

Concentrated Lan-come Middle Eastern Fragrance Oil for Perfume Making with Long-lasting Scent and Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10435
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Relative Density: 1.0350–1.075 G/cm³ @ 25°C
- Refractive Index: 1.515–1.545
- Flash Point: >100°C(212°F)
- Long-lasting Fragrance: 8-12 Hours (paper Strip Test)
- Solubility: Soluble In Ethanol And Oils; Insoluble In Water
- Heat Resistance: Stable At 100°C With No Noticeable Discoloration Or Odor Change
- Highlight: **Lancome Middle Eastern fragrance oil, long-lasting perfume making oil, concentrated fragrance oil with free sample**

Concentrated Lan-come (Middle East) Fragrance Oil For Perfume Making - Long-lasting Free Sample

Product Code: LDZ-PL10435

The Lan-come (Middle East) Fragrance Oil, specifically modeled after the prestigious Maison Lan-come and Oud Bouquet lineage, is a concentrated masterpiece of Amber Woody perfumery. Designed to meet the high-performance standards of the Arabian market, this essence is a rich, balsamic symphony that centers on the "Golden Trio" of Middle Eastern perfumery: Oud (Agarwood), Centifolia Rose, and Saffron.

In production, this oil is characterized by its immense "tenacity" and "projection," utilizing a dense molecular structure where the dark, leathery facets of smoky Oud are softened by a luxurious, jammy rose. A signature "Grand Cru" gourmand touch—often featuring Praline, Vanilla, and Guaiac Wood—provides a caramelized warmth that rounds out the sharp edges of the wood.

For perfume manufacturers, this essence is a high-gravity oil that offers exceptional stability in ethanol and oil-based attars alike. It functions as a bold, "statement" fragrance, delivering a multi-dimensional sillage that transitions from spicy, saffron-tinged top notes to a velvety, resinous dry-down. Its composition is optimized for longevity, ensuring that even at lower concentrations, the fragrance maintains its opulent, royal character throughout the day.

Fragrance Profile

Fragrance Notes	Description
Top Notes (Opening)	The Top Notes open with a sharp, precious surge of Saffron and Cypriol (Nagarmotha). This creates an immediate "leather and spice" impression that is both earthy and metallic. Unlike Western fragrances that lead with citrus, this Middle Eastern profile uses spices to provide a dry, intense prologue that commands attention from the first spray.
Middle Notes (Heart)	The Middle Notes reveal a "jammy" and opulent heart centered on Damask Rose. This isn't a fresh garden rose, but a honeyed, concentrated absolute. It is paired with a Praline accord, adding a nutty, caramelized sweetness that softens the intensity of the spices and bridges the gap to the woods.
Base Notes (Foundation)	The Base Notes are the foundation of its legendary longevity, dominated by Oud (Agarwood) and Guaiac Wood. These smoky, resinous notes are wrapped in Vanilla and Copahu Balm, providing a velvety, balsamic finish that clings to the skin for over 24 hours.

Technical Specifications

Parameter	Specification
Fragrance Notes	Lan-come (Middle East) Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	1.0350–1.075 g/cm ³ @ 25°C
Refractive Index	1.515–1.545
Flash Point	>100°C(212°F)
Dosage	Eau de Parfum (EDP): 20% - 30% Eau de Toilette (EDT): 15% - 20% Luxury Body Creams / Butters: 2% - 5% Bakhoor & Incense: 10% - 20% Scented Candles (Soy/Paraffin): 8% - 10% Room Sprays (Premium): 5% - 10%

Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions

The primary function of the Lan-come (Middle East) fragrance oil is to serve as an olfactive anchor with extreme tenacity. Chemically, it acts as a natural fixative; the heavy molecular weight of Agarwood (Oud) and various balsams slows the evaporation of more volatile components, ensuring the scent remains "linear"—meaning the fragrance maintains its core identity from the first hour to the twelfth.

It functions as a textural volumizer, using a combination of "jammy" rose and praline to create a dense, opaque sillage that can cut through high heat and humidity, a requirement for the Arabian climate. Furthermore, it serves a prestige-enhancing function, providing a "Grand Cru" signature that instantly elevates any base into the luxury category. By balancing smoky, animalic facets with gourmand sweetness, it functions as a sophisticated bridge between traditional Eastern attars and modern Western French perfumery, offering a balanced, high-performance unisex profile.

Industrial Applications

The applications for this concentrated oil are focused on high-end, high-performance sectors. In fine fragrance production, it is the gold standard for creating Extrait de Parfum and CPO (Concentrated Perfume Oils), where its high resin content allows for alcohol-free formulations that are applied directly to pulse points.

In the traditional incense market, its high flash point makes it an ideal choice for Bakhoor and Muattar production, as the oil can withstand the high temperatures of charcoal or electric burners without losing its floral integrity. In the luxury personal care segment, it is frequently used in "hair bakhours" and dense body oud-creams, where the scent needs to cling to fibers and skin for extended periods.

Additionally, it is a preferred essence for corporate ambient scenting in luxury hotels and private aviation lounges across the Middle East, as its robust base provides a sense of hospitality, opulence, and cultural heritage that fills large, open spaces effectively.

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

applications

BEDROOM

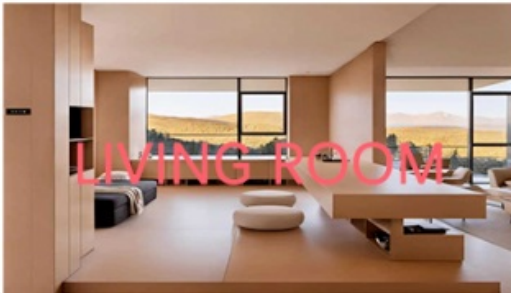

Coffee House

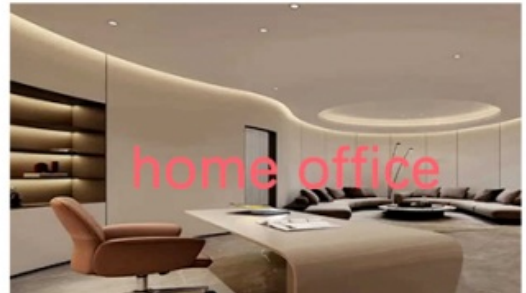

library/study

BATHROOM

LIVING ROOM

home office

applications

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

Production Time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.

Where there are fragrance, there are Plant flavor.
