

## Body Wash Fragrance Sage Fragrance Oil For Shampoo and Soap Making/Production - Phthalate-Free, High-Surfactant Stability

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL20386
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41\*28\*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

### Product Specification

- Shelflife: 12-24 Months
- Storage: Cool Dry Place
- Safety: Non-toxic, Follow MSDS Guidelines
- Scent: Floral
- Type: Fragrance Oil
- Solubility: Soluble In Shampoo Base
- Certifications: Cruelty-free, Paraben-free
- Country Of Origin: Varies By Manufacturer
- Moisturizing: Yes
- From: Liquid Concentrate Oil
- Volume: 1000ml,5000ml
- Natural Ingredients: Yes
- Packaging Type: Bottle

## Body Wash Fragrance Sage Fragrance Oil For Shampoo and Soap Making/Production - Phthalate-Free, High-Surfactant Stability

Product Code: LDZ-PL20386

The primary feature of Sage Fragrance Oil is its remarkable ability to transform everyday hygiene into a grounding, therapeutic ritual through its sophisticated herbaceous profile. Unlike synthetic scents that can feel one-dimensional, this oil captures the true essence of wild sage—offering a crisp, savory top note anchored by earthy, balsamic undertones. It is specifically engineered for the rigorous demands of soap and shampoo production, ensuring that the scent remains vibrant even after the chemical heat of saponification or the dilution of a surfactant base.

Beyond its aromatic appeal, this fragrance oil is celebrated for its functional stability and versatility. In cold-process soap making, it is formulated to behave predictably, resisting common issues like "acceleration" or "discoloration" that can ruin intricate designs. In body washes and shampoos, its high tenacity allows the fragrance to cling gently to the skin and hair, providing a long-lasting sense of "botanical freshness" without being cloying. This makes it an indispensable asset for producers aiming to tap into the wellness market, as the scent of sage is universally associated with purification, clarity, and a premium, spa-like atmosphere that appeals to all genders.

### Fragrance Profile & Characteristics

<b>Top Notes</b>	Its profile begins with Top Notes of invigorating wild sage, crushed mint, and a hint of zesty bergamot. These initial notes provide an immediate burst of herbal clarity that awakens the senses during use.
<b>Middle Notes</b>	As the fragrance develops, the Middle Notes reveal a complex heart of rosemary, lavender, and white floral accents. This herbaceous core provides the "spa-like" body of the scent, ensuring the aroma remains lush and sophisticated rather than purely medicinal.
<b>Base Notes</b>	Finally, the Base Notes anchor the fragrance with earthy musk, sandalwood, and a touch of cedarwood.

## Technical Specifications

Product Name	Sage Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.930 to 0.960 g/cm <sup>3</sup> @ 25°C
Flash Point	Approx. 55°C - 66°C (131°F - 151°F)
Refractive Index (RI)	1.450 to 1.490 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

## Recommended Usage Rates

Application	Usage Rate
Cold Process Soap	3% - 5%
Melt & Pour Soap	2% - 3%
Shampoo & Body Wash	1% - 2%
Body Lotion & Creams	0.5% - 1.5%
Soy & Paraffin Candles	6% - 10%

## Functions and Applications

### Professional Functions:

The primary function of Sage Fragrance Oil extends far beyond simple scenting; it serves as a powerful sensory anchor designed to enhance the psychological and physical experience of personal care. In a functional sense, it acts as a "masking agent" that neutralizes the often unpleasant, raw chemical odors of soap bases and surfactant blends, replacing them with a crisp, botanical freshness. Its chemical composition is engineered for aromatic tenacity, ensuring that the scent survives the harsh alkaline environment of soap making (saponification) without breaking down or morphing into an off-note.

Furthermore, this fragrance oil plays a pivotal role in aromatherapeutic branding. In modern skincare, the scent of sage functions as a signal for "purification" and "clarity." When used in hot showers or baths, the steam carries the herbaceous notes to create a calming, spa-like atmosphere that helps reduce stress and sharpen mental focus. For the manufacturer, its function is also technical: it provides a stable, oil-soluble medium that disperses evenly throughout a formula, ensuring consistent scent distribution from the first use to the last.

### Applications:

Sage Fragrance Oil is a versatile powerhouse with wide-ranging applications across the cosmetic and home fragrance industries. Its most prominent application is in Rinse-Off Products, such as artisan cold-process soaps, luxury body washes, and clarifying shampoos. In these formulations, it is prized for its ability to leave a subtle, clean trail on the skin and hair long after the product has been rinsed away. Because it pairs exceptionally well with other essential oils like Lemon, Rosemary, or Cedarwood, it is frequently used as a "heart note" in complex, custom-blended signature scents for boutique hotel amenities.

Beyond the bathroom, this oil finds extensive use in Leave-On Applications and home ambiance. It is an excellent choice for revitalizing body lotions and hand creams where a "green" or "earthy" profile is desired. In the realm of Home Fragrance, its high flash point makes it ideal for soy wax candles, reed diffusers, and room sprays. It is particularly popular in "wellness collections" aimed at ■■ (home) clearing or meditation spaces, providing a sophisticated alternative to traditional floral or sweet scents. Whether in a high-end shampoo or a premium candle, this oil delivers a consistent, professional-grade olfactory result.

## Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.

**Packaging & Logistics**
