

## Mugwort Fragrance Oil with IFRA Compliance, 36 Months Shelf Life, and Phthalate-Free for Shampoo and Soap Making

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL20499
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41\*28\*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

### Product Specification

- Relative Density: 0.917 To 0.935 G/cm<sup>3</sup> @ 25°C
- Flash Point: 55°C - 66°C (131°F - 151°F)
- Refractive Index: 1.460 To 1.472 (at 20°C)
- Phthalate-Free: Yes
- Shelf Life: 36 Months
- Solubility: Soluble In Surfactant-based Systems
- Highlight: **Mugwort fragrance oil for shampoo, Phthalate-free soap making oil, IFRA compliant fragrance oil**

## Product Description

### Fragrance For Body Wash Mugwort Fragrance Oil For Shampoo and Shower Gel & Scented Soap Production/ Making- IFRA

Product Code: LDZ-PL20499

#### Product Overview

Premium fragrance essence for shampoo, shower gel, and scented soap manufacturing with IFRA compliance.

Mugwort fragrance oil is a sophisticated, "green" aromatic profile that brings an earthy, therapeutic quality to personal care production. Characterized by a crisp, herbaceous, and slightly camphoraceous scent, it bridges the gap between traditional medicinal remedies and modern luxury spa aesthetics. In shampoos and shower gels, its balsamic undertones provide a refreshing "forest-bathing" experience, effectively masking base odors to create a product that feels naturally invigorating.

For soap making, mugwort oil is highly prized for its excellent scent retention and stability; it resists fading during the curing process and pairs seamlessly with natural additives like green clays or botanical exfoliants. Beyond its physical properties, the fragrance carries a powerful marketing appeal centered on detoxification and spiritual grounding. It is an ideal choice for "apothecary-style" collections, offering a sense of calm and clarity that resonates with consumers seeking holistic wellness. Whether used as a standalone scent or a grounding middle note, Mugwort adds a refined, artisanal edge to any bath and body formulation.

## Fragrance Profile & Characteristics

<b>To p No te s</b>	The initial impression is defined by camphor, sage, and wild mint. These notes provide an immediate "cooling" sensation and a sharp, medicinal freshness that feels intensely cleansing. It is this bright, ozonic opening that makes it particularly effective for revitalizing shampoos and morning shower gels.
<b>Mi dd le No te s</b>	As the fragrance settles, the heart reveals bitter herbs, silver wormwood, and lavender. This stage represents the true character of the plant—earthy, floral-green, and slightly peppery. In soap production, these middle notes provide the "body" of the scent, ensuring the aroma remains robust and sophisticated.
<b>Ba se No te s</b>	The dry-down consists of balsamic resins, damp earth, and moss. These grounding elements provide the longevity required for bar soaps, leaving a subtle, lingering trail of a "forest floor" on the skin long after rinsing.

## Technical Specifications

<b>Product Name</b>	Mugwort Fragrance Oil
<b>Fragrance Profile</b>	Floral-Fruity-Woody aroma
<b>Appearance</b>	Clear, colorless to pale yellow liquid
<b>Relative Density</b>	0.917 to 0.935 g/cm <sup>3</sup> @ 25°C
<b>Flash Point</b>	Approx. 55°C – 66°C (131°F – 151°F)
<b>Refractive Index (RI)</b>	1.460 to 1.472 (at 20°C)
<b>Phthalate-Free</b>	Yes
<b>Shelf Life</b>	36 Months (Store away from light)
<b>IFRA Compliance</b>	Adheres to IFRA standards
<b>Solubility</b>	Soluble in surfactant-based systems

#### Recommended Usage Rates

Application	Usage Rate
Shampoo & Shower Gel	0.5% – 1.5%
Scented Bar Soap (CP/HP)	2.0% – 5.0%
Leave-on Products (Lotions/Balms)	0.1% – 1.0%
Cold Process Soap	3% - 6%
Body Lotion/Cream	0.2% - 1%

## Functions and Applications

### Professional Functions

The primary function of Mugwort fragrance oil is its aromatherapeutic and sensory impact. It acts as a powerful grounding agent, utilizing its herbaceous and camphoraceous notes to promote mental clarity and stress relief during use. Beyond its olfactory appeal, when used as a botanical extract or high-quality essential oil, it serves as a skin-calming and anti-inflammatory agent. It is exceptionally effective at soothing redness and irritation, making it a "reset button" for stressed or sensitive skin. Furthermore, its natural antibacterial and antifungal properties help maintain product integrity and provide a gentle purifying effect on the skin's surface. By balancing sebum production, it also functions as a clarifying agent, ensuring that the skin and scalp remain fresh without being stripped of essential moisture. These multifaceted functions allow it to transform a standard cleaning product into a therapeutic wellness treatment.

### Applications

In industrial and artisanal production, Mugwort is predominantly applied in rinse-off formulations like shampoos, shower gels, and luxury soaps. In hair care, it is incorporated into scalp-stimulating shampoos to improve blood circulation and manage oily roots, resulting in hair that feels light and voluminous. For body washes and shower gels, it is often the hero scent in "spa-at-home" or "detox" lines, where its balsamic undertones provide a refreshing, forest-like experience. In soap making, specifically Cold Process (CP) and melt-and-pour varieties, it is highly valued for its scent stability and ability to pair with natural additives like green clay or charcoal for a rustic, apothecary aesthetic. Beyond cleansers, it is increasingly found in leave-on applications such as facial mists, soothing balms, and lightweight serums targeted at acne-prone or reactive skin. Its cultural association with spiritual cleansing also makes it a popular choice for ritual oils and meditation-focused candles.

## Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.

### Support & Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- OEM support for custom scents

## Our Advantages

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC
