

## Long-lasting High Concentration Middle Eastern Scent Fragrance Oil for Perfume Making

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10439
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41\*28\*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

### Product Specification

- Relative Density: 0.960–1.050 G/cm<sup>3</sup> @ 25°C
- Refractive Index: 1.495–1.535
- Flash Point: >100°C (200°F)
- Dosage: Attar / Concentrated Perfume Oil:25%-50% (In Carrier Oil)
- Long-lasting Fragrance: 8-12 Hours (paper Strip Test)
- Heat Resistance: Stable At 100°C With No Noticeable Discoloration Or Odor Change
- Highlight: **Middle Eastern fragrance oil for perfume, high concentration perfume making oil, long-lasting scent oil for perfumes**

## Fragrance Oil Queen's Jewel (Middle East)

A masterwork of olfactory storytelling, weaving a narrative of desert opulence and royal heritage into a single, concentrated liquid. This fragrance captures the very soul of Arabian perfumery, where scent is not merely an accessory but a profound statement of status and identity.

**Product Code: LDZ-PL10439**

At its core, the fragrance radiates a "jeweled" brilliance, balancing the sharp, golden warmth of saffron and precious spices against a heart of velvety Taif rose. This intricate floral core is anchored by a deep, dark foundation of agarwood (Oud) and amber resins, creating a scent profile that is as enduring as it is evocative.

Designed specifically for professional production, this essence excels in its structural density and sillage. It is engineered to perform exceptionally well in high-heat environments, ensuring that the fragrance blooms with intensity as the skin warms.

## Fragrance Profile

Fragrance Notes	Description
Top Notes (Opening)	The scent begins with a "jeweled" brightness featuring a luxurious blend of Saffron and Cardamom, often brightened by Bergamot or Pink Pepper. This opening is spicy and slightly metallic, providing immediate sophisticated appeal.
Middle Notes (Heart)	As the spices mellow, a dense floral heart emerges dominated by Taif Rose and Jasmine Sambac, layered with Geranium. This provides a velvety, nectar-like sweetness that bridges the spice and dark base.
Base Notes (Foundation)	The dry-down is anchored by Precious Oud (Agarwood), Dark Amber, and Sandalwood. Touches of Frankincense and Sensual Musk ensure a finish that is smoky, resinous, and nearly eternal on the skin.

## Technical Specifications

Parameter	Specification
Fragrance Notes	Queen's Jewel (Middle East) Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.960–1.050 g/cm <sup>3</sup> @ 25°C
Refractive Index	1.495–1.535
Flash Point	>100°C (200°F)
Dosage	Attar / Concentrated Perfume Oil: 25%-50% Extraits de Parfum: 25%-35% Eau de Parfum (EDP): 15%-20% Luxury Bakhoor / Incense: 10%-20% Scented Body Creams: 1%-3%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water

IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

## Applications & Functions

The Queen's Jewel (Middle East) essence oil serves as a critical structural and aesthetic component in high-end perfumery, acting as a powerhouse fixative. Its resin-based profile functions as a "chemical anchor" that binds to lighter top notes and prevents rapid evaporation in warm climates.

This results in a controlled, slow-release fragrance that remains vibrant for 12 to 18 hours. The oil also functions as a richness enhancer, adding three-dimensional depth and providing a velvety "roundness" that smooths out sharp edges in formulations.

## Industrial Applications

Primary applications include:

**Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils

**Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

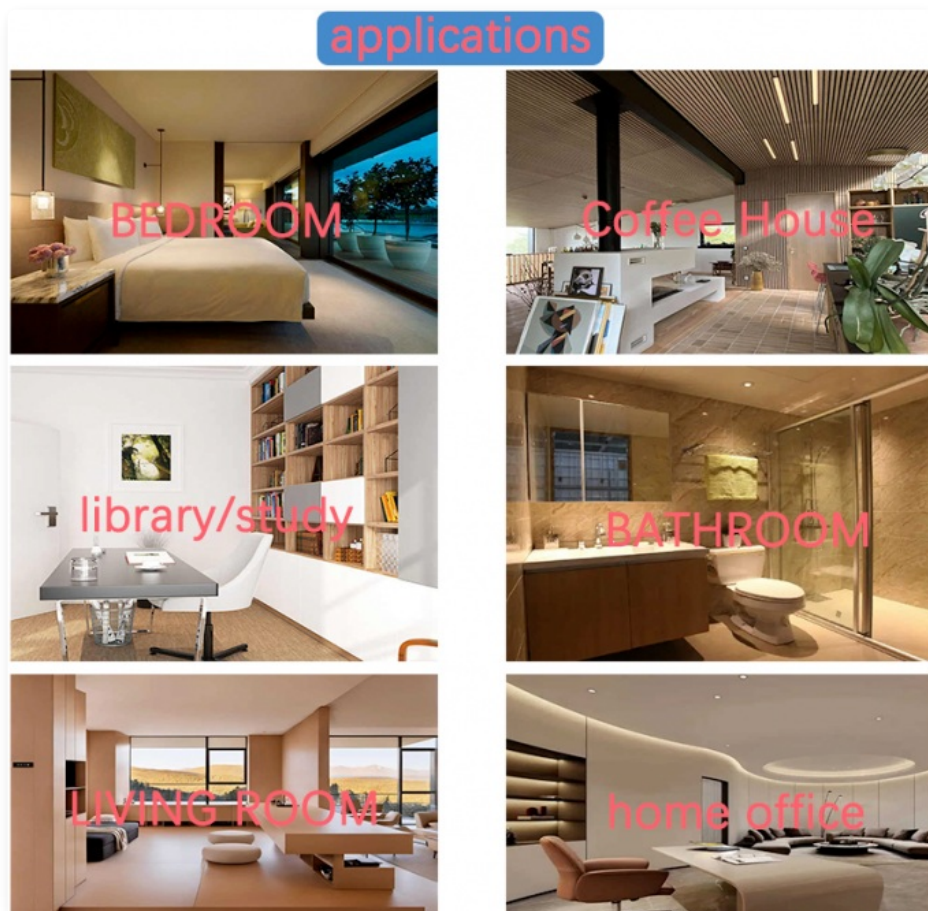

**Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production

**Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques

**Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

## Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

# applications

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

## Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

**Production Time:** 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.

Where there are fragrance, there are Plant flavor.
