

Tom Ford Fragrance Oil for Perfume Making with Long-lasting High Concentration and Popular Scent

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10426
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Relative Density: 0.940–1.060 G/cm³ @ 25°C
- Refractive Index: 1.480–1.510
- Flash Point: >93°C(200°F)
- Long-lasting Fragrance: 8-12 Hours (paper Strip Test)
- Solubility: Soluble In Ethanol And Oils; Insoluble In Water
- Heat Resistance: Stable At 100°C
- Highlight: **Tom Ford fragrance oil for perfume making , long-lasting high concentration fragrance oil, popular scent perfume oil**

Product Description

Fucking Fabulous (Tom Ford) Fragrance Oil

Fucking Fabulous (Tom Ford) Fragrance For Perfume Making Popular Scent and Long-lasting High Concentration

Product Code: LDZ-PL10426

Tom Ford's Fucking Fabulous is a masterclass in olfactory contrast, functioning as a sophisticated Amber Leather fragrance built on a "neo-powdery" framework. For perfume production, the scent's identity relies on the interplay between medicinal aromatics and indulgent gourmand notes: it opens with a sharp, clean surge of Clary Sage and Lavender, which quickly transitions into a dense, creamy heart dominated by Bitter Almond and a dry, "lipstick-like" Orris accord. The foundation of the composition is a heavy, textural base of Leather and Tonka Bean, enriched by Cashmeran to create a "skin-on-skin" warmth.

Fragrance Profile

Fragrance Notes	Description

Top Notes (Opening)	The Top Notes provide an immediate, clean punch characterized by Clary Sage and Lavender. This opening is medicinal and herbaceous, offering a "barbershop" freshness that prevents the heavier elements from becoming cloying.
Middle Notes (Heart)	The Middle Notes form the fragrance's distinct "gourmand-leather" heart. Here, Bitter Almond provides a nutty, marzipan-like sweetness, while Vanilla and Orris Root add a sophisticated, powdery "lipstick" texture. This layer is reinforced by a modern Leather accord that bridges the gap between the floral and the animalic.
Base Notes (Foundation)	The Base Notes ground the scent with enduring warmth and depth. Tonka Bean is the primary driver, offering a hay-like, spicy sweetness rich in coumarin. This is supported by Cashmeran, Amber, and White Woods, which create a fuzzy, musky "skin" effect that lingers for hours. Together, these layers produce a bold, unisex signature.

Technical Specifications

Parameter	Specification
Fragrance Notes	Fucking Fabulous (Tom Ford) Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.985–1.025 g/cm ³ @ 25°C
Refractive Index	1.480–1.510

Flash Point	>93°C (200°F)
Dosage	Fine Fragrance (EDP/EDT): 10% - 20% Body Lotions & Creams: 1% - 3% Candles (Soy/Paraffin): 6% - 10% Cold Process Soap: 3% - 5% (Note: May cause acceleration) Room Sprays / Diffusers: 5% - 15%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions

In the world of olfaction, the primary function of a Fucking Fabulous type fragrance is to act as a textural bridge between disparate scent families. It serves an aratherapeutic function by balancing the grounding, earthy qualities of leather and wood with the uplifting, medicinal clarity of lavender and clary sage. Technically, the fragrance functions as a high-tenacity composition, meaning its molecular structure is designed for extreme longevity. The heavy inclusion of gourmand elements like tonka bean and bitter almond acts as a fixative, slowing the evaporation of the lighter aromatic top notes. Furthermore, it functions as a unisex archetype, intentionally blurring the lines between traditionally masculine "fougere" (fern-like) freshness and feminine "oriental" (balsamic) sweetness. This versatility makes it an essential tool for creators looking to evoke a sense of modern luxury, confidence, and sophisticated rebellion within a scent profile.

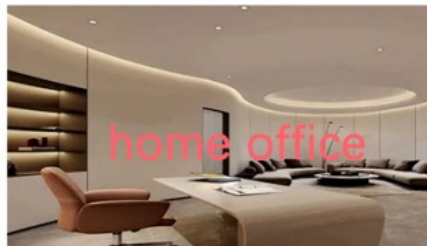

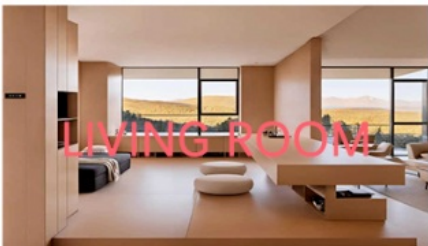

Industrial Applications

The applications for this fragrance profile are extensive due to its chemical stability and high consumer demand. In fine perfumery, it is most commonly formulated as an Eau de Parfum (EDP) at concentrations of 15% to 20%, where its complex layers can unfold over several hours on the skin. Beyond personal fragrance, it is a premier choice for luxury home scenting, particularly in soy or beeswax candles; its high flash point and robust base notes ensure a strong "hot throw" that fills large spaces with a warm, inviting aroma. In the personal care sector, it is frequently used in high-end beard oils, body creams, and solid perfumes because the almond and leather notes complement the natural scents of oils and waxes. Finally, it is increasingly applied in ambient scenting for boutique hotels and high-fashion retail environments, where its bold, "statement" character reinforces a brand's identity of exclusivity and avant-garde style.

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

applications

applications

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

Production Time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.

Where there are fragrance, there are Plant flavor.
