## Product Description

### Rose and Jasmine Fragrance Oil For Shower gel & Soap Making/Productions -Body Wash Fragrance- Phthalate-Free, 36 Months Shelf Life, High-Surfactant Stability

Product Code: LDZ-PL20387

The standout feature of Rose and Jasmine Fragrance Oil is its ability to create a "timeless romanticism" through a masterfully balanced floral synergy. While individual rose or jasmine scents can sometimes feel singular or overwhelming, this blend harmonizes the deep, velvety richness of Damask rose with the luminous, slightly exotic sweetness of night-blooming jasmine. This combination is specifically engineered for high-performance use in shower gels and soaps, ensuring the aroma doesn't just sit on the surface but unfolds beautifully during a warm bath or shower.

In production, this oil is prized for its olfactory tenacity—the ability to maintain its sophisticated profile through the chemical heat of soap making without losing its delicate top notes. The result is a luxurious, "bridal-quality" lather that provides a spa-like experience. Beyond its scent, the fragrance functions as a powerful mood-elevator; the rose brings a sense of comfort and elegance, while the jasmine adds a seductive, uplifting energy. For manufacturers, this oil is a "staple" luxury ingredient, offering a gender-neutral appeal that feels both vintage and modern, making it ideal for premium botanical collections aimed at skin rejuvenation and emotional wellness.

## Fragrance Profile & Characteristics

|                                   |  |
|-----------------------------------|--|
| <b>To<br/>p<br/>Not<br/>es</b>    | The profile opens with vibrant Top Notes of sparkling aldehydes, green leaf, and a touch of dewy citrus. These notes provide an immediate, "airy" freshness that prevents the floral heart from feeling heavy or dated upon the first sniff.   |
| <b>Mid<br/>dle<br/>Not<br/>es</b> | As the fragrance settles, the Middle Notes—the true soul of the blend—emerge as a lush bouquet of velvet red rose petals and intoxicating white jasmine. This heart is creamy, romantic, and deeply feminine, striking a perfect balance between the rose's classic elegance and the jasmine's exotic, honey-like sweetness. |
| <b>Bas<br/>e<br/>Not<br/>es</b>   | Finally, the Base Notes provide a smooth, lasting foundation of soft white musk, amber, and a whisper of light wood. This grounding base ensures excellent scent throw and longevity, allowing the delicate floral notes to cling beautifully to the skin long after showering.  |

## Technical Specifications

|                       |   |
|-----------------------|---|
| Product Name          | Rose and Jasmine Fragrance Oil          |
| Fragrance Profile     | Floral-Fruity-Woody aroma               |
| Appearance            | Clear, colorless to pale yellow liquid  |
| Relative Density      | 0.945 to 0.985 g/cm <sup>3</sup> @ 25°C |
| Flash Point           | Approx. 55°C - 66°C (131°F - 151°F)     |
| Refractive Index (RI) | 1.485 to 1.515 (at 20°C)                |
| Phthalate-Free        | Yes                                     |

|                 |                                     |
|-----------------|-------------------------------------|
| Shelf Life      | 36 Months (Store away from light)   |
| IFRA Compliance | Adheres to IFRA standards           |
| Solubility      | Soluble in surfactant-based systems |

## Recommended Usage Rates

| Application              | Usage Rate  |
|--------------------------|-------------|
| Shower Gel & Liquid Soap | 1% - 2.5%   |
| Cold Process Soap        | 3% - 6%     |
| Melt & Pour Soap         | 2% - 3%     |
| Body Lotions             | 0.5% - 1.5% |
| Reed Diffusers           | 15% - 25%   |

## Functions and Applications

**Professional Functions:** The primary function is to provide high-impact aromatic bloom within surfactant-based systems. Engineered for hydro-diffusion, the fragrance releases rapidly into steam during use, creating a sensory halo that enhances perception of cleanliness and luxury. The oil functions as a viscosity-stable aromatic and sensory emollient, leaving a microscopic fragrant film on hair and skin. It also serves as a color-stable solution, ensuring products remain visually pristine.

**Applications:** Centered on Rinse-Off Personal Care sector including Premium Body Washes, Shower Gels, Hair Care products, Bubble Baths, and Bath Bombs. Exceptionally versatile in Artisan and Industrial Soap Making, performing well in Cold Process Soap and extending to Liquid Hand Soaps and Sanitizing Gels.

## Packaging Options

| Pack Type      | QTY  | Specification                             | Volume   |
|----------------|------|---|----------|
| Plastic Bottle | 5kgs | L41*W28*H33.5cm (5kg*4 bottle per carton) | 0.038cbm |

|              |          |                   |          |
|--------------|----------|-------------------|----------|
| Metal Barrel | 25kgs    | D30*H45cm         | 0.032cbm |
| Jerry Can    | 20-25kgs | L29.5*D29.5*H41cm | 0.33cbm  |

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.
