Product Description

Camellia Fragrance Oil For Shampoo and Soap Making /Production with High-Surfactant Stability, IFRA Compliance ,Body Wash Fragrance

Product Code: LDZ-PL20397

Body Wash Fragrance Camellia Fragrance Oil is a premium aromatic ingredient specially developed for shampoo, soap making, and personal care product manufacturing. Inspired by the delicate beauty of blooming camellia flowers, this fragrance delivers a soft floral scent profile that feels fresh, elegant, and comforting. The fragrance combines gentle floral accords with subtle green and powdery nuances, creating a clean and luxurious sensory experience ideal for modern bath and body care products.

Its high concentration ensures excellent scent diffusion, long-lasting fragrance retention, and stable performance in various wash-off and rinse-off formulations. Carefully blended with high-quality aromatic materials, the fragrance oil performs exceptionally well in body washes, shampoos, soaps, conditioners, bath products, lotions, and skincare applications. The smooth camellia aroma adds a touch of sophistication and freshness while maintaining a soft and relaxing character suitable for daily use.

Body Wash Fragrance Camellia Fragrance Oil is ideal for brands seeking a refined floral fragrance with broad consumer appeal. Its elegant floral softness, fresh clean sensation, and stable performance help create premium personal care products that enhance brand identity and provide consumers with a soothing and memorable bathing experience.

Fragrance Profile & Characteristics:

Natural camellia blossoms possess an inherently delicate, near-scentless mystique, this specialized fragrance oil is engineered as a captivating "fantasy accord." It balances ethereal, clean freshness with a resilient structure designed to survive high-surfactant environments.

Top Notes	The scent opens with a crisp, invigorating burst of citrus peel, bergamot, and faint green-waxy nuances. This initial layer mimics the dewy freshness of a morning garden, introducing a vibrant, sparkling clarity that cuts through heavy soap bases.
Middle Notes	At its core lies the elegant pink camellia accord, seamlessly bridged by lotus blossom, soft jasmine, and light rose. This rich, powdery heart delivers the signature sophisticated, transparent floral identity that remains distinct during product use.
Base Notes	The dry-down anchors the fragrance with an enduring blend of white musk, warm amber, and smooth sandalwood.

Technical Specifications:

Product Name	Camellia Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.925 to 0.965 g/cm ³ @ 25°C
Flash Point	>75°C
Refractive Index (RI)	1.455 to 1.490 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Candles & Diffusers	5% - 10%

Functions and Applications

Body Wash Fragrance Camellia Fragrance Oil is designed to provide a soft, elegant, and long-lasting floral aroma that enhances the sensory quality of personal care and cleansing products. Its primary function is to deliver the delicate freshness of camellia flowers combined with smooth floral and powdery accords, creating a clean and luxurious bathing experience. The fragrance oil offers excellent scent diffusion and stable retention performance, even in wash-off and rinse-off formulations such as shampoos, body washes, and soaps. In personal care products, it functions as a fragrance-enhancing ingredient that improves overall product appeal, consumer satisfaction, and brand perception. The elegant floral character helps create a relaxing and refreshing atmosphere during use while leaving a gentle lingering scent on the skin and hair. It also functions as an odor-balancing ingredient, helping neutralize unwanted base odors from surfactants and raw materials. Carefully formulated with premium aromatic ingredients, the fragrance maintains consistency during manufacturing and storage. Overall, its function is to elevate product value, strengthen fragrance identity, and help brands create high-quality bath and body care products with a refined and comforting floral scent experience.

Applications:

Body Wash Fragrance Camellia Fragrance Oil is widely used in personal care, bath, and home fragrance industries because of its elegant floral scent profile and excellent formulation compatibility. It is ideal for body washes, shower gels, shampoos, conditioners, liquid soaps, bar soaps, and bath products that require a clean, soft, and sophisticated fragrance character. The fragrance oil performs exceptionally well in rinse-off formulations by maintaining smooth scent diffusion and long-lasting freshness after use. It is also suitable for body lotions, creams, skincare products, and hand washes, adding a luxurious camellia floral aroma to daily personal care routines. In addition, the fragrance oil can be incorporated into scented candles, reed diffusers, laundry detergents, and fabric softeners to provide a fresh and comforting floral atmosphere in living spaces. Thanks to its stable formulation performance and broad compatibility with surfactant and cosmetic systems, it is suitable for both large-scale manufacturing and customized fragrance development projects. The fragrance is especially suitable for brands seeking elegant floral bath and body care products with premium market appeal and consumer-friendly softness.
