is to provide a "vertical" scent profile, where the metallic top notes remain perceptible even as the warmer woody base develops. Additionally, the oil is formulated with high stability and fixative properties, ensuring that the scent does not dissipate quickly upon application. This allows it to function as a reliable "signature" for brands looking to associate their products with a timeless, masculine, and approachable hygiene standard.

Industrial Applications

This fragrance oil is exceptionally versatile, making it a staple across multiple sectors of the personal care and home fragrance industries. In Fine Fragrance, it is most commonly utilized to produce Eaux de Toilette and Aftershaves, where its breezy Mediterranean profile excels. In the Grooming and Hygiene sector, it is a preferred choice for premium deodorants, body washes, and shaving creams, as the "just-showered" aroma reinforces the product's functional promise of cleanliness. Beyond

personal wear, it is highly effective in Home Fragrance applications; its crisp, non-floral nature makes it ideal for reed diffusers and luxury candles designed for modern, minimalist interiors. Furthermore, its chemical stability allows for integration into Laundry Care, such as fabric softeners or linen sprays, providing clothes with a sophisticated, crisp finish. Its broad appeal ensures success in both mass-market consumer goods and niche artisan collections, serving as a flexible foundation for any product line targeting a fresh, energetic demographic.

Our Advantages

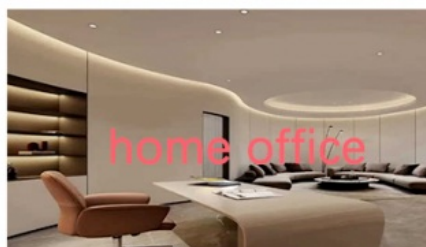

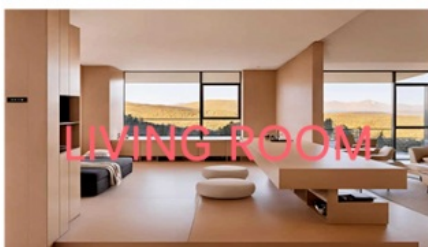

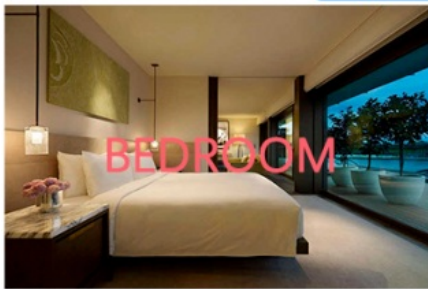

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Our Advantages:
