Body Wash Fragrance Pomelo Blossom Fragrance Oil For Shampoo and Shower Gel & Scented Soap Production/ Making- IFRA

Product Code: LDZ-PL20368

Product Overview

The Pomelo Blossom Fragrance Oil is a sophisticated, dual-action aromatic essence designed to capture the delicate intersection of zesty citrus groves and soft, honeyed floral blooms. This fragrance oil is specifically engineered for the high-performance demands of the personal care industry, offering a profile that is simultaneously energizing and soothing. It opens with the tart, sparkling zest of sun-ripened pomelo fruit—a scent known for its "bright" and "clean" qualities—which seamlessly transitions into the ethereal, slightly green nectar of citrus blossoms. This unique combination makes it an ideal choice for shampoo and shower gel production, where consumers increasingly look for "botanical-fusion" scents that feel both modern and naturally derived.

Technically, the oil is formulated with a high-tenacity molecular structure that ensures the fragrance "blooms" intensely when it encounters the warmth and steam of a shower. Unlike many citrus-heavy oils that tend to evaporate quickly, this essence is stabilized with soft floral fixatives to ensure a lingering, "just-washed" freshness on the skin and hair. For scented soap production, it offers excellent performance, characterized by its resistance to high temperatures and its ability to maintain clarity in transparent glycerin bases. Its non-discoloring properties and compatibility with various surfactant systems make it a versatile and reliable choice for manufacturers aiming to create a premium, revitalizing bathing experience that feels like a spring morning in a Mediterranean orchard.

Fragrance Profile & Characteristics

Top Notes

The fragrance leads with a powerful burst of Sparkling Pomelo, Grapefruit Zest, and a hint of Green Rhubarb. These notes provide a tart, mouth-watering acidity that immediately signals "freshness" and "vitality," making it the perfect choice for morning shower routines.

Middle Notes	As the initial zest settles, the "blossom" emerges. This heart is composed of Pomelo Flowers, Orange Blossom, and a touch of Lily of the Valley. These notes add a soft, honeyed sweetness and a "dewy" floral texture that rounds out the citrus sharpness.
Base Notes	The dry-down is sophisticated and airy, featuring White Musk, Blonde Woods, and a whisper of Vetiver. This foundation ensures the citrus elements don't simply vanish, providing a clean, "line-dried linen" finish that clings subtly to the skin and hair.

Technical Specifications

Product Name	Pomelo Blossom Fragrance Oil
---------------------	------------------------------

Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.890 to 0.940 g/cm ³ @ 25°C
Flash Point	>85°C(185°F)
Refractive Index (RI)	1.470 to 1.510 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage Rates

Application	Usage Rate
Revitalizing Body Wash	1.5% - 3.5%
Daily Clarifying Shampoo	0.8% - 2.0%
Liquid Hand Soap	0.5% - 1.5%
Glycerin (M&P) Soap	2% - 3%
Cold Process Soap	4% - 6%

Functions and Applications

Professional Functions

The primary function of Pomelo Blossom Fragrance Oil is to act as a sensory energizer within the personal care routine. Due to its high concentration of citrus-derived aromatic molecules, it serves an "aromatherapeutic" purpose, using scent to trigger a sense of alertness and psychological refreshment. In a functional chemical capacity, this oil is a clarity-stable aromatic; it is specifically refined to remain transparent in aqueous solutions, making it ideal for high-end, "crystal-clear" shower gels. It also functions as a surfactant-compatible booster, meaning it is designed to work in tandem with cleansing agents to project the scent more effectively through the foam than standard perfume oils.

Additionally, it serves a vital masking function, neutralizing the base odors of raw chemical ingredients like proteins or fatty acids commonly found in professional-grade shampoos. By balancing volatile citrus top notes with stable floral fixatives, it ensures the fragrance doesn't "flatline" once bottled, maintaining a consistent, bright olfactory profile from the first use to the last drop.

Applications

The applications for Pomelo Blossom are predominantly found in the "Fresh & Daily" Personal Care category. Its most popular application is in Clarifying Shampoos and Scalp Treatments, where the zesty pomelo notes reinforce the consumer's perception of a "deep clean" and leave the hair smelling light and citrus-fresh. In the Shower and Bath sector, it is a premier choice for "Morning Wake-up" body washes and exfoliating scrubs, where the steam helps the blossom notes "pop" for a spa-like experience.

Furthermore, this essence is widely used in the production of Luxury Guest Soaps and Hand Washes. Its non-cloying, unisex profile makes it a safe yet sophisticated choice for hotel amenities and high-traffic public spaces. It also finds significant use in Scented Wet Wipes and Refreshing Towelettes, where the "clean" citrus-floral scent is a global standard for hygiene. For artisanal makers, it is a staple for Spring-Summer Seasonal Collections, performing exceptionally well in both melt-and-pour and liquid soap bases without causing the cloudiness or separation often associated with pure citrus essential oils.

Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.
