## Product Description

# IFRA Compliant Long-Lasting Four Seasons Hotel Fragrance Oil for Diffusers and Candles - Essential Oil

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Code: LDZ-PL30396

### Product Overview:

The Four Seasons Hotel inspired fragrance oil is a sophisticated, IFRA-compliant masterpiece designed to replicate the signature ambiance of ultra-luxury hospitality within professional diffuser and candle applications. This complex olfactory blend opens with an airy, ethereal freshness that immediately transforms a space into a sanctuary of refined elegance. Characterized by a harmonious balance of crisp white tea, delicate floral heart notes, and a foundational warmth of precious woods and light musk, the scent avoids the sharpness of traditional aromatics in favor of a smooth, "velvet-like" diffusion. Engineered for maximum tenacity, the oil features a high-performance molecular structure that ensures a consistent scent throw across all four seasons, remaining crisp in high humidity and warm during colder months. In candle production, it demonstrates superior wax compatibility and "hot throw" efficiency, while its low viscosity makes it ideal for cold-air nebulizing diffusers, preventing clog formation and ensuring fine particle misting. This fragrance is not merely a scent but a branding tool, evoking a sense of timelessness, exclusivity, and impeccable cleanliness. It provides a prestige sensory layer that enhances the perceived value of any environment or product line, adhering to the strictest safety standards for continuous residential or commercial inhalation.

Fragrance Profile & Characteristics

Fragrance Notes	Description
Top Notes	The fragrance introduces itself with an ethereal blend of white tea and zesty bergamot, accented by a touch of ozone. This creates an immediate "open-air" freshness that mimics the airy, welcoming lobby of a high-end resort, providing a crisp and inviting first impression.
Middle Notes	The heart transitions into a delicate floral-herbal accord of jasmine, thyme, and soft lavender. These notes provide the fragrance with its sophisticated body, offering a calming, spa-like serenity that balances the initial citrus brightness with a refined, botanical elegance.
Base Notes	The foundation is anchored by warm cedarwood, sheer musk, and a hint of amber. These rich, low-volatility molecules ensure a long-lasting dry-down, providing the "velvet" texture and lingering warmth that define a premium, luxury environment.

## Technical Specifications

Parameter	Specification
Product Name	Four Seasons Hotel Fragrance Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.935–0.965 g/cm <sup>3</sup> @ 25°C
Refractive Index	1.450–1.485 @ 20°C
Flash Point	93.3°C (200°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Soy/Paraffin Candles:8%-12% Reed Diffusers:15%-25% Cold-Air Diffusers:100%
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

## Functions & Applications

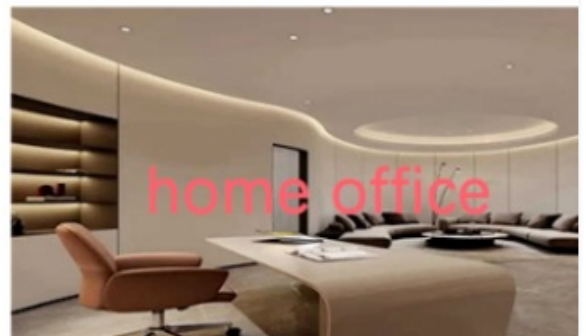

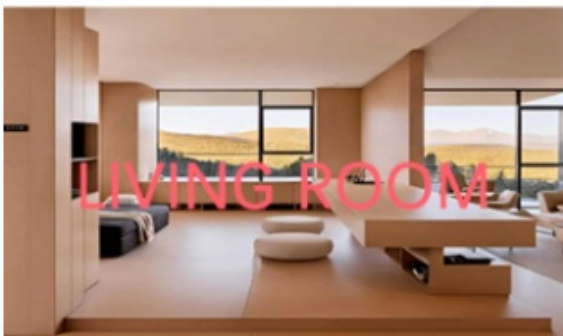

Four Seasons Hotel fragrance oil is designed to recreate the refined, signature ambiance associated with luxury hospitality environments. Its primary function is to deliver a consistent, long-lasting scent that evokes comfort, elegance, and relaxation. In diffuser use, it disperses evenly into the air, helping to neutralize unwanted odors while creating a welcoming atmosphere. The fragrance often combines fresh, floral, woody, and subtle citrus notes, which can enhance mood, reduce stress, and improve the overall sensory experience of a space. In candle making, the oil provides excellent scent throw, both hot and cold, ensuring that the fragrance remains noticeable whether the candle is lit or not. It is typically formulated to be stable under heat, allowing it to blend well with waxes such as soy, paraffin, or coconut. Overall, its function is to elevate environments through scent branding, emotional engagement, and a premium olfactory identity.

## Primary Applications

**Four Seasons Hotel fragrance oil is widely used across both personal and commercial settings where a luxurious scent profile is**

desired. In home environments, it is commonly applied in reed diffusers, ultrasonic diffusers, and scented candles to create a spa-like or hotel-inspired atmosphere in living rooms, bedrooms, and bathrooms. For businesses, it is ideal for scent branding in hotels, retail stores, spas, and offices, helping to establish a consistent and memorable customer experience. Candle makers use this oil in various wax types to produce high-end scented candles for retail or gifting purposes. It can also be incorporated into DIY products such as wax melts, room sprays, and sachets. Additionally, it is suitable for use in HVAC scenting systems for larger spaces, ensuring uniform fragrance distribution. Overall, its applications focus on enhancing ambiance, reinforcing brand identity, and delivering a premium sensory experience across diverse environments.

## applications

## Our Advantages

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

### Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

### Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging and Shipping

### Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

### Shipping Information

Production time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photos or samples for confirmation before shipping. Shipping options include ship, air, truck, and express delivery.
