## Product Description

### High Concentration Body Perfume Jasmine & Gardenia Fragrance Oil For Perfume Making/Production With Free Sample

Product Code: LDZ-PL10589

Concentration Jasmine & Gardenia Fragrance Oil is a premium, highly concentrated olfactory compound engineered specifically for high-end fine fragrance manufacturing. This exquisite blend captures the pinnacle of white floral opulence, seamlessly marrying the indolic, rich intensity of absolute jasmine with the lush, green, and velvety creaminess of fresh gardenia blossoms. Professionally formulated, it exhibits remarkable structural integrity, serving as a vibrant heart note that radiates an ultra-feminine, sophisticated, and intoxicating sillage.

The technical architecture of this essence oil emphasizes superior tenacity and blending versatility. It contains highly stable aromatic molecules that resist oxidation, making it an exceptional fortifier for complex floral, oriental, or chypre accords. Beyond its brilliant sensory profile, the oil functions as an olfactory bridge, adding indispensable depth, radiant volume, and a smooth, waxy realism to formulations. Its clean sublimation and excellent compatibility with alcohol and carrier oils ensure a flawless, long-lasting performance in luxury Eau de Parfum and premium personal care lines.

LDZ-PL31573

Seasalt

Production Date: April 16,2026

Production Batch No.: 260416568

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Supplier: Guangzhou Plant Fragrance Co., LTD

Address: No. 1, Keyuan Road, Baiyun District, Guangzhou, Guangdong, 510540, China

### Fragrance Profile:

Bright and uplifting, this premium Citrus Osmanthus fragrance oil masterfully balances vibrant fruitiness with elegant, velvety florals, making it ideal for sophisticated perfume production.

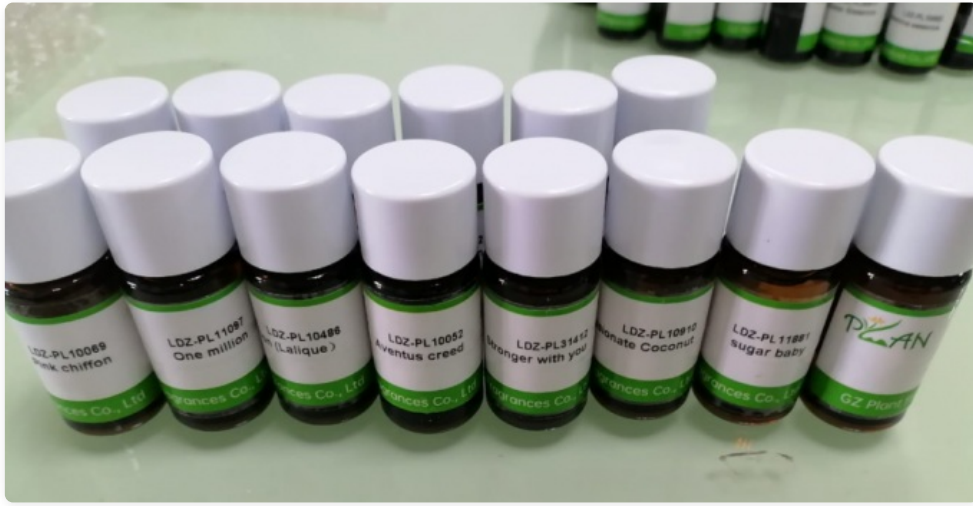

Fragrance Notes	Description
Top Notes (Opening)	A refreshing burst of zesty citrus, crisp bergamot, and sweet orange delivers an immediate, energizing radiance.

Middle Notes (Heart)	The scent evolves into a luxurious core of exotic osmanthus blossom, revealing its signature apricot-like sweetness blended with delicate jasmine.
Base Notes (Foundation)	A smooth, grounding anchor of warm amber, soft musk, and subtle woody undertones ensures a long-lasting, sophisticated finish.

## Technical Specifications

Parameter	Specification
Fragrance Notes	Jasmine & Gardenia Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.915–0.945 g/cm <sup>3</sup> @ 25°C
Refractive Index	1.465–1.495
Flash Point	>78°C (172.4°F)
Dosage	Eau de Parfum: 10%-25% Eau de Toilette/Cologne: 5%-15% Body Care / Cream: 1%-3% Candles/Diffusers: 5%-10%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

## Applications & Functions

This premium Citrus Osmanthus essence oil is highly versatile, serving as a core aromatic component across multiple manufacturing sectors. In fine perfumery, it acts as the centerpiece for niche and mass-market fragrances, seamlessly blending into Eau de Parfum, Eau de Toilette, and solid perfumes. In the personal care industry, its chemical stability makes it ideal for scenting luxury body washes, nourishing lotions, hair care formulations, and artisanal soaps without causing discoloration.

Additionally, it is widely utilized in the home ambiance sector, performing exceptionally well in soy candles, reed diffusers, and room sprays due to its excellent cold and hot scent throw. Finally, the cosmetics sector integrates this oil into facial mists and premium skincare lines to elevate the sensory user experience, offering brands a sophisticated, gender-neutral aromatic profile that appeals to modern consumers seeking fresh yet deeply elegant floral-fruity signatures.

From a functional standpoint, this fragrance oil delivers both technical and psychological benefits. Mechanically, it serves as a powerful masking agent, neutralizing the harsh or unpleasant chemical base odors inherently found in cosmetic raw materials and surfactant bases. Its specific molecular structure provides excellent fixative properties, slowing down the evaporation rate of volatile top notes and ensuring a long-lasting, linear scent evolution on the skin.

Aromachologically, the high concentration of crisp citrus molecules functions as an immediate mood elevator, scientifically recognized for stimulating energy, reducing mental fatigue, and promoting clarity. Simultaneously, the rich, velvety osmanthus and warm base notes introduce an anxiolytic, grounding function, which effectively reduces stress, fosters emotional balance, and induces relaxation. This dual-action functionality transforms everyday consumer products into therapeutic, spa-like rituals that enhance overall emotional well-being and brand loyalty.

## Industrial Applications

Primary applications include:

**Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils

**Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

**Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production

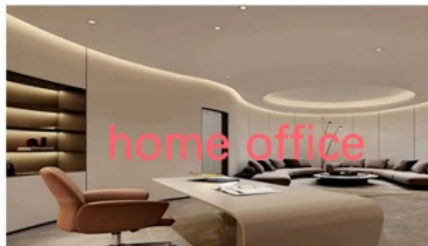

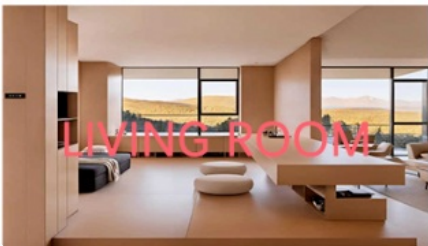

**Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques

**Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

## Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
