

## Black Oud Fragrance Oil for Perfume Making with Long-lasting High Concentration and Middle Eastern Scent

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10437
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41\*28\*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

### Product Specification

- Relative Density: 0.945–0.990 G/cm<sup>3</sup> @ 25°C
- Refractive Index: 1.490–1.525
- Flash Point: >100°C (212°F)
- Long-lasting Fragrance: 8-12 Hours (paper Strip Test)
- Solubility: Soluble In Ethanol And Oils; Insoluble In Water
- Heat Resistance: Stable At 100°C With No Noticeable Discoloration Or Odor Change
- Highlight: **Black Oud fragrance oil, long-lasting perfume oil, Middle Eastern scent oil**

## Product Description

# Fragrance Oil Black Oud(Middle Eastern) Fragrance For Perfume Making with Long-lasting High Concentration and Popular Scent

Product Code: LDZ-PL10437

Black Oud (Middle Eastern) is an opulent and enigmatic masterpiece of oriental perfumery, embodying the centuries-old tradition of luxury and spiritual depth found within Arabian fragrance heritage. This fragrance oil is defined by its intense, resinous core of Agarwood, often referred to as "liquid gold," which provides a dark, woody complexity that is both primal and sophisticated. The experience begins with a commanding overture of spicy saffron and aromatic clove, offering a sharp, exotic prelude that immediately signals prestige. This sharpness soon softens into a heart of velvet-thick Damask rose, creating a classic "Oud-Rose" duality that balances floral elegance with the raw, animalic power of the oud. As it matures on the skin, the scent descends into a deep, balsamic foundation of earthy patchouli, warm sandalwood, and heavy musk, ensuring an atmospheric dry-down that lingers for an extraordinary duration. For the perfume producer, Black Oud serves as a formidable base-note powerhouse, providing unmatched sillage and a structural richness that defines the high-end unisex market. It is more than just a scent; it is a dense, olfactory tapestry that evokes the smoke of burning resins and the silent grandeur of a desert night, making it an essential tool for creating perfumes that demand presence and command respect.

## Fragrance Profile

Fragrance Notes	Description
Top Notes (Opening)	It opens with Top Notes of exotic saffron, spicy cardamom, and a touch of labdanum, creating a bold, leather-like introduction that is characteristic of traditional Arabian scents.
Middle Notes (Heart)	This sharp opening swiftly transitions into the Middle Notes, where a lush, jammy Damask rose meets the smoky, animalic depth of premium agarwood (oud). This heart represents the classic "oriental" core, balancing sweetness with a woody, slightly medicinal complexity.
Base Notes (Foundation)	Finally, the Base Notes provide a heavy, long-lasting foundation of earthy patchouli, creamy sandalwood, amber, and dark musk. These base elements act as a powerful fixative, ensuring the fragrance maintains its opulent, balsamic warmth for hours. The result is a multi-layered, unisex profile that feels regal, mysterious, and deeply rooted in the olfactory traditions of the Middle East.

## Technical Specifications

Parameter	Specification
Fragrance Notes	Black Oud(Middle Eastern) Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.945–0.990 g/cm <sup>3</sup> @ 25°C
Refractive Index	1.490–1.525
Flash Point	>100°C (212°F)
Dosage	Eau de Parfum (EdP):12% – 18% Eau de Toilette (EdT):5% – 10% Attar / Oil-based Perfume:10% – 25% (in carrier oil) Bakhoor / Incense Making:15% – 20% Luxury Candles:6% – 10%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

## Applications & Functions

The primary function of Black Oud (Middle Eastern) is to act as a fixative powerhouse within a fragrance composition. Due to its high molecular

weight and resinous nature, it significantly lowers the evaporation rate of the entire perfume, effectively "anchoring" more volatile notes to the skin for extended wear. Beyond its structural utility, it functions as a complexity enhancer, adding a sophisticated, animalic, and woody depth that cannot be achieved with lighter synthetic bases. In Middle Eastern perfumery traditions, it also serves a cultural and spiritual function, evoking a sense of heritage and opulence. Technically, its high refractive index and density allow it to blend seamlessly with other balsams and resins, creating a "linear" scent profile where the dark, smoky characteristics remain consistent from the initial spray through to the deep dry-down. It essentially provides the "spine" for oriental fragrances, ensuring they possess the necessary gravity and presence to meet luxury market expectations.

## Industrial Applications

The applications for Black Oud are centered around the high-end luxury and niche markets, particularly in the creation of Extraits de Parfum and concentrated perfume oils (Attars). Because of its remarkable potency and heat stability, it is an industry favorite for Luxury Home Fragrancing, specifically in the production of high-end scented candles and traditional Bakhoor (incense chips), where it releases a rich, meditative smoke. In the Personal Care sector, it is frequently used to scent premium beard balms, hair mists, and "oud-infused" body creams, providing a gender-neutral, sophisticated aroma that appeals to a global audience. Furthermore, it is a critical component in Layering Collections, where it is marketed as a base scent to be worn under lighter floral or citrus perfumes to add "darkness" and longevity. Whether used in fine alcohol-based sprays or traditional oil-based roll-ons, its application is synonymous with prestige, making it a staple for brands aiming to project an image of mystery and timeless elegance.

## Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

### applications

BEDROOM

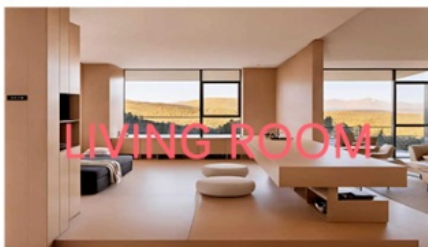

Coffee House

home office

# applications

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

## Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

**Production Time:** 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.
