## Product Description

### Hotel Diffuser Fragrance With Free Sample Pine Forest Flavor Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production Home Spray

Product Code: LDZ-PL30149

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

#### Product Overview:

Plant Pine Forest Fragrance Oil is inspired by the refreshing tranquility of evergreen forests and mountain landscapes, offering a natural, clean, and revitalizing scent experience for hotel diffusers, reed diffusers, cold scented candles, and home fragrance products. Unlike typical floral, fruity, or luxury hotel fragrances that focus on elegance and sophistication, this fragrance stands out through its authentic forest character and strong connection to nature.

The fragrance opens with crisp pine needles, fresh green leaves, and cool forest air accords that immediately evoke the feeling of walking through a dense woodland after rainfall. Subtle herbal nuances and woody elements in the heart add depth and realism, while cedarwood, fir balsam, and soft musk in the base create a long-lasting and grounding finish. The overall scent profile is fresh, green, woody, and highly atmospheric.

A key differentiating feature of Plant Pine Forest Fragrance Oil is its ability to bring outdoor freshness indoors, making it particularly suitable for wellness spaces, eco-resorts, spas, mountain lodges, and nature-inspired hospitality projects. It delivers excellent diffusion performance, strong scent retention, and a distinctive natural identity that differs from conventional hotel fragrances. This versatile fragrance is ideal for creating relaxing, refreshing, and restorative environments while meeting the growing consumer demand for nature-inspired scent experiences.

PLAN

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25, 2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

## Fragrance Profile & Characteristics:

Plant Pine Forest Fragrance Oil is a nature-inspired fragrance designed to capture the crisp freshness and calming atmosphere of a lush evergreen forest. Its scent profile combines vibrant green notes, aromatic woods, and earthy undertones to create an authentic outdoor experience that feels both invigorating and grounding. The fragrance is especially suitable for hotel diffusers, reed diffusers, scented candles, and wellness-oriented fragrance products.

Fragrance Notes	Description
Top Notes	The fragrance opens with fresh pine needles, eucalyptus leaves, crisp bergamot, and cool mountain air accords. These bright and energizing notes create an immediate sensation of walking through a pristine pine forest, delivering freshness, clarity, and vitality.
Middle Notes	At the heart, aromatic fir balsam, green cedar leaf, rosemary, and subtle herbal nuances emerge. These notes add depth and complexity while enhancing the fragrance's natural woodland character and soothing appeal.
Base Notes	The scent settles into a rich foundation of cedarwood, sandalwood, oakmoss, earthy vetiver, and soft white musk. These warm and grounding notes provide excellent longevity and a smooth, comforting finish.

Overall, Plant Pine Forest Fragrance Oil is characterized by its fresh, green, woody, and restorative aroma, offering a realistic forest-inspired scent experience that brings nature indoors.

## Technical Specifications

Plant Holiday Inn Inspired Fragrance Oil is valued for its excellent diffusion performance, long-lasting aroma retention, formulation stability, and broad compatibility across multiple home fragrance and hospitality applications.

Parameter	Specification
Product Name	Pine Forest Flavor Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.920–0.970 g/cm <sup>3</sup> @ 25°C
Refractive Index	1.455–1.490 @ 20°C

Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

## Functions & Applications:

Plant Pine Forest Fragrance Oil is specifically formulated to recreate the refreshing, calming, and restorative atmosphere of a natural evergreen forest. Its primary function is to enrich indoor environments with a clean and long-lasting fragrance that promotes relaxation, mental clarity, and a stronger connection to nature. The combination of fresh pine, green herbal notes, and warm woods helps create an uplifting sensory experience while reducing the perception of stale or unwanted odors. This fragrance is particularly effective in spaces designed to encourage wellness, focus, and stress relief, making it suitable for both hospitality and residential environments.

In commercial applications, the fragrance can support scent branding by providing a distinctive nature-inspired identity that differentiates a venue from conventional floral or luxury hotel aromas. It also delivers excellent diffusion performance, ensuring consistent fragrance release and long-lasting ambient scenting. The fragrance maintains stability across various fragrance bases and delivery systems, allowing manufacturers to achieve reliable product performance. By bringing the essence of outdoor forests into indoor spaces, Plant Pine Forest Fragrance Oil helps create environments that feel fresh, tranquil, rejuvenating, and naturally inviting throughout the day.

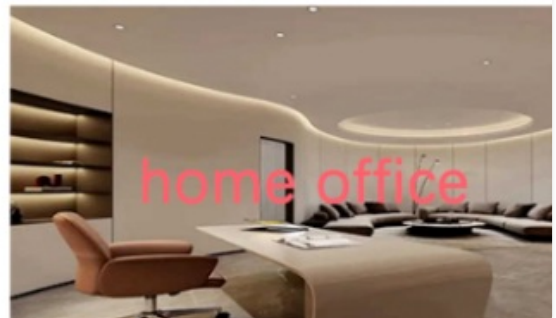

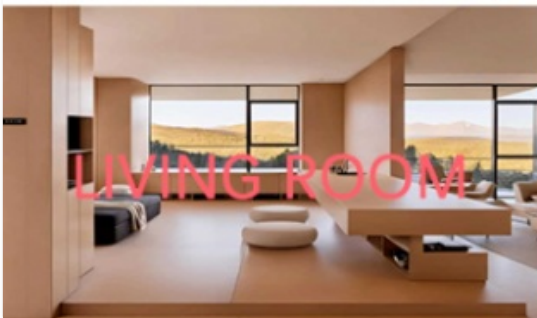

## Primary Applications

Plant Pine Forest Fragrance Oil is highly versatile and can be incorporated into a broad range of fragrance and personal care products. It is widely used in hotel diffuser systems, aroma machines, reed diffusers, and home fragrance diffusers, where its fresh forest-inspired scent helps create a relaxing and nature-oriented atmosphere. The fragrance is also ideal for room sprays, linen sprays, air fresheners, and odor-control products that require a clean, long-lasting aroma.

In candle manufacturing, it performs exceptionally well in soy wax candles, paraffin candles, container candles, and premium scented candle collections, providing excellent hot and cold scent throw. The fragrance is especially suitable for eco-resorts, spas, wellness centers, mountain lodges, yoga studios, and hospitality projects seeking a distinctive natural scent identity. Beyond home fragrance applications, it can be used in soaps, body washes, shampoos, conditioners, and other personal care products that emphasize freshness and botanical inspiration.

Its balanced formulation and broad compatibility make it an excellent choice for private-label brands and manufacturers looking to develop products that deliver an authentic forest experience while appealing to consumers seeking wellness, relaxation, and nature-inspired lifestyles.

## applications

## Our Advantages:

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

### Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

### Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging and Shipping

### Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

### Shipping Information
