

Concentrated Amber Midnight Romantic Fragrance Oil for Perfume Making with IFRA Compliance

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10257
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Relative Density: 0.985–1.060 G/cm³ @ 25°C

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	Citrus & Light Florals: You will typically detect Bergamot or Mandarin, which provide a sharp, clean opening. Soft Accents: Some variations include a touch of Lavender or Black Cherry to immediately establish the "romantic" and "nocturnal" theme.
Middle Notes (Heart)	Exotic Florals: The "Romantic" element comes alive here with Night-Blooming Jasmine, Orchid, or Dark Rose. Warm Spices: Subtle hints of Clove or Star Anise are often present to bridge the gap between the floral heart and the heavy base.
Base Notes (Foundation)	Resinous Amber: The star of the show. It provides a thick, golden, and honey-like warmth. Sensual Woods & Musks: A combination of Sandalwood, Patchouli, and Black Musk creates the "Midnight" mystery. Sweet Depth: Vanilla Bean or Tonka Bean is almost always used in the base to give the perfume a creamy, skin-like finish that lasts for hours.

Technical Specifications

Parameter	Specification
Fragrance Notes	Amber Midnight Romantic Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.985–1.060 g/cm ³ @ 25°C
Refractive Index	1.490–1.515
Flash Point	>93.3°C(200°F)
Dosage	Fine Fragrance (EDP/Parfum): 10% – 20% Body Mist / Splash: 1% – 3% Reed Diffusers: 20% – 25% Soap & Bath Products: 2% – 5% (Check IFRA certificate for skin safety) Scented Candles: 6% – 10% (Depending on wax type)
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions

The primary function of this fragrance oil is to serve as a olfactory fixative and emotional enhancer. Because it is highly concentrated and rich in resinous amber, it acts as a structural anchor in perfume blending, preventing more volatile top notes like citrus or light florals from evaporating too quickly. Beyond its chemical stability, its functional "character" is designed for mood modulation; the deep, warm notes of amber and black musk are known in aromatherapy to stimulate the limbic system, promoting feelings of relaxation, confidence, and sensual tranquility. In a formulation, it functions as the "base soul" of the product, providing a consistent, creamy dry-down that interacts with the user's unique skin chemistry to create a personalized scent profile. Additionally, its high flash point and oil-soluble nature ensure it functions reliably across various temperatures, maintaining its aromatic integrity without breaking down during the heating processes of candle or soap production.

Industrial Applications

The versatility of Concentrated Amber Midnight Romantic allows for its application across a broad spectrum of luxury personal care and home ambiance products. Its most prominent application is in fine fragrance manufacturing, where it is diluted into Eau de Parfum (EDP) or concentrated oil rollers to create sophisticated evening scents. In skincare and body care, it is expertly incorporated into body butters, shimmering oils, and high-end lotions, providing a lingering "skin-scent" that lasts for up to 12 hours. The oil's robust sillage also makes it an excellent choice for home scenting applications, including premium soy-wax candles and reed diffusers, where it fills large spaces with a warm, "midnight" atmosphere. Furthermore, it is widely used in artisanal soap making (cold process or melt-and-pour), as its complex notes of vanilla and amber hold up exceptionally

well against the saponification process, resulting in a luxurious, spa-like bathing experience for daily use.

Our Advantages

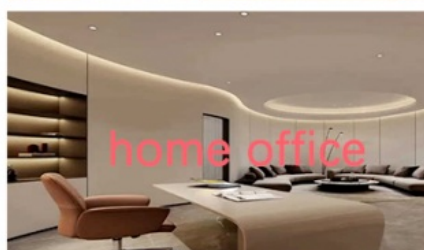

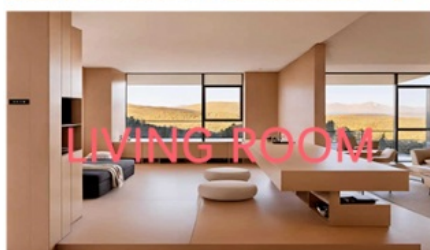

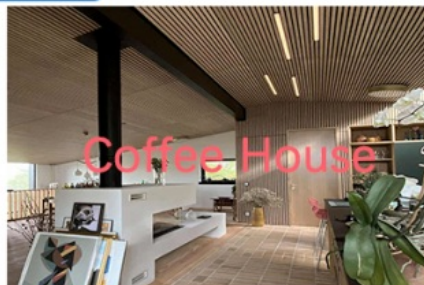

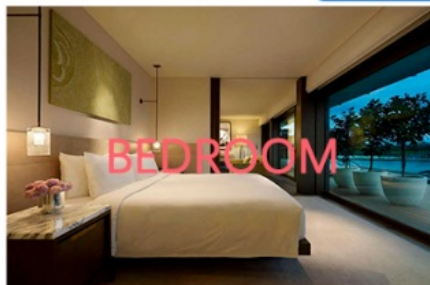

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Our Advantages:

applications

applications

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

Production Time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.
