## Product Description

### High Concentration Silver Mountain Water Fragrance Essence Oil For Perfume Making/Production With Free Sample

Product Code: LDZ-PL10489

Inspired by the breathtaking beauty and crisp air of the Swiss Alps, Silver Mountain Water is a contemporary masterpiece celebrated for its pure, uplifting, and distinctively metallic-fresh character. This fragrance evokes the bracing chill of glistening icy streams cutting through snow-capped peaks, making it a highly versatile, unisex favorite. The scent opens with an invigorating, sharp burst of juicy citrus—primarily bergamot and mandarin orange—that instantly mimics a breath of fresh alpine air. As it settles, it reveals its unique, signature heart, where a green tea note merges with bittersweet, slightly inky blackcurrant and a crisp, salty ozonic accord. Finally, the fragrance matures into a grounding base of rich sandalwood, galbanum, and clean musk, lending a soft, sensual, and slightly powdery warmth to the dry-down. When experienced as a concentrated fragrance essence oil, this composition offers a remarkably long-lasting, intimate aura rather than an overwhelming projection. It serves as a brilliant daytime choice—clean, professional, and minimalist—that effortlessly transitions through all seasons, leaving behind an impression of effortless sophistication and crystal-clear purity.

**Fragrance Profile:**

**Silver Mountain Water features a crisp, linear progression designed to capture the icy freshness of alpine streams.**

Fragrance Notes	Description
Top Notes (Opening)	The fragrance opens with an immediate, bracing burst of sun-drenched bergamot and juicy mandarin orange. This citrus duo delivers a sharp, sparkling brightness that perfectly mimics a breath of crisp, chilled mountain air.

Middle Notes (Heart)	At its heart, the scent transitions into its most iconic accord. A grounding note of earthy green tea pairs with the bittersweet, slightly inky fruitiness of blackcurrant, all suspended in a clean, salty ozonic accord that feels uniquely modern and refreshing.
Base Notes (Foundation)	As it dries down, the composition warms on the skin with a comforting, sophisticated foundation. Creamy sandalwood, resinous galbanum, and a soft, clean musk anchor the brighter notes, leaving a subtle, sensual, and slightly powdery trail that lingers beautifully throughout the day.

## Technical Specifications

Parameter	Specification
Fragrance Notes	Silver Mountain Water Fragrance Essence Oil
Appearance	Transparent to amber liquid
Relative Density	0.994–1.004 g/cm <sup>3</sup> @ 25°C
Refractive Index	1.444–1.454
Flash Point	80°C to 93°C (176°F to 200°F)
Recommended Dosage	Fine Fragrance / Roll-on:10% to 20% Candles & Diffusers:8% to 12% (Candles) / 10% to 40% (Diffusers) Soaps & Body Washes:1% to 5%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

## Applications & Functions

Concentrated Silver Mountain Water fragrance essence oil is highly versatile, serving as a premium raw material across several product industries. In fine perfumery, its concentrated nature makes it ideal for crafting high-quality Eau de Parfums, Eau de Toilettes, and convenient alcohol-free roll-on perfumes. In the personal care and cosmetics sector, its stable formulation allows it to seamlessly blend into luxury body lotions, shower gels, beard oils, and artisanal soaps, imparting a high-end, refreshing scent that elevates daily grooming routines. Finally, it is extensively used in home fragrance manufacturing. Because of its high flash point and clean scent profile, it performs exceptionally well in soy and paraffin candles, wax melts, reed diffusers, and water-soluble room sprays. It fills indoor spaces with a crisp, rejuvenating ambience that appeals universally to all genders.

The primary function of this fragrance essence oil is to deliver a multi-layered, long-lasting olfactory experience, but its benefits extend far

beyond simple scenting. From a psychological and aromatherapy perspective, the crisp citrus and grounding green tea notes function as an olfactory stimulant, promoting feelings of mental clarity, alertness, and stress relief—much like a breath of fresh alpine air. In product formulation, the oil functions as a powerful masking agent, neutralizing the unpleasant, chemical odors of raw cosmetic bases while enhancing the perceived luxury of the final product. Furthermore, its concentrated, oil-soluble structure ensures excellent substantivity, meaning it binds efficiently to skin, hair, and fabric fibers. This functional tenacity allows the crisp, sophisticated aroma to release slowly over time, providing a sustained, premium sensory experience that increases overall consumer satisfaction.

## Industrial Applications

Primary applications include:

**Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils

**Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

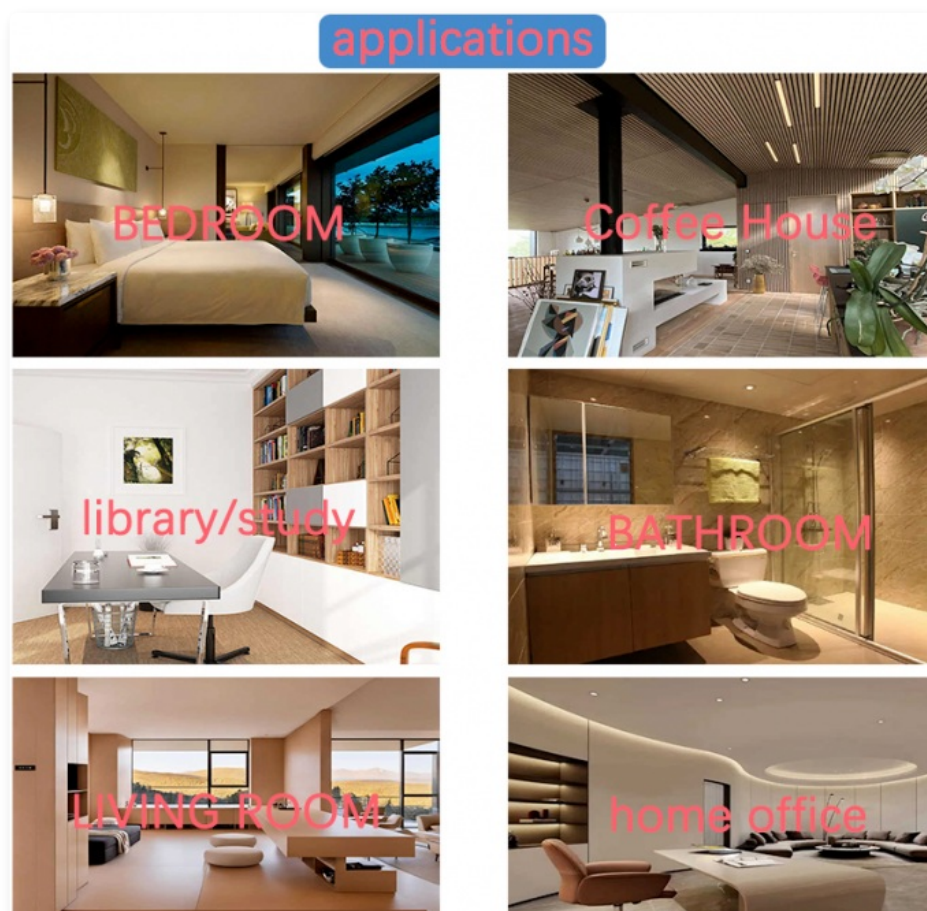

**Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production

**Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques

**Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

## Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

# applications

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

## Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm
