

High Concentration Invictus Legends (Paco) Oil Fragrance For Perfume Making/Production With Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10488
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Description

High Concentration Invictus Legends (Paco) Oil Fragrance For Perfume Making/Production With Free Sample

Product Code: LDZ-PL10488

The Invictus Legend high-concentration fragrance oil is a powerful, "beast-mode" aromatic composition designed for professional perfume production. Engineered to capture the spirit of victory and adrenaline, this essence is characterized by its remarkable marine-woody contrast and exceptional substantivity. As a high-concentration oil, it provides a robust foundation for Eau de Parfum or Extrait de Parfum formulations, ensuring a scent trail that remains potent and identifiable even hours after the initial application. The olfactory journey is defined by a bold duality of burning heat and refreshing cool. It opens with a distinctive, salty splash—evoking the intensity of a crashing wave—balanced by the zesty bitterness of grapefruit. This high-impact opening transitions into a sophisticated, aromatic heart of bay leaf and geranium, which lends the fragrance its "legendary," herbaceous character. The structural strength of the essence lies in its dense base of red amber, guaiac wood, and a unique touch of honey, providing a warm, resinous dry-down that simulates sun-scorched skin. For manufacturers, this oil offers a high flash point and superior blending stability, making it a versatile choice for luxury sprays, long-lasting body oils, and high-performance grooming products that demand a modern, masculine, and invincible aura.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The fragrance makes a dramatic entrance with a sharp, refreshing burst of sea notes, sea salt, and vibrant grapefruit. This combination creates an immediate "metallic" freshness and a salty, ozonic clarity that simulates the spray of the ocean.

Middle Notes (Heart)	The heart transitions into an aromatic, herbaceous core featuring bay leaf, geranium, and a blend of warm spices. These notes provide the "legendary" green depth and a slightly floral yet rugged texture that defines the scent's masculine character.
Base Notes (Foundation)	The foundation is where the "burning" heat resides. A rich, resinous blend of red amber, guaiac wood, and liquid honey creates a deep, smoky sweetness. This heavy base ensures the fragrance remains anchored to the skin, providing the exceptional longevity required for professional-grade perfume production.

Technical Specifications

Parameter	Specification
Fragrance Notes	Invictus Legends (Paco) Oil Fragrance
Appearance	Transparent to amber liquid
Relative Density	0.945–0.958 g/cm ³ @ 25°C
Refractive Index	1.475–1.488
Flash Point	>72°C (200°F)

Dosage	<p>Fine Perfume / EDP:15% – 20%</p> <p>EDT:8% – 12%</p> <p>Air Fresheners:2% – 8%</p> <p>Body Mist / Spray:3% – 10%</p> <p>Shampoo & Body Wash:0.3% – 2%</p> <p>Candles:5% – 12%</p> <p>Reed Diffusers:15% – 25%</p> <p>Soap Making:1% – 5%</p> <p>Body Lotion / Cream:0.5% – 3%</p>
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

The Invictus Legend fragrance essence oil functions as a high-impact aromatic concentrate engineered for "beast-mode" performance, meaning it is designed to maximize both projection and sillage. Its primary technical function is as a multimodal olfactory anchor; the formulation utilizes heavy resinous molecules and synthetic ambergris to bind lighter marine and citrus notes, preventing them from evaporating too quickly. This results in a "time-release" effect where the salt-streaked freshness persists far longer than in standard fragrances. Chemically, the essence is a homogenized blend of natural and synthetic aromatics, ensuring high stability when mixed with perfumer's alcohol (ethanol) or oil-based carriers. It also serves as a textural modifier in production, adding a "metallic" and "mineralic" crispness that is difficult to achieve with raw essential oils alone. By providing a pre-balanced, professional-grade profile, the essence functions as a reliable turnkey solution for manufacturers, ensuring batch-to-batch consistency and a sophisticated, high-performing end product that meets modern consumer expectations for longevity.

The applications for Invictus Legend essence oil are primarily centered on the premium masculine grooming and lifestyle markets. Its most direct use is in fine fragrance production, specifically for creating Eau de Parfum or Extrait de Parfum sprays that cater to the "sport" or "active luxury" categories. Beyond traditional sprays, its robust profile makes it an ideal scenting agent for high-performance men's grooming products, such as cooling aftershave balms, scented beard oils, and luxury deodorants, where the fragrance needs to withstand body heat and perspiration. In the home fragrance sector, its powerful "cold throw" allows it to be used in reed diffusers and room sprays designed for modern, minimalist interiors. Additionally, due to its high flash point and chemical stability, it is widely applied in cosmetic formulations like artisan soaps and body washes, where it maintains its vibrant, salty-woody character even after the saponification process. Finally, it is an excellent choice for scented promotional items, such as air fresheners or scented packaging, providing a bold and recognizable "victorious" brand identity.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

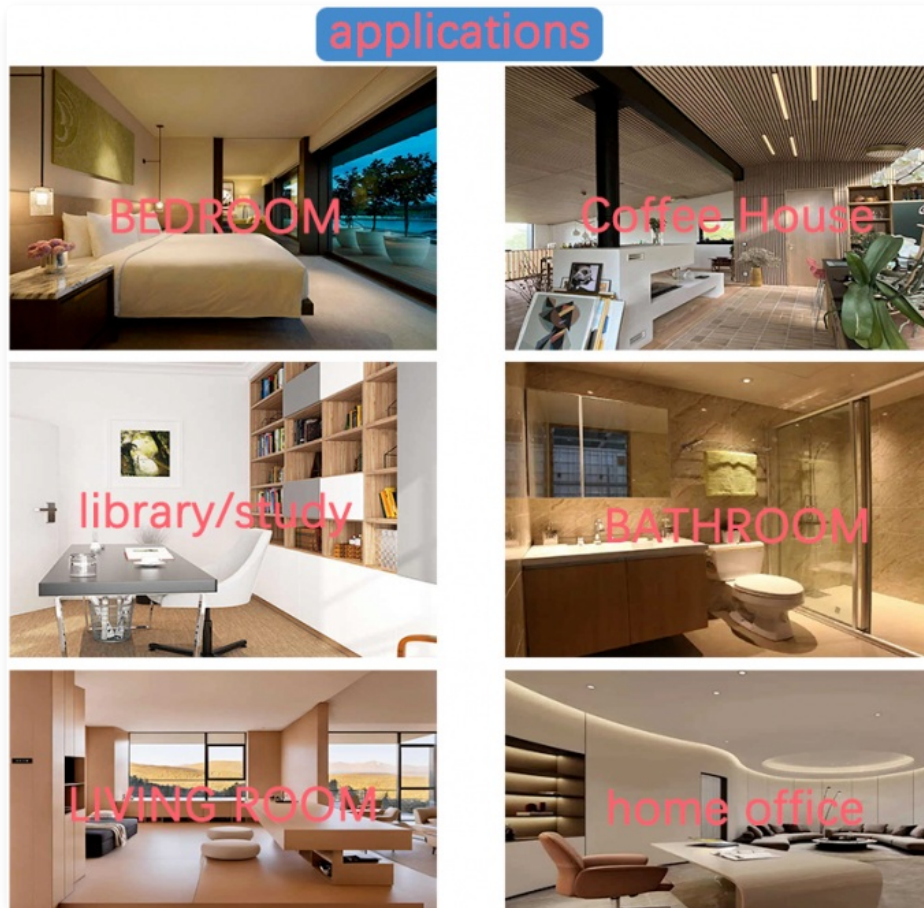

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

applications

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

Production Time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.

Where there are fragrance, there are Plant flavor.
